**Identity Destabilised** Thomas Hylland Eriksen, Elisabeth Schober, 2016-10-20 The world is overheated. Too full and too fast out of sync, contradiction-ridden and unequal. It is the age of the Anthropocene, of humanity's indelible mark upon the planet. In short, it is globalisation, but not as we know it. This collection explores social identities in today's overheated world seen from an anthropological perspective. The focus is on contradictions, tensions and paradoxes. How can an identity be stable if its border is constantly shifting? How can a community survive if it is incorporated into a huge entity? How does belonging work in new cities? And what can indigenous peoples do to retain a sense of self in a fast-moving neoliberal world? Ethnographically rich and diverse in its scope, *Identity Destabilised* contains chapters from many parts of the world, including the Philippines, Israel, Australia, the Cape Verde Islands and Afghanistan. The authors investigate how identity changes in response to contemporary forces: from rapid industrialisation, the enforced return of migrants and the silencing of indigenous groups to sudden population growth in boomtowns and the touristification of local culture.

**Labour Markets, Identities, Controversies** Tom Brass, 2017-01-05 Debates about labour markets and the identity of those who in an economic sense circulate within them, together with the controversies such issues generate, have in the past been confined by development studies to the Third World. Now these same concerns have shifted as the study of development has turned its attention to how these same phenomena affect metropolitan capitalist nations. For this reason, the book does not restrict the analysis of issues such as the free/unfree labour distinction and non-class identity to Third World contexts. The reviews, essays and essays collected here also examine similar issues now evident in metropolitan capitalism, together with their political and ideological effects and implications.

**Ethnicity and Nationalism** Thomas Hylland Eriksen, 2010-09-08 Is ethnicity a result of cultural differences? Is ethnicity dependent on the practical use and belief in cultural differences? Drawing on a wide range of classic and recent studies in anthropology and sociology, Thomas Hylland Eriksen examines the relationship between ethnicity, class, gender and nationhood. Using the question 'What is ethnicity?' as his starting point, Eriksen examines the interplay between ideology and ethnicity, how the Internet impacts understanding of ethnicity, identity, politics and the commercialisation of identity. Through this, he reveals that far from being an immutable property of groups, ethnicity is a dynamic and shifting aspect of social relationships. A core text for all students of social anthropology and related subjects.

Ethnicity and Nationalism has been a leading introduction to the field since its original publication in 1993 This new edition expanded and thoroughly revised is indispensable to anyone seriously interested in understanding ethnic phenomena

Dress Cultures in Zambia Karen Tranberg Hansen, 2023-04-27 Drawing on half a century of research in Zambia and regional scholarship Karen Tranberg Hansen offers a vibrant history of changing dress practices from the late colonial period to the present day Exploring how the dressed body serves as the point of contact between personal local and global experiences she argues that dress is just as central to political power as it is to personal style Questioning the idea that the West led fashion trends elsewhere Hansen demonstrates how local dress conventions appropriated western dress influences as Zambian and shows how Zambia contributed to global fashions such as the colourful Chitenge fabric that spread across colonial trading networks Brought to life with colour illustrations and personal anecdotes this book spotlights dress not only as an important medium through which Zambian identities are negotiated but also as a key reflector and driver of history

**Ethnic Groups and Boundaries Today** Thomas Hylland Eriksen, Marek Jakoubek, 2018-12-07 The publication of Fredrik Barth's Ethnic Groups and Boundaries marked a milestone in the conceptualization of ethnicity and ethnic groups and opened a new field of enquiry in the social scientific study of ethnicity Ethnic Groups and Boundaries Today A Legacy of Fifty Years demonstrates the enduring significance of the work identifying its shortcomings and showcasing the state of the art today fifty years after the publication of the groundbreaking original Bringing together a team of leading contributors all of whom have been inspired by Barth's theory and have made significant contributions of their own to the theorisation and research of ethnicity this volume assesses the theoretical approach presented in Ethnic Groups and Boundaries both in the context of its time and with the hindsight of the developments in the social sciences since then It emphasizes the legacy of the original text and determines its significance whilst identifying and elaborating on the main lines of the subsequent developments of the concept of ethnicity that were influenced by Ethnic Groups and Boundaries but that have since developed and superseded the original As such it will appeal to scholars across the social sciences with interests in the concept and study of ethnicity

**Common Denominators** Thomas Hylland Eriksen, 2020-08-13 This book seeks to enhance comparative understandings of ethnicity to refine theories of nationalism and to contribute to ongoing debates on multiculturalism identity politics and creolization Mauritius an Indian Ocean island state with a population of about one million provides a fascinating focus for this comprehensive study of social identity and political culture Fifteen languages are officially spoken on the island and four world religions are represented as well as a high number of ethnic groups The author argues that the social importance of ethnicity depends not only on political and economic circumstances but also on kinship organization and shows how ethnicity is expressed through the idioms of language and religion However it is also shown how ethnic identity may be superseded by other forms of belongingness and politics in the contemporary age Nationhood gender class and individualism are all examined for the role they play in social organization and the formation of collective identity

Multiethnic and peaceful the pace of social change in Mauritius has been rapid throughout the 1980s and 1990s The ways in which Mauritians negotiate the relationship between ethnic national and other identities in forging a surprisingly stable and democratic society and the peculiar tensions which arise in the interface between the ethnic and the non ethnic ought to be familiar to anyone concerned with the future of multiethnic societies      **The International Journal of African Historical Studies** ,1994
