**Reading the Signs** Sandra M. Estanek, Robert S. Meyer, Laura A. Wankel, Edward P. Wright, 2008-06-01 The purpose of this book is to provide student affairs professionals who work at Catholic colleges and universities a tool for reflection and dialogue on difficult issues they face in their campuses It is intended to be used in staff development sessions in training sessions with student leaders and resident assistants and in master's level student affairs preparation programs at Catholic colleges and universities This book is the next step in a series of projects that began in the early 1990s after the publication by the Vatican of the apostolic constitution This book is a collection of case studies that focus on particular issues related to Catholic identity that are faced by student affairs professionals who work at Catholic colleges and universities By its very nature the focus on the difficult issues we face is a limitation The editors in no way wish to imply that Catholic identity is only about problems Previous research and experience clearly indicates those who work at Catholic institutions understand and embrace the opportunities that this environment provides for them But as Schaller and Boyle 2006 indicated there is a need for dialogue around the difficult issues that we face The editors believe that a book of case studies is particularly helpful because it allows a staff to discuss problems at fictionalized universities and then ask themselves What would we do here The editors solicited cases using a mailing list provided by the ASACCU thus the cases included in this book represent the real concerns of those practicing in the field Some of the cases that are included are true stories of situations that actually happened some are fictional and some are hybrid stories based on actual events but changed to illustrate an issue To protect the privacy of those

who were kind enough to share their difficult issues with their colleagues the names of case contributors are listed at the beginning of the book in alphabetical order rather than being listed with the cases they contributed     Reading the Signs
