Introduction to Reformed Scholasticism Willem J. Van Asselt, 2011-04-01 This work supplies a long standing need in the field of early modern studies by providing a basic introduction to Reformed Scholasticism Although technical studies abound and interest in the subject continues to rise until the appearance of this work by Willem van Asselt and his colleagues students of history have lacked a concise guide to help them navigate the difficult waters of Reformed Scholasticism This book carefully defines the phenomena of scholasticism and orthodoxy concisely surveys the era notes the most significant thinkers together with the various trajectories of thought and references the relevant secondary scholarship In short this Introduction to Reformed Scholasticism surveys the topic and provides a guide for further study in early modern Reformed thought Table of Contents Introduction What Is Reformed Scholasticism Willem J van Asselt and Pieter L Rouwendal The State of Scholarship From Discontinuity to Continuity Willem J van Asselt and Pieter L Rouwendal As the Philosopher Says Aristotle T Theo J Pleizier and Maarten Wisse The Teacher of the Ancient Church Augustine Maarten Wisse The Method of the Schools Medieval Scholasticism Pieter L Rouwendal Open Hand and Fist Humanism and Scholasticism in the Reformation Willem J Van Asselt Distinguishing and Teaching Constructing a Theological Argument in Reformed Scholasticism Willem J van Asselt and Pieter L Rouwendal Scholasticism in the Time of Early Orthodoxy ca 1560 1620 Willem J van Asselt Scholasticism in the Time of High Orthodoxy ca 1620 1700 Willem J van Asselt Scholasticism in the Time of Late Orthodoxy ca 1700 1790 The Abutment against Which the Bridge of All later Protestant Scholasticism Jose Ignacio Cabezón, 1998-05-28 Leading religious studies scholars join forces in this book to show that scholasticism as a comparative category is a useful tool in the analysis of a variety of religious and philosophical traditions and even in the task of cultural criticism The discussions range from explorations of Latin Jewish and Muslim modes of scholastic thought to examinations of their counterparts in India Tibet China and contemporary Euro American academic culture The contributors consider the heterogeneous nature of traditions generally and of scholastic traditions in particular by demonstrating the rich internal texture that is the result of the historical interaction of different religious and philosophical schools They also explore what it means to construct a comparative category like scholasticism by applying it sensitively and dialogically to a variety of religious and intellectual movements across cultures Focusing thematically on scholasticism the book offers detailed reflections regarding its relevance to a variety of traditions Hindu Confucian Taoist Buddhist Jewish Islamic and Christian But while grounded in the rich historical particularity of these various religions and cultures the volume also makes a considerable contribution to theory The contributors are committed to a form of analysis that balances similarities with differences one that also does not disregard either the diachronic element or the relevance of the social material evidence By offering a nuanced and sophisticated treatment of the problematics of constructing a comparative category like scholasticism

this volume represents a major contribution to the comparative philosophy of religion With its breadth of scope and its richness of both historical detail and theoretical insight the book will interest a wide audience ranging from medievalists to historians of religion from philosophers to cultural critics

Action and Person: Conscience in Late Scholasticism and the Young Luther Baylor,2022-03-07

Broken Chain of Being Christopher R. Rossi,1998-01-01 Part detective story part intellectual history of the rise of international law and part critique this original thoughtful work offers readers both a fresh perspective on important historical developments in international law and a new level of comprehension and guidance into its future Understanding the development of international law and its connection to morality contributes to an assessment of the problems and prospects of international law today Using James Brown Scott the controversial American international lawyer as a vehicle the author engages in a probing examination of perspectives on the workings of the legal order centered on the concept of plenitudinism a multi layered expression of the idea of fullness in the international legal system This challenging work provides revealing insights about the past the failings and the possibilities in international law particularly in the field of enforcement of human rights

The Voiding of Being William Desmond,2020 In contemporary philosophy the status indeed the very viability of metaphysics is a much contested issue The reflections offered here explore diverse aspects of this contested status and offer a defense of metaphysics In other works perhaps most fully in *Being and the Between* William Desmond has tried to develop what he calls a metaxological metaphysics in response to different skeptical if not hostile approaches to metaphysics quite common in our time *The Voiding of Being* complements the systematic dimensions of this metaxological metaphysics outlined in *Being and the Between* It presents a set of studies which amplify important themes in the unfolding of modern metaphysics in relation to major earlier and contemporary thinkers while adding nuance to what is involved in the more systematic articulation of a metaxological metaphysics There is what the author calls a voiding of being in modernity expressed in diverse developments of thought *The Voiding of Being* might seem to conjure up too negative associations but the aim of the thoughts gathered here is not at all negative While attempting to understand the voiding of being in modern thought our appreciation of the promise of metaphysical thinking can also be renewed and indeed extended extended beyond skepticism and hostility to metaphysics Desmond engages many interlocutors along the way from the long tradition such as Heraclitus Aquinas and Hegel as well as more contemporary thinkers like Heidegger and Marion As the book s subtitle suggests it is concerned with the continued doing of metaphysics and not only the contemporary undoing of it

