Hosmer, 2015-07-06 Excerpt from Short History of German Literature If we turn back two hundred years we find the reading men of England if they have time to go beyond their own authors giving their attention among moderns to the Italians and Spanish As yet in Europe only Italy and Spain besides England had seen the rise of literatures of sufficient moment to influence the cultivated world beyond the national limits Dante Petrarch Boceaccio Ariosto Tasso Machiavelli had lived and these are still the greatest Italian names In Spain Cervantes Lope de Vega and Calderon had done their work work which no succeeding writers of that land have equalled If we go back one hundred years the literature of France has taken the place in the estimation of the English once held by the writers of Spain and Italy the brilliant men of the age of Louis XIV have laid the world under their spell In our time again the influence of France has been to a large extent supplanted Following especially the lead of two of the most gifted Englishmen of the century Coleridge and Carlyle the present generation turns with most reverence to the Germans often regarding their literature as the most important in the world after our own if indeed we are to make that exception It will scarcely be questioned that some knowledge of the history of German literature is to English speaking persons an essential part of thorough culture About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged
