**A Nietzschean Metaethics** David Emmanuel Rowe, 2019-10-17 This book develops a novel interpretation of the late nineteenth century German philosopher Friedrich Nietzsche as holding a distinct and original metaethical position a theory about our practice of ethics David Emmanuel Rowe characterizes it as a human centered metaethics A central achievement of *A Nietzschean Metaethics* is to bring Nietzsche into a conversation with the analytic metaethical tradition To do so Rowe interprets Nietzsche's use of such concepts as the notorious will to power his ideal agent the superman or *bermensch* nihilism the eternal recurrence Perspectivism and Being and Becoming The result is a view of Nietzsche as a radical moral error theorist which is to say he defends the view that all statements that appeal to some value for their truth are false This theory is radical because Nietzsche argues that insofar as language requires certain concepts for its truth it is in error in virtue of an appeal to some value Rowe also offers a view where the increase in one's power is a standard by which one can make sense of Nietzsche's so called re evaluation of all values By means of this resolution Nietzsche criticizes some contemporary themes in metaethics such as particular views about moral motivation reasons moral error theory and agency

Ornament and Order Dr Rafael Schacter, 2014-05-28 Based on an in depth ethnographic study working with some of the world's most influential Independent Public Artists this book takes a completely new approach

Placing these illicit aesthetic practices within a broader historical political and aesthetic context it argues that they are in fact both intrinsically ornamental working within a classic architectonic framework as well as innately ordered within a highly ritualized performative structure Rather than disharmonic destructive forms rather than ones solely working within the dynamics of the market these insurgent images are seen to reface rather than deface the city operating within a modality of contemporary civic ritual      *Proceedings and Addresses of the American Philosophical Association* American Philosophical Association,2007 List of members in v 1      **Reading Philosophy** Samuel Guttenplan,Jennifer Hornsby,Christopher Janaway,John Schwenkler,2021-03-03 A key introductory philosophy textbook making use of an innovative interactive technique for reading philosophical texts Reading Philosophy Selected Texts with a Method for Beginners Second Edition provides a unique approach to reading philosophy requiring students to engage with material as they read It contains carefully selected texts commentaries on those texts and questions for the reader to think about as they read It serves as starting points for both classroom discussion and independent study The texts cover a wide range of topics drawn from diverse areas of philosophical investigation ranging over ethics metaphysics epistemology philosophy of mind aesthetics and political philosophy This edition has been updated and expanded New chapters discuss the moral significance of friendship and love the subjective nature of consciousness and the ways that science might explore conscious experience And there are new texts and commentary in chapters on doubt self and moral dilemmas Guides readers through the experience of active engaged philosophical reading Presents significant texts contextualized for newcomers to philosophy Includes writings by philosophers from antiquity to the late 20th century Contains commentary that provides the context and background necessary for discussion and argument Prompts readers to think through specific questions and to reach their own conclusions This book is an ideal resource for beginning students in philosophy as well as for anyone wishing to engage with the subject on their own      *The Routledge Handbook of Social Epistemology* Miranda Fricker,Peter J. modern philosophies and between theoretical and literary writing about the place of value in human life Each of the book's six chapters focuses on a particular theme the nature of goodness subjectivity and objectivity in ethical thinking justice and virtue moral motivation the place of moral obligation and the idea that literature can be a form of moral philosophy The historical readings come from Plato Aristotle Hume Kant and Mill and the contemporary readings from Foot Rawls McDowell Mackie Nagel Williams Nussbaum and Gaita The editors' introductions to the themes and the interactive commentaries they provide for each reading are intended to make Reading Ethics come as close as possible to a seminar in philosophy

**What Should I Do?** Elisa Mai, 2011-01-06 Is it ever OK to be dishonest Is it wrong to enjoy violent video games or to cheat on one's tax returns Should we be vegetarians When is war justified Are there any moral facts or is morality relative Life throws ethical questions at us every day Some are momentous and difficult while others are relatively trivial and easily worked out still others lodge themselves in our heads and bother us for years We regularly encounter controversial issues such as prostitution abortion or racial profiling tricky conundrums Would I be wrong to take advantage of my teacher's forgetfulness When should I allow my teenage daughter to have a boyfriend Are we responsible for our emotions and classic problems What is the relation between religion and morality Is suicide wrong Why should we be moral Philosophers have engaged with these questions for as long as there have been philosophers but most people have had no exposure to the wide variety of arguments and positions that they have offered The website AskPhilosophers.org has sought to fill this void bringing together a panel of distinguished philosophers who use their knowledge of the history of philosophy as well as their own skills and ingenuity to respond to questions sent in from all over the world What Should I Do is a collection of some of the most interesting questions about ethics to have appeared on the website during its first five years It is a delightfully fresh book that will encourage readers to think a bit more deeply about the moral questions they frequently encounter and will provide them with the tools to do so

