Postcolonial Theory and the United States Amritjit Singh, Peter Schmidt, 2009-11-12 At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries Studies addressing issues of race ethnicity and empire in US culture have provided some of the most innovative and controversial contributions to recent scholarship Postcolonial Theory and the United States Race Ethnicity and Literature represents a new chapter in the emerging dialogues about the importance of borders on a global scale This book collects nineteen essays written in the 1990s in this emergent field by both well established and up and coming scholars Almost all the essays have been either especially written for this volume or revised for inclusion here These essays are accessible well focused resources for college and university students and their teachers displaying both historical depth and theoretical finesse as they attempt close and lively readings The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today The volume opens with two essays by the editors first a survey of the ideas in the individual pieces and second a long essay that places current debates in US ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory

Goode, 2000 The Routledge Introduction to American War Literature Jennifer Haytock, 2018-05-11 War and violence have arguably been some of the strongest influences on literature but the relation is complex more than just a subject for story telling war tends to reshape literature and culture Modern war literature necessarily engages with national ideologies and this volume looks at the specificity of how American literature deals with the emotional intellectual social political and economic contradictions that evolve into and out of war Raising questions about how American ideals of independence and gender affect representations of war while also considering how specifically American experiences of race and class interweave with representations of combat this book is a rich and coherent introduction to these texts and critical debates **Dave Smith** Robert J. Barker, 2020-02-06 In Trauma in 20th Century Multicultural American Poetry Jamie D Barker argues that by using literary trauma theory in conjunction with a reader response approach readers can gain a better understanding of how poetry can work towards building community and encouraging empowerment over oppression by establishing collectives of people who may share similar stories and experiences connected to trauma Rather than demonstrating how the poetry may fail or trying to establish what traumatic events the speaker or poet in some studies may have encountered and the significance thereof this study focuses on how the reader may find community with the ideas represented within the poem The poetry of various ethnicities are examined including African American poets Amiri Baraka and Lucille Clifton Native American poets Robin Coffee Linda Hogan and Peter Blue Cloud as well as Japanese American poets Mitsuye Yamada Keiho Soga and Lawson Fusao Inada Although many of these poets have had their poems examined in the past none have been explored through this type of approach Furthermore very few studies have expanded upon the ideas of literary trauma theory by using reader response and no writings have examined the idea of ambivalence in poetry as this Artist's & Graphic Designer's Market Mary Cox,1996 study does American Book Publishing Record ,1995
