Reluctant Deceiver Dorothy Cork,1982 **The Cassowary's Revenge** Donald Tuzin,1997-09-02 Donald Tuzin first studied the New Guinea village of Ilahita in 1972 When he returned many years later he arrived in the aftermath of a startling event the village s men voluntarily destroyed their secret cult that had allowed them to dominate women for generations The cult s collapse indicated nothing less than the death of masculinity and Tuzin examines the labyrinth of motives behind this improbable self devastating act The villagers mythic tradition provided a basis for this revenge of Woman upon the dominion of Man and remarkably Tuzin himself became a principal figure in its narratives The return of the magic bearing youngest brother from America had been prophesied and the villagers believed that Tuzin s return from the dead signified a further need to destroy masculine traditions The Cassowary s Revenge is an intimate account of how Ilahita s men and women think emote dream and explain themselves Tuzin also explores how the death of masculinity in a remote society raises disturbing implications for gender relations in our own society In this light Tuzin s book is about men and women in search of how to value one another and in today s world there is no theme more universal or timely **Deceiver's Web** Jane Rice-Oxley,2008 Women and Deception Beverly A. chapters on the exercises are a treasure chest of material to work with covering a whole array of scenarios I think virtually every page and topic could spark robust and spirited classroom discussion starting with the text title itself Ronald W Vardy University of Houston Most students have very little or no background in this subject area so Clark s work is great to introduce students to intelligence and the analytical disciplines a really excellent book that fills a gaping hole in the public literature and is of genuinely great value to both students and practitioners Carl A Wege Professor Emeritus College of Coastal Georgia Bridging the divide between theory and practice Deception Counterdeception and Counterintelligence provides a thorough overview of the principles of deception and its uses in intelligence operations This masterful guide focuses on practical training in deception for both operational planners and intelligence analysts using a case based approach Authors Robert M Clark and William L Mitchell draw from years of professional experience to offer a fresh approach to the roles played by information technologies such as social media By reading and working through the exercises in this text operations planners will learn how to build and conduct a deception campaign and intelligence analysts will develop the ability to recognize deception and support deception campaigns Key Features New channels for deception such as social media are explored to show readers how to conduct and detect deception activities through information technology Multichannel deception across the political military economic social infrastructure and information domains provides readers with insight into the variety of ways deception can be used as an instrument for gaining advantage in conflict Contemporary and historical cases simulate real world raw intelligence and provide readers with opportunities to use theory to create a successful deception operation A series of practical exercises encourages students to think critically about each situation The exercises have several possible answers and conflicting raw material is designed to lead readers to different answers depending on how the reader evaluates the material Individual and team assignments offer instructors the flexibility to proceed through the exercises in any order and assign exercises based on what works best for the classroom setup
