### **Forensic Taphonomy and Ecology of North American Scavengers** Susan N. Sincerbox, Elizabeth A.

DiGangi, 2017-11-15 Forensic Taphonomy and Ecology of North American Scavengers compiles research on vertebrate scavenging behavior from numerous academic fields including ecology and forensic anthropology Scavenging behavior can displace remains from their depositional context confound postmortem interval estimation destroy osteological markers and inflict damage that mimics or disguises perimortem trauma Consequently the actions of vertebrate scavengers can significantly impact the medicolegal investigation of human remains It is therefore critical when interpreting a death scene and its associated evidence that scavenging be recognized and the possible effects of scavenging behavior considered This book is an ideal reference for both students and medicolegal professionals serving as a field manual for the identification of common scavenging species known to modify human remains in North America In addition this book presents a framework to guide investigators in optimizing their approach to scavenged cases promoting more complete recovery of human remains and the accuracy of forensic reconstructions of peri and postmortem events Examines scavenging behavior through an evolutionary and ecological lens integrating research from diverse fields Includes brief summaries of the taphonomic signatures and ecological contexts of common or well studied North American scavenging taxa Proposes strategies to maximize the recovery of vertebrate scavenged human remains and improve forensic reconstructions of peri and postmortem events

### **Diseases of Wild Waterfowl** Gary A. Wobeser, 2012-12-06 Management of wild waterfowl has become

increasingly intensive Many birds now hatch in managed nesting cover or in artificial nesting structures use man made wetlands and winter on crowded refuges while consuming a grain diet The water they use is often limited in supply and may contain residues from its many prior users Unfortunately intensified management often results in new problems among which disease is important There are many similarities between the current form of management used for some waterfowl and that used in domestic animals In both the objective is to maintain a healthy productive population Dealing with health problems in waterfowl will benefit from combining the skills of veterinary medicine and wildlife ecology Revisiting this book after 15 years allowed me to consider changes at the interface between the two disciplines Veterinary medicine traditionally has been concerned with the individual and with treating sick animals while the ecologist is concerned with populations and the manager has limited interest in treating sick birds During this period there has been a marked increase in awareness among veterinarians that they have a responsibility in wildlife and conservation biology Curricula of many veterinary colleges now include material on non domestic animals and attempt to put disease in an ecological context Also during this time waterfowl managers have become more aware of disease as a factor in population biology and there are early attempts to put

numbers to disease in models of continental waterfowl populations

**Cruising for Conspirators** Alecia P.

Long,2021-09-13 New Orleans district attorney Jim Garrison s decision to arrest Clay Shaw on March 1 1967 set off a chain of events that culminated in the only prosecution undertaken in the assassination of John F Kennedy In the decades since Garrison captured headlines with this high profile legal spectacle historians conspiracy advocates and Hollywood directors alike have fixated on how a New Orleans based assassination conspiracy might have worked *Cruising for Conspirators* settles the debate for good conclusively showing that the Shaw prosecution was not based in fact but was a product of the criminal justice system s long standing preoccupation with homosexuality Tapping into the public s willingness to take seriously conspiratorial explanations of the Kennedy assassination Garrison drew on the copious files the New Orleans police had accumulated as they surveilled harassed and arrested increasingly large numbers of gay men in the early 1960s He blended unfounded accusations with homophobia to produce a salacious story of a New Orleans based scheme to assassinate JFK that would become a national phenomenon At once a dramatic courtroom narrative and a deeper meditation on the enduring power of homophobia *Cruising for Conspirators* shows how the same dynamics that promoted Garrison s unjust prosecution continue to inform conspiratorial thinking to this day

*Selling Catholicism* Christopher Owen Lynch,2014-10-17

When the popularity of Milton Berle s television show began to slip Berle quipped At least I m losing my ratings to God He was referring to the popularity of *Life Is Worth Living* and its host Bishop Fulton J Sheen The show aired from 1952 to 1957 and Sheen won an Emmy beating competition that included Lucille Ball Jimmy Durante and Edward R Murrow What was the secret to Sheen s on air success Christopher Lynch examines how he reached a diverse audience by using television to synthesize traditional American Protestantism with a reassuring vision of Catholicism as patriotic and traditional Sheen provided his viewers with a sense of stability by sentimentalizing the medieval world and holding it out as a model for contemporary society Offering clear cut moral direction in order to eliminate the anxiety of cultural change he discussed topics ranging from the role of women to the perils of Communism Sheen s rhetoric united both Protestant and Catholic audiences reflecting and forming a

vision of mainstream postwar America Lynch argues that Sheen's persuasive television presentations helped Catholics gain social acceptance and paved the way for religious ecumenism in America Yet Sheen's work also sowed the seeds for the crisis of competing ideologies in the modern American Catholic Church Iron Metabolism at the Crossroad of Innate Immune Response and Cancer Progression Paola Zacchi, Michaela Jung, Stefania Recalcati, 2022-02-15 Criminal Investigation

**Faith and Struggle on Smokey Mountain** Benigno P. Beltran,2012 Smokey Mountain the vast garbage dump in Manila has served for many years as an emblem of third world squalor In many ways it is a metaphor for a planet slowly choking on garbage and waste But for Fr Beltran who served for three decades as a chaplain to the scavengers who survive off this reeking heap it is also a metaphor of hope an emblem of the will to survive the ability to create joy and find meaning even in the midst of abject poverty Faith and Struggle on Smokey Mountain describes the spiritual resilience of the scavengers of Smokey Mountain and how they taught Beltran to read the Gospel with new eyes The lessons he learned bear a message for all who struggle for a better world
