DIABETES Alex Rosewood,2020-09-16 Have you ever watched in horror as a loved one puts up a courageous fight against diabetes or obesity and still lose as they follow everything they are told Have you ever hopelessly wondered whether there is more out there In this book Dr Alex Rosewood carried out a thorough literature search scouring over hundreds of studies and reports to figure out why it is so difficult to address these conditions that are killing so many of our loved ones prematurely It was pretty clear from his research that the advice we have been getting about diet exercise and health is inaccurate More than 72 million Americans visited more than 40 000 gyms in 2018 alone and tens of millions of others have gone on dozens of diet to no avail Whether it is diet or exercise the failure rate is way too high There has to be something more out there It turns out that solution to our problem is not that profound It is something that our ancestors did for centuries Giving our bodies a break from eating through various forms of fasting is the best way to restore our health Yes it is that simple Simply restoring the 12 hour fast between dinner and breakfast has been shown to make a considerable impact on health and quality of life This book does not advocate for a revolutionary change to our lifestyles It just challenges us to start eating during mealtimes and do away with the endless snacking that so characterizes our modern lifestyle If you must have those snacks you can still combine them with a proper meal instead of grazing through the day and night
