Real Ideal Using Inspirational Poetry:

Inspiration and Insanity in British Poetry Joseph Crawford, 2019-07-24 This book explores the ways in which poetic inspiration came to be associated with madness in early nineteenth century Britain By examining the works of poets such as Barrett Browning Clare Tennyson Townshend and the Spasmodics in relation to the burgeoning asylum system and shifting medical discourses of the period it investigates the ways in which Britain's post Romantic poets understood their own poetic vocations within a cultural context that insistently linked poetic talent with illness and insanity Joseph Crawford examines the popularity of mesmerism among the writers of the era as an alternative system of medicine that provided a more sympathetic account of the nature of poetic genius and investigates the persistent tension found throughout the literary and medical writings of the period between the Romantic ideal of the poet as a transcendent visionary genius and the medico psychological conception of poets as mere case studies in abnormal neurological development *Motivational and*

Good Ole Spiritual Food Loretta Eidson, 2003-02 **Singing the Way** Patrick Laude, 2005-02-02 Singing the Way explores the relationship between poetry and true contemplation Author Patrick Laude seeks first to disperse romantic notions of how the poetic process works but goes on to suggest that it is inherently more profound than modern practitioners imagine Laude tells us that in itself true poetry is transformative since it brings the soul and all its faculties under the catalytic spell of the sacred through the mediation of rhythm and the lure of imaginal and verbal beauty

Singing the Way illustrates its points through examples drawn from five rich spiritual and poetic traditions viz Hinduism Sufism China Japan and the European Neo Platonic and Romantic current **The Pictorial History of England During the Reign of George the Third ... Explores how creative digital technologies and artificial intelligence are embedded in culture and society In The Inspiration Machine Eitan Y Wilf explores the transformative potentials that digital technology opens up for creative practice through three ethnographic cases two with jazz musicians and one with a group of poets At times dissatisfied with the limitations of human creativity these artists do not turn to computerized algorithms merely to execute their preconceived ideas Rather they approach them as creative partners delegating to them different degrees of agentive control and artistic decision making in the hopes of finding inspiration in their output and thereby expanding their own creative horizons The algorithms these artists develop and use however remain rooted in and haunted by the specific social predicaments and human shortfalls that they were intended to overcome Experiments in the digital thus hold an important lesson although Wilf s interlocutors returned from their adventures with computational creativity with modified novel and enriched capacities and predilections they also gained a renewed appreciation for and at times a desire to re inhabit non digital creativity In examining the potentials and pitfalls of seemingly autonomous digital technologies in the realm of art Wilf shows that computational solutions to the real or imagined insufficiencies of human practice are best developed in relation to rather than away from the social and cultural contexts that gave rise to those insufficiencies in the first place **Anointed Inspirational Poems**