Scholastic Magic Michael D. Swartz,2014-07-14 In exploring the social background of early Jewish mysticism *Scholastic Magic* tells the story of how imagination and magic were made to serve memory and scholasticism In the visionary literature that circulated between the fifth and ninth centuries there are strange tales of ancient rabbis conjuring the angel known as Sar Torah the Prince of the Torah This angel endowed the rabbis themselves with spectacular memory and skill in learning and then taught them the formulas for giving others these gifts This literature

according to Michael Swartz gives us rare glimpses of how ancient and medieval Jews who stood outside the mainstream of rabbinic leadership viewed Torah and ritual Through close readings of the texts he uncovers unfamiliar dimensions of the classical Judaic idea of Torah and the rabbinic civilization that forged them Swartz sets the stage for his analysis with a discussion of the place of memory and orality in ancient and medieval Judaism and how early educational and physiological theories were marshaled for the cultivation of memory He then examines the unusual magical rituals for conjuring angels and ascending to heaven as well as the authors attitudes to authority and tradition showing them to have subverted essential rabbinic values even as they remained beholden to them The result is a ground breaking analysis of the social and conceptual background of rabbinic Judaism and ancient Mediterranean religions Offering complete translations of the principal Sar Torah texts Scholastic Magic will become essential reading for those interested in religions in the ancient and medieval world ritual studies and popular religion Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Evangelical Dictionary of Theology Daniel J. Treier, Walter A. Elwell, 2017-11-07 This bestselling reference tool has been a trusted resource for more than 25 years with over 165 000 copies sold Now thoroughly updated and substantially revised to meet the needs of today s students and classrooms it offers cutting edge overviews of key theological topics Readable and reliable this work features new articles on topics of contemporary relevance to world Christianity and freshened articles on enduring theological subjects providing comprehensive A Z coverage for today s theology students The author base reflects the increasing diversity of evangelical scholars Advisory editors include D Jeffrey Bingham Cheryl Bridges Johns John G Stackhouse Jr Tite Ti nou and Kevin J Vanhoozer

Joseph Ratzinger in Dialogue with Philosophical Traditions Tracey Rowland, Alejandro Sada, Rudy Albino de Assunção, 2024-01-25 This book extensively explores the various influences and connections between Joseph Ratzinger and a number of leading philosophers engaging with his work by means of Spanish Portuguese German and English schools of thought through the contributions of a global body of scholars Each chapter in this volume examines precisely how Ratzinger has dealt with the ideas of a particular philosopher and how he has appropriated their ideas and thoughts Moving from philosophers he has modified or critiqued such as Kant Comte or Wittgenstein to those who have contributed to his philosophical theology such as Guardini and Pieper this truly international endeavour is an extraordinary journey into Ratzinger s engagement with his competing and congenial schools of thought

Religious Studies and Theology Helen Katharine Bond, Helen R. Bond, Seth D. Kunin, Francesca Murphy, 2003-05 Though they are intimately related most textbooks cover either religious studies or theology leaving students lacking in exposure to one or the other of these

associated disciplines Religious Studies and Theology An Introduction offers a comprehensive introduction to both subjects in one inclusive volume The text is written in an accessible style and is meant for beginning students and all those interested in learning about these fields It is divided into six sections including Theories of Religion World Religions Biblical Studies Practical Theology Systematic Theology and The Philosophy of Religion The volume also contains a guide for further reading as well as boxes to explain key terms Offering thorough and cutting edge coverage of all aspects of these fields it is the only introduction to the whole of religious studies and theology in a single volume format Contributors Douglas J Davies Seth D Kunin Hugh Goddard Martin A Mills Matthew Wood F Michael Perko Paul Ellingworth Ken Aitken Helen K Bond John Swinton Henry R Sefton Francesca Aran Murphy and Derek Cross *An Introduction to Theology in Global Perspective* Stephen B. Bevens, 2009 A comprehensive work on doing theology as part of the Catholic ecclesial community in today's world *Self Knowledge in Thomas Aquinas* Richard T. Lambert, 2007-02-01 This study concerns the position of Saint Thomas Aquinas on human self knowledge the soul's knowledge of itself in medieval idiom Its main goal is to present a comprehensive account of Aquinas's philosophy of self knowledge by clarifying his texts on this topic and explaining why he made the claims he did A second objective is to situate Thomas's position on self awareness within general world and specific thirteenth century traditions concerning this theme And a third is to apply Aquinas's approach and insights to selected and contemporary issues that involve self knowledge such as the alleged paradoxes of self reflection and of unconscious awareness The primary approach is that of critical narrative which attempts to understand St Thomas's texts by posing critical questions for them While this questioning may expose certain texts as equivocal or unsupported usually Thomas emerges as coherent reasonable and better understood This work is serious scholarship that presumes reader interest in philosophical reflection and some background in medieval type thinking On the other hand the book is not narrowly specialized in Aquinas or a single methodology but includes broad reference to worldwide traditions and attempts to integrate St Thomas's approach into topics of contemporary interest *Secular Bioethics in Theological Perspective* E.E. Shelp, 2012-12-06 Theologians and theologically educated participants in discussions of bioethics have been placed on the defensive during recent years The dominance of religious perspectives and theological voices that marked the emergence and establishment of bioethics in the late 1960s and 1970s has eroded steadily as philosophers lawyers and others have relativized their role and influence at best or dismissed it entirely at worst The secularization of bioethics which has occurred for a variety of reasons has prompted some prominent writers to reflect on what has been lost Daniel Callahan for example writes whatever the ultimate truth status of religious perspectives they have provided a way of looking at the world and understanding one's own life that has a fecundity and uniqueness not matched by philosophy law or political theory Those of us who have lost our religious faith may be glad that we have discovered what we take to be the reality of things but we can still recognize that we have also lost something of great value as well the faith vision insights and experience of

