True Stories of World War 1, Complete Various, 2016-02-19 World War I WWI or WW1 also known as the First World War or the Great War was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918 More than 70 million military personnel including 60 million Europeans were mobilised in one of the largest wars in history Over 9 million combatants and 7 million civilians died as a result of the war including the victims of a number of genocides a casualty rate exacerbated by the belligerents technological and industrial sophistication and the tactical stalemate caused by trench warfare a grueling form of warfare in which the defender held the advantage It was one of the deadliest conflicts in history and paved the way for major political changes including revolutions in many of the nations involved The war drew in all the world's economic great powers assembled in two opposing alliances the Allies based on the Triple Entente of the United Kingdom British Empire France and the Russian Empire versus the Central Powers of Germany and Austria Hungary Although Italy was a member of the Triple Alliance alongside Germany and Austria Hungary it did not join the Central Powers as Austria Hungary had taken the offensive against the terms of the alliance These alliances were reorganised and expanded as more nations entered the war Italy Japan and the United States joined the Allies while the Ottoman Empire and Bulgaria joined the Central Powers The trigger for the war was the assassination of Archduke Franz Ferdinand of Austria heir to the throne of Austria Hungary by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914 This set off a diplomatic crisis when Austria Hungary delivered an ultimatum to the Kingdom of Serbia and entangled international alliances formed over the previous decades were invoked Within weeks the major powers were at war and the conflict soon spread around the world On 28 July the Austro Hungarians declared war on Serbia and subsequently invaded As Russia mobilised in support of Serbia Germany invaded neutral Belgium and Luxembourg before moving towards France leading the United Kingdom to declare war on Germany After the German march on Paris was halted what became known as the Western Front settled into a battle of attrition with a trench line that would change little until 1917 Meanwhile on the Eastern Front the Russian army was successful against the Austro Hungarians but was stopped in its invasion of East Prussia by the Germans In November 1914 the Ottoman Empire joined the Central Powers opening fronts in the Caucasus Mesopotamia and the Sinai Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year while Romania joined the Allies in 1916 followed by United States in 1917 The Russian government collapsed in March 1917 and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk which constituted a massive German victory After a stunning German offensive along the Western Front in the spring of 1918 the Allies rallied and drove back the Germans in a series of successful offensives On 4 November 1918 the Austro Hungarian empire agreed to an armistice and Germany which had its own trouble with revolutionaries agreed to an armistice on 11 November 1918 ending the war in victory for the Allies By the end of the war the German Empire Russian Empire Austro

Hungarian Empire and the Ottoman Empire had ceased to exist National borders were redrawn with several independent nations restored or created and Germany's colonies were parceled out among the winners During the Paris Peace Conference of 1919 the Big Four Britain France the United States and Italy imposed their terms in a series of treaties The League of Nations was formed with the aim of preventing any repetition of such a conflict This however failed with economic depression renewed European nationalism weakened member states and the German feeling of humiliation contributing to the rise of Nazism These conditions eventually contributed to World War II

Real Fourdimensionalism Ludwig Jaskolla, 2017-10-19 This book explores persistence taking human beings as an example case It investigates how concrete particulars stay the same during their temporal carriers while changing significantly Themes of relativity structural realism 4 dimensional ontologies and different strains of panpsychism are amongst those addressed in this work Beginning with an exploration of the puzzle of persistence early chapters look at philosophers perspectives and models of persistence Competitors in the debate are introduced from classical 3 dimensionalism to two flavors of 4 dimensionalism namely worm theory and stage theory The second part of the book explores the various challenges to 4 dimensionalism and develops a positive taxonomy of those questions that the reasonable proponent of 4 dimensionism needs to answer In the third part of the book readers may explore an ontology at the interface of analytic metaphysics and philosophy of mind called Real Fourdimensionalism or more specifically Physicalistic Stage Panexperientialism PSP This is a version of panexperiential stage theory and its alleged model of persistence as deciding answers the questions of the taxonomy This book makes a substantial contribution to debates concerning the status extent and viability of both stage theoretic models of persistence as well as non reductive naturalistic models of persistence It will be of interest to graduates and scholars involved in analytic metaphysics as well as the philosophy of mind especially those specializing in questions of persistence and the ontology of the mind
