Reaffirming Rehabilitation:

Reaffirming Rehabilitation Francis T. Cullen, Karen E. Gilbert, 2012-11-13 *Reaffirming Rehabilitation* 2nd Edition brings fresh insights to one of the core works of criminal justice literature. This groundbreaking work analyzes the rehabilitative ideal within the American correctional system and discusses its relationship to and conflict with political ideologies. Many researchers and policymakers rejected the value of rehabilitation after Robert Martinson's proclamation that nothing works. Cullen and Gilbert's book helped stem the tide of negativism that engulfed the U.S. correctional system in the years that followed the popularization of the nothing works doctrine. Now Cullen traces the social impact on U.S. corrections policy. This new edition is appropriate as a textbook in corrections courses and as recommended reading in related courses. It also serves as a resource for researchers and policymakers working in the field of corrections.

A Criminologist's Life Cheryl Lero Jonson, Travis C. Pratt, 2022-09-13 *A Criminologist's Life: Essays in Honor of the Criminological Legacy of Francis T. Cullen* honors the vast scholarly contributions of Francis T. Frank Cullen as well as the immeasurable influence that he has had on the field for over 40 years. With over 500 publications to his name and more than 67,000 citations to his work, Frank Cullen has left an indelible mark on the fields of criminology and criminal justice. Although best known for his work on rehabilitation and criminological theory, Frank also has profusely published in and shaped the areas of white collar crime, the use of meta-analytic techniques to organize knowledge, the sexual victimization of college women, and public opinion on crime and punishment. However, Frank's legacy on the field is not limited to his scholarly contributions. He has served as a mentor to countless students, colleagues, and others in the field, helping support and guide the next generation of scholars. Thus, the current volume is organized to recognize both his scholarly work and mentoring, as well as to provide an opportunity for Frank to reflect on his career in his own words. The result is a collection of essays from Frank's former students, colleagues, and friends, written to pay homage to the more than 40 years of work he has done to advance criminological knowledge and shape the field.

Correctional Theory Francis T. Cullen, Cheryl Lero Jonson, 2016-01-18 The text is an incredible composite of the literature that has shaped correctional practice. The authors have a great capacity for making research interesting and accessible. Cullen and Jonson have accomplished their goal of motivating readers to become sophisticated consumers of correctional knowledge. Betsy Matthews, Eastern Kentucky University. The Second Edition of *Correctional Theory: Context and Consequences* continues to identify and evaluate the major competing theories used to guide the goals, policies, and practices of the correctional system. Authors Francis T. Cullen and Cheryl Lero Jonson demonstrate that changes in theories can legitimize new ways of treating and punishing offenders, and they help readers understand how transformations in the social and political context of U.S. society impact correctional theory and policy. Designed to motivate readers to become sophisticated consumers of correctional information, the book emphasizes the importance of using evidence-based information to guide decisions rather than relying

on nonscientific commonsense or ideology based beliefs The Philosophy and Practice of Corrections Marilyn McShane, 2012-11-12 Published in 1997 The Philosophy and Practice of Corrections is a valuable contribution to the field of Sociology Social Policy **The Oxford Handbook of Crime and Criminal Justice** Michael Tonry, 2011-09-07 Although criminal justice systems in developed Western countries are much alike in form structure and function the American system is unique While it is structurally similar to those of other Western countries the punishments it imposes are often vastly harsher No other Western country retains capital punishment or regularly employs life without parole three strikes or lengthy mandatory minimum sentencing laws As a result the U S imprisonment rate of nearly 800 per 100 000 residents dwarfs rates elsewhere The Oxford Handbook of Crime and Criminal Justice is an essential guide to the development and operation of the American criminal justice system A leading scholar in the field and an experienced editor Michael Tonry has brought together a team of first rate scholars to provide an authoritative and comprehensive overview and introduction to this crucial institution Expertly organized the various sections of the Handbook explore the American criminal justice system from a variety of perspectives including its purposes functions problems and priorities and present analyses of police and policing juvenile justice prosecution and sentencing and community and institutional corrections making it a complete and unrivaled portrait of how America approaches crime and criminal justice and giving persuasive answers as to why and how it has developed to what it is today Accessibly written for a wide audience the Handbook serves as a definitive reference for scholars and a broad survey for students in criminology and criminal justice Deserved Criminal Sentences Andreas von Hirsch, 2017-02-09 This book provides an accessible and systematic restatement of the desert model for criminal sentencing by one of its leading academic exponents The desert model emphasises the degree of seriousness of the offender's crime in deciding the severity of his punishment and has become increasingly influential in recent penal practice and scholarly debate It explains why sentences should be based principally on crime seriousness and addresses among other topics how a desert based penalty scheme can be constructed how to gauge punishments seriousness and penalties severity what weight should be given to an offender's previous convictions how non custodial sentences should be scaled and what leeway there might be for taking other factors into account such as an offender's need for treatment The volume will be of interest to all those working in penal theory and practice criminal sentencing and the criminal law more generally **Ethics in Criminal Justice** Sam S. Souryal, 2014-10-24 Introducing the fundamentals of ethical theory this text exposes the reader to the ways and means of making moral judgments by covering the teachings of the great philosophers sources of criminal justice ethics and unethical patterns in the criminal justice system It is presented from two perspectives a thematic perspective that addresses ethical principles common to all components of the discipline and an area specific perspective that addresses the state of ethics in criminal justice in the fields of policing corrections and probation and parole The fourth edition features expanded discussion of the formula of ethical discretion to enhance students understanding of ethics decision making in real

