Conductor's Guide to Choral-orchestral Works, Twentieth Century, Part II Jonathan D. Green, 1998 This innovative survey of large choral orchestral works is a continuation of the author's previous study of twentieth century works with English texts. Green examines nearly one hundred works from Rachmaninov's *Vesna* to Penderecki's *Song of Songs*. For each work he provides a biography of the composer, complete instrumentation, text sources, editions, availability of performing materials, performance issues, discography, and bibliography of the composer and the work. Based upon direct score study, each work has been evaluated in terms of potential performance problems, rehearsal issues, and level of difficulty for both the choir and orchestra. When present solo roles are described. The composers represented in this work include Bela Bartok, Leonard Bernstein, Ernest Bloch, Maurice Duruf, Hans Werner Henze, Paul Hindemith, Arthur Honegger, Leos Janacek, Gyorgy Ligeti, Gustav Mahler, Carl Orff, Krzysztof Penderecki, Francis Poulenc, Igor Stravinsky, Anton Webern, and Kurt Weill. Written as a field guide for conductors and others involved in programming concerts for choir and orchestra, this text will prove a useful source of new repertoire ideas and an invaluable aid to rehearsal preparation.

Temporaries and Eternals Michael Allis, 2013-02-21 Marking the fiftieth anniversary of the death of Aldous Huxley (1894-1963), *Temporaries and Eternals* focuses on the music column that Huxley wrote for *The Weekly Westminster Gazette* in 1922-23. Readers of Huxley's novels, essays, and travel writing will be aware of the wealth of musical detail in these works, and this book suggests that such references can only be fully understood in the context of the opinions voiced in Huxley's music criticism. Not only does Huxley's column offer a fascinating snapshot of musical life in 1920s Britain, but several of the themes that Huxley explores continue to have contemporary relevance. These include music and technology, the composer-performer relationship, the nature of the child prodigy, musical tradition and innovation, the suitability of opera libretti, and how to write about music effectively. However, Huxley's central theme, reflected in the title of this book, is the problematic question of how to judge the significance and potential longevity of specific composers and their works, from Palestrina to Schoenberg. After an extended introduction placing Huxley's music criticism in the context of his other writings, the book reproduces all 64 of Huxley's weekly articles with footnote commentary to help the reader appreciate his wide-ranging textual references.
