Marchessault,2023-10-31 When media translate the world to the world twentieth century utopian projects including Edward Steichen s Family of Man Jacques Cousteau s underwater films and Buckminster Fuller s geoscope Postwar artists and architects have used photography film and other media to imagine and record the world as a wonder of collaborative entanglement to translate the world for the world In this book Janine Marchessault examines a series of utopian media events that opened up and expanded the cosmos creating ecstatic collective experiences for spectators and participants Marchessault shows that Edward Steichen s 1955 Family of Man photography exhibition for example and Jacques Cousteau s 1956 underwater film *Le monde du silence* The Silent World both gave viewers a sense of the earth as a shared ecology The Festival of Britain 1951 in particular its Telekinema a combination of 3D film and television and its Live Architecture exhibition along with Expo 67 s cinema experiments and media city created an awareness of multiple worlds Toronto s alternative microcinema CineCycle Agn s Varda s 2000 film *Les glaneurs et la glaneuse* and Buckminster Fuller s World Game geoscope representing ecologies of images and resources encouraged planetary thinking The transspecies communication platform the Dolphin Embassy devised by the Ant Farm architecture collaborative extends this planetary perspective toward other species and Finnish artist Erkki Kurenniemi s *Death of the Planet* projects a postanthropocentric future Drawing on sources that range from the Scottish town planner Patrick Geddes to the French phenomenologist Maurice Merleau Ponty Marchessault argues that each of these media experiments represents an engagement with connectivity and collectivity through media that will help us imagine a new form of global humanism      **Varieties of**

**Louis Malle** Philippe Met,2018-09-11 Arguably a pioneer of the French New Wave with *Ascenseur pour l chafaud* 1957 Louis Malle went on to enjoy an acclaimed yet provocative and versatile transatlantic career This collection of original essays proposes to reassess his richly eclectic and boldly subversive oeuvre and redress the surprising critical neglect it has suffered over the years It does so through a combination of transversal and monographic analyses that use a variety of critical lenses and theoretical tools in order to examine Malle s documentaries as well as his fiction features and more importantly the constant shuttling and uniquely persistent cross pollination between those two cinematic approaches

illuminate the profound lasting dialogue his films entertained with literature and theater bring to the fore their sustained albeit often oblique autobiographical thrust along with their scathing sociopolitical critique and scrutinize the alternating use of stars and non professional actors In addition the volume features an exclusive interview with the acclaimed playwright John Guare a close friend and collaborator of Louis Malle s who scripted *Atlantic City* and is bookended by a foreword by Volker Schlöndorff and an afterword by Wes Anderson two renowned filmmakers who articulate their admiration for and the seminal influence of their predecessor

Blackwood's Magazine ,1916

*Discourse of Silence* Dennis Kurzon,1998-03-15 The book deals initially with the interpretation of the silent answer to a question From a semiotic approach to the contrast between silence and speech mainly within a Greimasian framework the discussion turns to the application of pragmatic tools such as conversational analysis and adjacency pairs to the interpretation of silence A model is presented which attempts to explain the observer s cognitive competence and its limits in being able to interpret the silent answer A basic distinction is also made between intentional silence the refusal to answer and non intentional silence the psychological inability to answer The interpretation of silence is extended from a theoretical viewpoint to an analysis of various discourse types Firstly silence in the legal world the accused s and the witness s right of silence the right of legal authorities to silence the broadcasting of direct speech The author then analyzes the silencing of characters in a literary text Jane Austen s *Pride and Prejudice* in a biblical text Moses and his speech impediment in Exodus in opera Moses silence in Schoenberg s opera *Moses und Aron* and in the cinema Here after the initial discussion of Ingmar Bergman s *The Silence* focus is shifted to the generation gap and the representation of
