Readings In Social Theory And Modernization 1998 1999:

Readings in Social Theory and Modernization John G. Fox, John T. McGrath, 1998 **Handbook of Contemporary European Social Theory** Gerard Delanty, 2006-09-27 This innovative publication maps out the broad and interdisciplinary field of contemporary European social theory. It covers sociological theory, the wider theoretical traditions in the social sciences including cultural and political theory, anthropological theory, social philosophy and social thought in the broadest sense of the term. This volume surveys the classical heritage, the major national traditions and the fate of social theory in a post-national and post-disciplinary era. It also identifies what is distinctive about European social theory in terms of themes and traditions. It is divided into five parts: disciplinary traditions, national traditions, major schools, key themes and the reception of European social theory in America and Asia. Thirty-five contributors from nineteen countries across Europe, Russia, the Americas and Asian Pacific have been commissioned to utilize the most up-to-date research available to provide a critical international analysis of their area of expertise. Overall, this is an indispensable book for students, teachers and researchers in sociology, cultural studies, politics, philosophy and human geography and will set the tone for future research in the social sciences.

Social Theory Charles Lemert, 2018-05-15 This book provides an illuminating introduction to a collection of readings on social theory and provides an overview of the socio-historical context and delineation of key thinkers and texts. Identity, Culture and Globalization Yitzhak Sternberg, 2021-10-01 This book is about contemporary sociological analysis, its discussions, contradictions and controversies. Authors from various backgrounds discuss developments on all continents. The 34 contributions are centered on six themes. The first is multiple modernities, showing us that there is no single road to the modernization of societies. The second theme is globalization with new concepts like spatialization, world languages and new social movements. In part three, multiculturalism and diaspora movements are viewed as the pivotal factors for change in many societies. The fourth theme is the decline of the accountability of the state, concentrating on the shortcomings of traditional states and the emergence of new resources. In part five, the concept of postmodernity is discussed from the angles of identity, social reality, detachment and legacy. Finally, the sixth part, Toward a New Agenda, looks into the future and lets sociology or rather social knowledge play a major part in today's society. This volume is a rich collection of practical examples and solid arguments by some of the best sociologists in the world. Also available in paperback ISBN 9789004128736
