Measures of Spirituality/Religiosity (2018) Arndt Büssing,2019-04-30 The interest in the topic of spirituality as a more or less independent dimension of quality of life is continuously growing and research questions are beginning to change as the field of religiosity changes becoming more diverse and pluralistic Addressing new topics in health research also relies on standardized questionnaires The number of instruments intended to measure specific aspects of spirituality is growing and it is particularly difficult to evaluate the new instruments This Special Issue will focus on some of the established instruments updating them to different languages and cultures but will also describe the features and intentions of newly developed instruments which may potentially be used in larger studies to develop knowledge relevant to spiritual care and practice This Special Issue will serve as a resource on the instruments used to study the wide range of organized religiosity the individual experience of the divine and an open approach in the search for meaning and purpose in life Spiritual Leadership Thomas

G. Bandy,2016-09-20 The idea that certain kinds of people gravitate toward certain kinds of leaders has been around for a long time There are exceptions and degrees of commitment of course People as individuals are complicated and changeable On the other hand people as groups are remarkably consistent and predictable There are patterns The typical follower of this leader has these characteristics The typical follower of that leader has those characteristics Conversely this group of people tends to look for believe in and listen to this kind of leader and that group of people tends to look for believe in and listen to that kind of leader There are trends Certain kinds of people are more responsive to certain kinds of leaders Certain kinds of leaders seem to be more empathic toward and understanding of certain kinds of people They seem to know some contexts certain needs and distinct attitudes better than others If you follow the career of a leader you can anticipate who they will gather around them and where they will be most effective Bandy shows how this is true for church leaders too and introduces ideas of different types of leaders attracting different groups of followers Knowing your type will help you know who will be attracted to your leadership style