Embodying Data Qi Li, 2020-06-19 This book investigates a new interactive data visualisation concept that employs traditional Chinese aesthetics as a basis for exploring contemporary digital technological contexts It outlines the aesthetic approach which draws on non-Western aesthetic concepts specifically the Yijing and Taoist cosmological principles and discusses the development of data-based digital practices within a theoretical framework that combines traditional Taoist ideas with the digital humanities The book also offers a critique of the Western aesthetics underpinning data visualisation in particular the Kantian sublime which prioritises the experience of power over the natural world viewed at a distance Taoist philosophy in contrast highlights the integration of the surface of the body and the surface of nature as a Taoist body rather than promoting an opposition of mind and body The book then explores the transformational potential between the human body and technology particularly in creating an aesthetic approach spanning traditional Chinese aesthetics and gesture-based technology Representing a valuable contribution to the digital humanities the book helps readers understand data-based artistic practices while also bringing the ideas of traditional Chinese aesthetics to

Western audiences In addition it will be of interest to practitioners in the fields of digital art and data visualisation seeking new models *Handbuch Sprachphilosophie* Nikola Kompa, 2015-09-07 Wie hängt Sprache mit dem Denken zusammen Ermöglicht oder verhindert sie es die Wahrheit zu erfassen Welche Rolle spielt sie für die zwischenmenschliche Kommunikation Dieses Handbuch skizziert die Wurzeln der Sprachphilosophie in Antike und Mittelalter stellt zentrale Strömungen vor Strukturalismus Phänomenologie Pragmatismus etc und beschreibt grundlegende Ausdrücke sowie ihre Funktionen Proposition Kennzeichnung Eigennamen etc Im Zentrum des Bandes stehen bedeutungstheoretische Ansätze der analytischen Sprachphilosophie der heute vorherrschenden Herangehensweise Weitere Kapitel beschreiben zentrale Merkmale der Sprache Analytizität Normativität Kompositionalität Konventionalität Vagheit Metaphorik etc **A Theory of Literary**

**Explication** Kenneth B. Newell, 2011-07-12 This book presents current multidisciplinary research and theory from 17 different fields most of them never before applied to literary explication in order to provide 1 justification for the practice of a relative probability type of explication as distinguished from interpretation 2 a relativistic foundation for the preference of some explications of a literary work over others and thereby 3 a middle way between the postmodern pluralist view that a work has only an unlimited number of equally acceptable though different explications and the modern intentionalist view that it has only one acceptable explication the author's Nine of the 17 fields are of primary relevance critical theory hermeneutics probability theory philosophy of science second order logic and four fields of cognitive science linguistics epistemology neuropsychology and artificial intelligence But the book also touches upon textual criticism legal theory measure theory fuzzy logic animal learning behavior developmental psychology evolutionary epistemology and neurobiology The book shows that those using a relative probability type of explication on a literary work can achieve consensus because the healthy adult human brain has an evolved uniform and probably innate ability to form relative probability judgments and to form them in the practice of activities like reading and explicating that are not uniform and innate Lastly the book contributes to the scholarly areas of explication theory and practice first by providing a relativistic foundation for a craft explication that currently is not acknowledged to have any foundation but nonetheless continues and will continue to be practiced and second by presenting a means relative epistemic probability by which judging some explications of a literary work to be more acceptable than others may be justified philosophically an uncommon circumstance in this postmodern era in which philosophical justification of many beliefs and practices is thought to be untenable **Philosophical Inquiry**, 2008

*Beleidigungswörter* Björn Technau, 2018-04-09 Dass sich in der Forschung bislang kein Konsens darüber abzeichnet wie die Semantik und Pragmatik pejorativer Personenbezeichnungen am besten gefasst werden kann hat damit zu tun dass Beleidigungswörter mehrere Bedeutungsarten miteinander kombinieren die ihre jeweils eigenen Herausforderungen an die Semantik Pragmatik Unterscheidung stellen Das Buch entwickelt auf Grundlage empirischer Daten ein semantisches Analysemodell für verschiedene Arten von Beleidigungswörtern und beleuchtet mithilfe konversationsanalytisch aufbereiteter

Gesprächsdaten deren unterschiedlichen Verwendungsweisen Appropriation Banter Comedy Hate Speech Das Multikomponentenmodell ist damit stark an der Realität der Sprachgemeinschaft orientiert und zeichnet sich u.a. durch die Einführung einer skalaren Bedeutungskomponente Beleidigungsgrad aus sowie durch eine Abtrennung der pejorativen von der expressiven Bedeutung Neben dem bislang umfangreichsten Überblick über die einschlägige Forschung bietet das Buch neue Impulse für die angewandte Sprachwissenschaft und viele interdisziplinäre Anknüpfungspunkte Dies scheint insbesondere relevant im Kontext aktueller Debatten um Hasskommentare im Internet sowie angesichts der Probleme die sich in unserer Gesellschaft in Form von Mobbing Gewalt und Fremdenfeindlichkeit stellen The Philosopher's Index ,2008 Vols for 1969 include a section of abstracts American Book Publishing Record ,2006
