**School Choice Myths** Corey A. DeAngelis, Neal P. McCluskey, 2020-10-07 Are there legitimate arguments to prevent families from choosing the education that works best for their children Opponents of school choice have certainly offered many objections but for decades they have mainly repeated myths either because they did not know any better or perhaps to protect the government schooling monopoly In these pages 14 of the top scholars in education policy debunk a dozen of the most pernicious myths including school choice siphons money from public schools choice harms children left behind in public schools school choice has racist origins and choice only helps the rich get richer As the contributors demonstrate even arguments against school choice that seem to make powerful intuitive sense fall apart under scrutiny There are frankly no compelling arguments against funding students directly instead of public school systems *School Choice Myths* shatters the mythology standing in the way of education freedom

**Educational Policy Goes to School** Gilberto Conchas, Michael Gottfried, Briana Hinga, Leticia Oseguera, 2017-09-08 Educational policies explicitly implemented in order to reduce educational gaps and promote access and success for disenfranchised youth can backfire and often have the unintended result of widening those gaps In this interdisciplinary collection of case studies contributors examine cases of policy backfire when policies don t work have unintended consequences and when policies help Although policy reform is thought of as an effective way to improve schooling structures and to diminish the achievement gap many such attempts to reform the system do not adequately address the legacy of unequal policies and the historic and pervasive inequalities that persist in schools Exploring the roots of school inequality and examining often ignored negative policy outcomes contributors illuminate the causes and consequences of poor policymaking decisions and demonstrate how policies can backfire fail or have unintended success
