

7 Stages of Product Liability Litigation

Product liability litigation can go through seven different stages before reaching a conclusion depending on the outcome of each stage.

1

INVESTIGATION

The gathering of facts in a situation that will be tried in a court of law.

Litigation begins with an initial investigation stage when counsel gathers supporting evidence for the case. Ex: medical records, interviews, etc.

2

PLEADINGS

The parties' formal statement of the cause of action or defense.

Paperwork, referred to as pleadings, is filed by the plaintiff and defendant counsel detailing each side of the case.

The plaintiff(s) files a Complaint.

The defendant(s) files an Answer.

3

DISCOVERY

The exchange of evidence and information between parties.

The discovery stage is when counsel conducts their fact-finding allowing each side to prepare for trial. It is the most labor-intensive and costly stage of litigation.

4

PRE-TRIAL

A meeting between the parties involved in a legal dispute.

A court proceeding takes place before a trial to simplify the issues within a case. Settlement negotiations can take place in this stage.

5

TRIAL

Begins with the parties coming together before a judge, and typically before a jury, to present information.

If the litigation is not resolved in pre-trial, the trial stage begins. Both sides present the evidence and facts gathered in the previous stages. It can take years to get to trial. If a party does not agree with the trial decision, they can file an appeal.

6

SETTLEMENT

The resolution of a lawsuit without going forward to the final court judgment.

The settlement is the final outcome of the litigation. Settlement can occur at any time in the litigation process – even before pleadings are filed.

7

APPEAL

When a case is brought before a higher court for review of the decision of a lower court

Counsel can file an appeal to dispute a case outcome in trial. This stage can move more quickly due to having all discovery information used in the previous case.

Ready in Defense Melanie L. Herman,2003-01-01 If you've ever been intimidated by a lawyer whose use of legalese left you with a throbbing headache or if you've felt uncomfortable with your understanding of words such as tort, negligence, and vicarious liability, this book offers a painless antidote. Written for non-lawyer managers working in nonprofit organizations, *Ready in Defense* walks the reader through important legal terms and concepts, offers practical risk management advice, and features more than a dozen sample forms and policies you can adapt immediately for use in your organization. Challenges in Volunteer Management Matthew Liao-Troth,2008-09-01 Volunteer management has many challenges, not the least of which is how we study it and view it. Academics examine it from a variety of disciplines, and practitioners experience it in a variety of contexts. However, both approaches have limitations. In academia, we go to public administration schools to learn about public and

nonprofit management to business schools to apply the principles of private enterprise to nonprofit management to sociology departments to study the phenomena of volunteerism to psychology departments to understand the motives of volunteers and economics departments to examine the value or economic worth of volunteerism The liability of the academic approach is the segmentation of study and research into departmental areas The study of volunteers and volunteerism needs to cross all of these organizational and discipline boundaries to be fully appreciated and understood as a field of interest In contrast practitioners view volunteer management from their own unique experiences They try to gauge success in volunteer management based on what they have encountered in particular organizations towns cultures and countries in which they work As important as these insights are they are difficult to generalize beyond local settings Just because an individual has been successful in working with volunteers it does not mean that the lessons learned in one situation can be translated to others under all conditions The target audience for this volume is anyone who manages volunteers The goal of the volume is to demonstrate the breadth of thought on volunteer management both across disciplines and a wide range of settings in which volunteers work
