**Reading the World** Mary Franklin-Brown, 2012-09-01 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias. Various referred to as a speculum thesaurus or imago mundi, the term encyclopedia was not commonly applied to such books until the eighteenth century. These texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic. Because they reproduced rather than simply summarized parts of prior texts, these compilations became libraries in miniature. In this groundbreaking study, Mary Franklin Brown examines writings in Latin, Catalan, and French that are connected to the encyclopedic movement: Vincent of Beauvais's *Speculum maius*, Ramon Llull's *Libre de meravelles*, *Arbor scientiae*, and *Arbre de filosofia d amor*, and Jean de Meun's continuation of the *Roman de la Rose*. Franklin Brown analyzes the order of knowledge in these challenging texts, describing the wide-ranging interests, the textual practices including commentary, compilation, and organization, and the diverse discourses that they absorb from preexisting classical, patristic, and medieval writing. She also demonstrates how these encyclopedias, like libraries, became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed. But Franklin Brown's study will not appeal only to historians; she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature. She shows how encyclopedists employed the same practices of figuration, narrative, and citation as poets and romancers, while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias. With rich and innovative readings of texts both familiar and neglected, *Reading the World* reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age.

**Victorian Parables** Susan E. Colon,2012-02-09 The familiar stories of the good Samaritan the prodigal son and Lazarus and the rich man were part of the cultural currency in the nineteenth century and Victorian authors drew upon the figures and plots of biblical parables for a variety of authoritative interpretive and subversive effects However scholars of parables in literature have often overlooked the 19th century novel assuming that realism bears no relation to the subversive iconoclastic genre of parable In this book Susan E Col n shows that authors such as Charles Dickens Margaret Oliphant and Charlotte Yonge appreciated the power of parables to deliver an ethical charge that was as unexpected as it was disruptive to conventional moral ideas Against the common assumption that the genres of realism and parable are polar opposites this study explores how Victorian novels despite their length verisimilitude and multi plot complexity can become parables in ways that imitate interpret and challenge their biblical sources

**Imperfect Histories** Ann Rigney,2018-09-05 Imperfect Histories puts imperfection at the heart of a theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing

into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices

**Inferiorities** Sebastian Matzner,Stephen Harrison,2018-11-01 This volume investigates an important and surprisingly widespread phenomenon in Latin literature which has to date received little sustained discussion the deliberate assumption of a weaker voice by speakers who in fact hold sufficient status not to be forced into this position Though often associated with the markers of imperial hegemony and elite speech Latin literature evinces a remarkably broad range of strategies designed to enable the adoption of a markedly disempowered voice from topoi such as recusatio professing a lack of ability to write in status conforming superior genres and rhetorical devices such as prosopopoeia artfully and strategically adopting a persona to garner favour even when this means temporarily forfeiting one's higher status and discursive privileges to the long silenced female heroines of Ovid's *Heroides* and satire's irreverent take on the great and the good by framing its narratives as being articulated from below Even large scale cultural self positionings fall within this scope be they expressions of Roman cultural inferiority vis vis classical Greece or the tensions that arise between humble yet spiritually superior Christian writers and their grand canonical and classical yet pagan predecessors The intersecting case studies offered in *Complex Inferiorities* examine this phenomenon in a wide range of genres periods and authors By demonstrating that re negotiating alleged weakness constitutes a central activity in Latin literature this volume reveals the extent of the literary and cultural political possibilities opened up by assuming and speaking in voices of weakness and inferiority Authored by experts in their fields the individual chapters explore the crucial role of the weaker voice in establishing perpetuating and challenging hierarchies and values in a wide range of contexts from poetics and choices of genre to social status and intra and intercultural relations thereby offering invaluable insights not only for the study of classics but for literary and cultural studies across the humanities
