Scapegoat Ritual And Literature:

The Scapegoat: Ritual and Literature John B. Vickery, J'nan M. Sellery, 1971 *Rituals of Literature* Gian Balsamo, 2004-06 Balsamo's *Rituals of Literature* is devoted to Joyce's and Dante's special contributions to the tradition of Christian epics born out of Biblical stories and Homeric poems. By highlighting the integrated nature of its typical tropes, Joyce and Dante establish the historical identity of the Christian epic as a distinct literary genre. *Ritual, Family and Therapy in Anglophone Literatures* Lars Heiler, 2025-03-10 This book investigates the triadic constellations between ritual, family, and therapy in literature in English. Many rituals, so-called rites of passage, in particular, are strongly associated with the changing status of individuals as members of a family unit. Traditional healing rituals were often designed to have a therapeutic effect, sometimes mentally but also physically, whereas modern psychotherapies often include ritual elements in order to enhance the efficacy of their treatment. Families, on the other hand, can be the site of therapeutic activity by providing protection, stability, and emotional comfort; yet difficult family constellations may also be the origin of emotional distress, and the reason why a person needs counselling and therapeutic support in the first place. Modern therapies, such as family systems therapy, have expanded their range of interest and influence in order to look at the whole family unit, not just the symptomatic individual as client. This study discusses nine literary texts: six novels, one literary memoir, and two plays, in which the three dimensions intersect and mutually influence each other. **The New Oxford Annotated Bible with the Apocryphal/Deuterocanonical Books** Marc Zvi Brettler, Carol Ann Newsom, Pheme Perkins, 2007 Presents the complete text of the New Revised Standard Version Bible with the Apocryphal/Deuterocanonical books and features annotations in a single column across the page, bottom in text background, essays on the major divisions of the biblical text, and other reference tools. **Mythology** David Adams Leeming, 1998-05-28 What makes something mythic? What do mythic events and narratives have to do with us? In *Mythology*, David Leeming offers an unusual and effective approach to the subject of mythology by stressing universal themes through myths of many cultures. This anthology collects a wide array of narrative texts from the Bible to English literature to interpretations by Joseph Campbell, C. G. Jung, and others, which illustrate how myths serve whole societies in our universal search for meaning. Leeming illustrates the various stages or rites of passage of the mythic universal hero from birth to childhood through trial and quest, death, descent, rebirth, and ascension. The arrangement of texts by themes such as Childhood, Initiation, and Divine Signs; The Descent to the Underworld and Resurrection and Rebirth strips mythic characters of their many national and cultural masks to reveal their archetypal aspects. Real figures, including Jesus and Mohammed, are also included, underlining the theory that myths are real and can be applied to real life. This edition is updated to include additional heroine myths as well as Navajo, Indonesian, Indian, Chinese, and African tales. *Mythography* William G. Doty, 2000-03-21 Presenting major myth theorists from antiquity to the present, this work offers a cross-disciplinary approach to the study of myth. Rewritten and restructured, it reflects the increased interest in

myth among both scholars and general readers since the publication of the first edition *Myth* K. K. Ruthven, 2017-07-20 First published in 1976 this book provides a helpful introduction to the study of myth as a concept and its relationship to literature It examines historically some of the leading theories concerning the nature and origins of myth and with reference to a wide variety of texts illustrates the relevance of these theories to literature It also considers the different ways in which myths have been perceived over time both positive and negative and the effect this has had on the production of new mythologies It concludes with an assessment of the problems created by the presence of myth in literature and its use as a tool of literary criticism

Ritual and Rhetoric in Leviticus James W. Watts, 2007-07-02 *Ritual and Rhetoric in Leviticus* uses rhetorical analysis to expose the motives behind the writing of the central book of the Torah Pentateuch and its persuasive function in ancient

Judaism The answer to the question who was trying to persuade whom of what by writing these texts proves to be quite consistent throughout Leviticus 16 Aaronide high priests and their supporters used this book to legitimize their monopoly over the ritual offerings of Jews and Samaritans With this priestly rhetoric at its center the Torah supported the rise to power of two priestly dynasties in Second Temple Judaism Their ascendancy in turn elevated the prestige and rhetorical power to the book making it the first real scripture in Near Eastern and Western religious traditions **God as Sacrificial Love** Asle Eikrem,2018-01-25 In dialogue with a range of post enlightenment critiques of Christian theologies regarding sacrificial love Asle Eikrem presents an unconventional systematic approach to this multi layered and complex theological topic From Hegel to prominent 20th century theologians from feminist theologies to postmodern philosophers this volume engages in a critical conversation with a host of different voices on all the classical topics in theology creation trinity incarnation atonement sin faith sacraments and eschatology also providing a moral and socio historical vision for Christian living The result is a unique appraisal of the significance that the life and death of Jesus holds for the world today **A Jungian Approach to**

Literature Bettina Liebowitz Knapp,1984 This book is the first to apply systematically Jungian psychology to the study of literature throughout the ages The ten essays are purposefully different illustrating the universality of Jungian archetypal analysis and criticism The book has been divided into seven sections the first five follow chronological order from Euripides to Goethe and finally Yeats the sixth and seventh are presented separately because they explore unique psychological experiences Each essay is divided into two parts an ectypal and an archetypal analysis of the works discussed The ectypal section presents a brief historical summary of the period acquainting readers with appropriate facts concerning the author's environment The archetypal analysis however is the most important aspect of A Jungian Approach to Literature Archetypes contained in the collective unconscious exist at the deepest level within the subliminal realm They are made manifest in archetypal primordial images experienced in such universal motifs as the Great Mother the Spiritual Father Transformation the Self and others The Jungian archetypal approach to literature acts as a broadening force in the life experience *From Martyr to Mystic* Ra'anan S. Boustan,2005 This study provides a critical analysis of Nurcholish Madjid's attempt to interpret Islam within the framework of modern Indonesia Special attention is paid to his ideas and activities during the years leading to the 1998 downfall of President Soeharto and the development towards democracy that followed Although many of these ideas have been embraced by significant sectors of official Indonesia they have also received harsh criticism from the representatives of more conservative interpretations of Islam and more recently from secular Muslims as well **BOOK JACKET**
