The History of German Literature on Film Christiane Schönfeld,2023-06-15 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE This book tells the story of German language literature on film beginning with pioneering motion picture adaptations of Faust in 1897 and early debates focused on high art as mass culture It explores analyzes and contextualizes the so called golden age of silent cinema in the 1920s the impact of sound on adaptation practices the abuse of literary heritage by Nazi filmmakers and traces the role of German language literature in exile and postwar films across ideological boundaries in divided Germany in New German Cinema and in remakes and movies for cinema as well as television and streaming services in the 21st century Having provided the narrative core to thousands of films since the late 19th century many of German cinema s most influential masterpieces were inspired by canonical texts popular plays and even children s literature Not being restricted to German adaptations however this book also traces the role of literature originally written in German in international film productions which sheds light on the interrelation between cinema and key historical events It outlines how processes of adaptation are shaped by global catastrophes and the emergence of nations by materialist conditions liberal economies and capitalist imperatives political agendas the mobility of individuals and sometimes by the desire to create reflective surfaces and perhaps even art Commercial cinema s adaptation practices have foregrounded economic interest but numerous filmmakers throughout cinema history have turned to German language literature not simply to entertain but as a creative contribution to the public sphere marking adaptation practice at least potentially as a form of active citizenship

Austrian Cinema Robert von Dassanowsky,2007-11-01 Austria the multicultural crossroad of the European continent has been the genesis of many artistic concepts Just as late 19th and early 20th century Austria gave influential modernism to the world in the fields of medicine urban planning architecture design literature music and theater so its film industry created a significant national cinema that seeded talents and concepts internationally Nevertheless the value of Austrian cinema to international film has been long obscured Austria s important bond with American film is also underappreciated because of the lack of accessible English language scholarship on the early careers of Austro Hollywood artists and on influential developments in Austrian film history This first comprehensive English survey of Austrian film introduces more than a century of cinema following the development of the industry chronologically through the nation s various transformations since 1895 Important industry movements genres and films are highlighted with sociopolitical cultural and aesthetic details An analysis of the economic

trends that have influenced Austrian film is also provided The survey considers the directors actors producers writers cinematographers editors composers and other film artists who have been essential to the development and influence of Austrian cinema The closing chapter anticipates new faces of the Austrian film industry in the 21st century