whole peoples and traditions who no less than we unbelievers struggled to make sense of things That those goods are part of a garment we no longer want to wear does not make their loss anything other than still a loss and it is not a negligible one 2 p 2

God and Nature David C. Lindberg, Ronald L. Numbers, 1986-04-29 Since the publication in 1896 of Andrew Dickson White's classic *History of the Warfare of Science with Theology in Christendom* no comprehensive history of the subject has appeared in the English language Although many twentieth century historians have written on the relationship between Christianity and science and in the process have called into question many of White's conclusions the image of warfare lingers in the public mind To provide an up to date alternative based on the best available scholarship and written in nontechnical language the editors of this volume have assembled an international group of distinguished historians In eighteen essays prepared especially for this book these authors cover the period from the early Christian church to the twentieth century offering fresh appraisals of such encounters as the trial of Galileo the formulation of the Newtonian worldview the coming of Darwinism and the ongoing controversies over scientific creationism They explore not only the impact of religion on science but also the influence of science and religion This landmark volume promises not only to silence the persistent rumors of war between Christianity and science but also serve as the point of departure for new explorations of their relationship Scholars and general readers alike will find it provocative and readable

Bioethics and the Character of Human Life Gilbert Meilaender, 2020-05-18 In the essays collected here Gilbert Meilaender invites readers to reflect upon some of the bioethical issues that are important for all of us The essays treat bioethics less as a discipline confined to a few experts than as a deeply humanistic set of concerns that inevitably draws us into religious and metaphysical issues From reflections on his experience as a member of the President's Council on Bioethics to the way in which Christian trinitarian teaching has shaped what it means to be a person from life's beginning to its ending these essays offer readers a chance to think about matters of fundamental human significance

Pentecostalism as a Christian Mystical Tradition Castelo, Daniel, 2017 Informed reassessment of Pentecostalism as a mystical tradition of the church universal Pentecostalism says Daniel Castelo is commonly framed as evangelicalism with tongues or dismissed as simply a revivalist movement In this book Castelo argues that Pentecostalism is actually best understood as a Christian mystical tradition Taking a theological approach to Pentecostalism Castelo looks particularly at the movement's methodology and epistemology as he carefully distinguishes it from American evangelicalism Castelo displays the continuity between Pentecostalism and ancient church tradition creating a unified narrative of Pentecostalism and the mystical tradition of Christianity throughout history and today Finally he uses a test case to press the question of what the interactions between mystical theology and dogmatics could look like

Routledge Revivals: Women and Gender in Medieval Europe (2006) Margaret Schaus, 2017-07-12 First published in 2006 *Women and Gender in Medieval Europe* examines the daily reality of medieval women from all walks of life in Europe between 450 CE and 1500 CE This reference work provides a comprehensive understanding of many aspects of

medieval women and gender such as art economics law literature sexuality politics philosophy and religion as well as the daily lives of ordinary women Masculinity in the middle ages is also addressed to provide important context for understanding women's roles Additional up to date bibliographies have been included for the 2016 reprint Written by renowned international scholars and easily accessible in an A to Z format students researchers and scholars will find this outstanding reference work to be a valuable resource on women in Medieval Europe **Faith and Reason Through**

Christian History Grant Kaplan, 2022-08-29 It is impossible to understand the history of Christian theology without taking into account the relationship between faith and reason Many works give an overview of faith and reason or outline key principles while others put forward a thesis about how one should understand the relationship between faith and reason In this theological essay Grant Kaplan revisits the key figures and debates that shape how faith and reason relate Divided into three parts Kaplan invites readers into a conversation rather than a drive by Readers will encounter the words and arguments of some of Christianity's greatest thinkers some well known Augustine Aquinas Newman and others nearly forgotten Readings of these figures bring them to life in an accessible manner In Faith and Reason through Christian History the roughly fifty figures treated are given sufficient room to breathe Rather than simply summarizing their thought Kaplan traces their arguments through key texts This book will appeal to a range of audiences theologians and philosophers instructors graduate students seminarians lay study groups and undergraduate theology majors No book today accomplishes what this book does

Getting the books **Scholasticism Personalities Problems** now is not type of challenging means. You could not lonesome going bearing in mind books accrual or library or borrowing from your connections to open them. This is an no question easy means to specifically get guide by on-line.
