Connee Moffatt,2016-07-27 Our motto is to eat foods that are organic natural and locally grown wherever we are One of the joys of traveling is eating the local cuisine While vacationing recently on the West Coast we learned of a locally owned restaurant that specialized in seafood The chef at this establishment visits the fishing docks every day to inspect and purchase the freshest and finest quality seafood My husband and I ate at the restaurant where both of our meals were prepared simply with local ingredients It was probably the best meal we had ever had It really illustrated how eating natural fresh and locally raised or grown foods can truly make a difference in flavor I have read that locally resourced foods often naturally complement one another Perhaps that is why salmon and Pinot Noir go well together or chicken Parmesan and an Italian Chianti This cookbook defines natural as foods in their natural forms with minimal or no processing Natural foods are not only more delicious they also tend to be nutritionally superior and better for the environment The recipes in this cookbook were developed using free range and organically raised chickens and vegetables We believe you can taste the difference While organic natural and free range foods may sometimes be more expensive whole foods are more satisfying than processed foods that often contain nutritionally empty calories Thus you can often get by with purchasing less Mainstream grocery stores are stocking these foods more often as more and more people discover the advantages of organic and natural foods The purpose of writing this cookbook was to provide simple and easy to prepare nutritious dishes that can be made every day even in the busy times we live in We hope you will enjoy it To learn more about organically grown foods visit www.ewg.org/foodnews/dirty_dozenlist.php Each year the organization lists the most contaminated fruits and vegetables to avoid as well as a Clean Fifteen List If you enjoyed this book check out our Facebook page at <https://www.facebook.com/TheRealFoodCB>