Stohr, Anthony Walsh, Craig Hemmens, 2012-03-20 Corrections A Text Reader Second Edition is designed for undergraduate and or graduate corrections courses Organized like a traditional corrections text it offers brief authored introductions in a mini chapter format for each key Section followed by carefully selected and edited original articles by leading scholars This hybrid format ensuring coverage of important material while emphasizing the significance of contemporary research offers an excellent alternative which recognizes the impact and importance of new directions and policy in this field and how these advances are determined by research **Criminal Justice Theory, Volume 26** Cecilia Chouhy, Joshua C. Cochran, Cheryl Lero Jonson, 2020-02-14 Criminal Justice Theory Explanations and Effects undertakes a systematic study of theories of the criminal justice system which historically have received very little attention from scholars This is a glaring omission given the risk of mass imprisonment the increasing presence of police in inner city communities and the emergence of new policy initiatives aimed at improving the quality and effectiveness of the administration of justice Fortunately however a number of disparate theoretical works have appeared that seek to provide insight into the nature and impact of criminal justice Based on 13 original essays by influential scholars this volume pulls together the most significant of these perspectives thus creating a state of the art assessment of contemporary criminal justice theory Criminal justice theory can be divided into two main categories The first includes works that seek to explain the operation of the criminal justice system Most of these contributions have grappled with the core reality of American criminal justice its rising embrace of punitiveness and the growth of mass imprisonment The second category focuses on works that identify theories that have often guided efforts to reduce crime The issue here focuses mainly on the effects of certain theoretically guided criminal justice interventions The current volume is thus organized into these two categories explanations and effects The result is an innovative and comprehensive book that not only serves researchers by advancing scholarship but also is appropriate for advanced undergraduate or graduate classroom use **Research Handbook on the Punishment of Atrocity Crimes** Róisín Mulgrew, Mikkel J. Christensen, 2024-11-08 This Research Handbook examines the punishment of atrocity crime and presents a wide ranging critique of post conviction law policy and practice With a team of expert contributing authors Róisín Mulgrew and Mikkel Jarle Christensen provide insights into the impact and implications of punishment models strategies and

The Right to Be Punished Gabriel Hallevy, 2012-10-12 Does an offender have the right to be punished The right to be punished may sound like an oxymoron but it is not necessarily so With the emergence of modern criminal law the offender gained the right to be punished by rational criminal law rather than being lynched by an angry mob The present day offender may have the right to be punished by doctrinal sentencing rather than being subjected to verdicts based on vague unclear and uncertain principles In modern criminal law the imposition of criminal liability follows accurate and strict rules whereas there are no similar rules for the imposition of punishment The process of sentencing is vague and obscure as are the considerations used for the imposition of punishments The objective of the present book is to propose a comprehensive general and legally sophisticated theory of modern doctrinal sentencing The challenges of such a legal theory are plenty and complex In addition to increasing clarity and certainty modern doctrinal sentencing must deal with modern types of delinquency e g organized crime recidivism corporate offenders high tech offenses etc and modern principles of criminal law Modern doctrinal sentencing must serve to ensure optimal sentencing

design an individualized supervision plan that channels offenders away from these criminogenic situations *Treating Substance Abusers in Correctional Contexts* Nathaniel J. Pallone, 2003 The papers in this collection present an overview of new and emerging models for treatment of drug involved offenders They explore types of treatment that operate under the surveillance of courts and the criminal justice system from in prison programs to residential substance abuse treatment RSAT and substance abuse treatment SAT programs in the community Topics covered include outcome assessments event history analysis relapse prevention rehabilitation diversion and therapeutic justice
