caves are also examined a survey conducted around the ancient site of Yaxchilan considers the obvious importance of large stalagmites set up in the site core as monuments Long distance pilgrimages to these caves fundamentally reevaluates the nature of pilgrimage and reveals an economic and political importance that structured settlement and activities around the pilgrimage sites Finally evidence is analyzed to show that the human bones recovered from Midnight Terror Cave Belize were the result of human sacrifice Dealing equally with the archaeology of both natural and constructed subterranean spaces Exploring the Mesoamerican Subterranean Realm challenges preconceived notions of these spaces and their meanings dramatically shifting the field s focus and extending the understanding of the critical importance of this dark side of archaeology
