Readings Activities Human Geography Lucy Jarosz, Katharyn Mitchell, 1995-06-01 **Handbook of Research on Assessment Practices and Pedagogical Models for Immigrant Students** Keengwe, Jared, Onchwari, Grace, 2019-06-14

Standardized tests have been selected as a key assessment factor in expanding the academic achievement of the national student population. However, these tests position immigrant students at the risk of academic failure, leading education experts to search for new strategies and teaching models. The *Handbook of Research on Assessment Practices and Pedagogical Models for Immigrant Students* is a critical research publication that focuses on research-based pedagogical practices for teaching immigrant students. Edited by a prominent IGI Global editor, this book examines the latest professional development models and assessment practices of English learners (ELs). Covering essential topics such as second language acquisition (SLA), classroom management, teacher education, refugee resettlement programs, and more, this publication is a valuable resource for academicians, professionals, researchers, administrators, faculty, and classroom teachers, as the social and academic needs of English language learners continue to present a challenge for many schools and teachers.
