Readings Essays On The Material Text And Literature In America:

Reading Acts Barbara Ryan, Amy M. Thomas, 2002 Drawing on such original sources as diaries commonplace books fan mail to authors booksellers reports and student papers the contributors to Reading Acts recover a wealth of important historical information that expands our understanding of reading in the United States during the nineteenth and early twentieth centuries The emphasis throughout is on the act of reading and the attendant proposition that reading acts upon those who read Covered in this volume are a wide range of fascinating topics including the cultural agency of women during the early national period readers criticisms of the critics in the 1830s readers relationships with beloved authors after the Second Industrial Revolution and attitudes toward single motherhood in the mid twentieth century as revealed in readers responses to a True Confessions magazine article Contributors from diverse fields and disciplines highlight the ways in which human diversity and often contrariness are reflected in reading habits and enthusiasms They show how a desire to read and a love of reading have impelled average Americans to voice their opinions defend their tastes and confront cultural arbiters whose dictates failed to match their lived experiences By focusing on documents left by readers deemed ordinary the essayists raise important questions that existing approaches and methodologies often obscure Their treatment of key variables in the act of reading such as gender institutional setting and class is consistently fresh provocative and illuminating

Consumerism and Prestige
 Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary
 production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding
 typography and paper stock reflect or even determine their cultural status In many cases for example the distinctions
 between highbrow and lowbrow taste have little to do with the content of the texts themselves as books often function as
 markers of socioeconomic status like clothing or home decor One might even go so far as to say that the concept of literary
 taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining
 how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development
 of technology literacy and social power

American Literature and the Culture of Reprinting, 1834-1853 Meredith L.
 McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature
 And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would
 call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign
 works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal
 arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial
 decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the
 workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies
 from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally
 divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks
 both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as
 literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the
 Culture of Reprinting 1834 1853* delineates a distinctive literary culture that was regional in articulation and transnational in
 scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with
 the extension of authors rights

A Passion for Books D. Salwak, 1999-04-23 Leading writers and critics including

Margaret Drabble Alan Sillitoe and Ferdinand Mount share their passion for books and the joys of reading in an inspiring collection of essays and writings *A Passion for Books* is both a celebration of the value and importance of reading and a spirited defence against the many gloomy voices in our so called electronic age who say the book will soon be obsolete This book itself a joy to read is written for anyone who cares at all about the past and future of books and reading **Books**

Mexal, 2013-06-01 Founded in 1868 the Overland

Monthly was a San Francisco based literary magazine whose mix of humor pathos and romantic nostalgia for a lost frontier was an immediate sensation on the East Coast Due in part to a regional desire to attract settlers and financial investment the essays and short fiction published in the Overland Monthly often portrayed the American West as a civilized evolution of and not a savage regression from eastern bourgeois modernity and democracy Stories about the American West have for centuries been integral to the way we imagine freedom the individual and the possibility for alternate political realities *Reading for Liberalism* examines the shifting literary and narrative construction of liberal selfhood in California in the late nineteenth century through case studies of a number of western American writers who wrote for the Overland Monthly including Noah Brooks Ina Coolbrith Bret Harte Jack London John Muir and Frank Norris among others *Reading for Liberalism* argues that Harte the magazine's founding editor and the other members of the Overland group critiqued and reimagined the often invisible fabric of American freedom *Reading for Liberalism* uncovers and examines in the text of the Overland Monthly the relationship between wilderness literature race and the production of individual freedom in late nineteenth century California **Archives of Instruction** Jean Ferguson Carr, Stephen L. Carr, Lucille M

Schultz, 2005-02-21 Both a historical recovery and a critical rethinking of the functions and practices of textbooks *Archives of Instruction* Nineteenth Century Rhetorics Readers and Composition Books in the United States argues for an alternative understanding of our rhetorical traditions The authors describe how the pervasive influence of nineteenth century literacy textbooks demonstrate the early emergence of substantive instruction in reading and writing Tracing the histories of widespread educational practices the authors treat the textbooks as an important means of cultural formation that restores a sense of their distinguished and unique contributions At the beginning of the nineteenth century few people in the United States had access to significant school education or to the materials of instruction By century's end education was a mass though not universal experience and literacy textbooks were ubiquitous artifacts used both in home and in school by a growing number of learners from diverse backgrounds Many of the books have been forgotten their contributions slighted or dismissed or they are remembered through a haze of nostalgia as tokens of an idyllic form of schooling *Archives of*

Instruction suggests strategies for re reading the texts and details the watersheds in the genre providing a new perspective on the material conditions of schooling book publication and emerging practices of literacy instruction The volume includes a substantial bibliography of primary and secondary works related to literacy instruction at all levels of education in the United States during the nineteenth century

Reception Histories Steven Mailloux, 2018-09-05 In his earlier Rhetorical Power Steven Mailloux presented an innovative and challenging strategy for combining critical theory and cultural studies That book has stimulated wide ranging discussion and debate among diverse audiences students and specialists in American studies speech communications rhetoric composition law education biblical studies and especially literary theory and cultural criticism Reception Histories marks a further development of Mailloux s influential critical project as he demonstrates how rhetorical hermeneutics uses rhetoric to practice theory by doing history Reception Histories works out in detail what rhetorical hermeneutics means in terms of poststructuralist theory Part One nineteenth century U S cultural studies Part Two and the contemporary history of curricular reform within the so called Culture Wars Part Three

Mailloux situates, defends and elaborates the theory he first proposed in *Rhetorical Power* and he exemplifies it with a new series of provocative reception histories. He also both critiques and reconceptualizes the version of reader response criticism he developed in his first book *Interpretive Conventions Throughout Reception Histories*. Mailloux demonstrates his distinctive blend of neopragmatism and cultural rhetoric study. By tracing the rhetorical paths of thought, this book offers a new way to read the current volatile debates over higher education and contributes its own original proposals for shaping the future of the humanities.
