The Performance of Nobility in Early Modern European Literature David M. Posner,1999-11-04 This valuable study illuminates the idea of nobility as display as public performance in Renaissance and seventeenth century literature and society Ranging widely from Castiglione and French courtesy manuals through Montaigne and Bacon to the literature of the Grand Si cle David Posner examines the structures of public identity in the period He focuses on the developing tensions between on the one hand literary or imaginative representations of nobility and on the other the increasingly problematic historical position of the nobility themselves These tensions produce a transformation in the notion of the noble self as a performance and eventually doom court society and its theatrical mode of self presentation Situated at the intersection of rhetorical and historical theories of interpretation this book contributes significantly to our understanding of the role of literature both in analysing and in shaping social identity *Iustus Lipsius Europae Lumen Et Columna* Gilbert Tournoy,Jeanine Landtsheer,Jan Papy,1999 In 1967 Jozef Ijsewijn started the Seminarium Philologiae Humanisticae or Seminar for Neo Latin Studies at the Katholieke Universiteit Leuven Thanks to the founder s indefatigable efforts the Seminar has become one of the leading conferences in the field of Humanism and Modern Latin In 1997 the tenth International Congress for Neo Latin Studies was held the first of the series was organised some 25 years ago by professor Ijsewijn and his team and led to the founding of the International Association for Neo Latin Studies of which Ijsewijn became the first president Also in 1997 Jozef Ijsewijn celebrated his 65th birthday For all these reasons his colleagues considered it appropriate to honour this eminent scholar with a collection of 19 essays on Neo Latin literature The articles in this volume reflect the wide interest of the scholar Ijsewijn They cover a period of almost 300 years from an early fifteenth century commentary on Cicero s speeches to the oratorical deliveries in the eighteenth century Amsterdam Athenaeum of P Francius

The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson,Ian R.

Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries Francis Bacon B. H. G.

Wormald,1993-03 In the centuries since his death Francis Bacon has been perceived as a promoter and prophet of natural science Certainly Bacon expected to fill the vacuum which he saw existing in the study of nature but he also saw himself as a clarifier and promoter of what he called policy that is the study and improvement of the structure and function of civil states including the then new British state In this major study Brian Wormald s first since his work on Clarendon Bacon is shown resolving this conflict by attending assiduously to both fields arguing that work on one would help progress in the other In his teaching in his practice and in terms of what was actually achieved the junction between the two enterprises was affected by Bacon s work in history civil and natural In this fundamental reappraisal of one of the most complex and innovative figures of the age Brian Wormald reveals how Bacon s conception and practice of history provided an answer to his strivings in both policy and natural philosophy **The four plays of William Wycherley** William R. Chadwick,2015-07-24 No detailed description available for The four plays of William Wycherley *Bacon: The History of the Reign of King Henry VII and Selected Works* Francis Bacon,1998-02-19 This is a major student edition of the text described as the first modern classic of English history Bacon s penetration into human motives his life long experience of politics and government and his remarkable literary skills render this History of the Reign of King Henry VII a major work of English literature and an important document in the history of political thought The introduction places Bacon s History in the context of Renaissance historiography revealing its debt to Tacitus and shows Bacon s originality in re ordering traditional material to make a coherent psychological analysis of the King s actions In addition to the usual series features and supporting contextual material including relevant Essays by Bacon generous editorial footnotes explain the historical and political issues of the reign of Henry VII and a substantial glossary clarifies Bacon s rich but sometimes unfamiliar vocabulary An Examination of Certain Changes in the Sentence Structure of the Essays of Francis Bacon Herbert Donald Ambler,1925 **Index of Mediaeval Studies Published in Festschriften, 1865 - 1946** Harry F.
