Manning Clark:

Ever, Manning Roslyn Russell, 2008-08-01 Manning Clark is Australia's most influential historian and his work continues to set agendas and generate debate long after his death. This selection of his letters offers an unparalleled view of the complex intellectual and emotional life of this controversial figure. From his time as a young man at Oxford in the late 1930s to his final days half a century later, he maintained a lively and erudite correspondence with family and with a wide range of public figures and other people. With an immediacy not visible in Clark's published work, his letters reveal his life-long struggle to tell the story of his country. They also embody his hopes for Australia and the dismay he felt about many trends he saw emerging in the closing decades of the twentieth century. The letters track a progression from academic to public sage as well as the influence of his personal life upon his work. Correspondence from his travels to the Soviet Union, the USA and other countries reflect a biting insight as well as attitudes that might surprise the many who have accused him of left-wing bias. *Ever Manning* is fascinating reading for anyone interested in Australian history. **A Short History of Manning Clark**

Stephen Holt, 1999 A lively up to the minute account of a controversial Australian Historian's Life Fay Anderson, 2017-04-28 Max Crawford was one of Australia's pre-eminent historians. As both a participant in and observer of many decisive episodes of the era—Europe in the midst of the Depression, America and Russia at the height of World War II, post-war reconstruction and the Cold War in Australia—Crawford was regarded as a radical and outspoken defender of intellectual autonomy. This biography considers Crawford as an historian and a public intellectual. It relates his experiences as a student at Sydney and Oxford, a struggling teacher during the Depression, as the head of the History School at the University of Melbourne, a diplomat in wartime Russia, and a Cold War victim and accuser. The study of Crawford's life provides insight into one man's experience in the midst of political turmoil and the limits of intellectual autonomy on Australian campuses, as well as the suspicion of liberal intellectuals in Australian public life, the repression of academic radicals, and ASIO's attempts to stifle dissident voices. Spanning his life 1906–1991, Crawford's political and intellectual journey suggests the changing nature of Australian progressive liberalism and the precarious state of academic freedom.

Manning Clark Carl Bridge, 2015-03-19 Manning Clark's work provokes violent reactions for and against. His majestic six-volume *A History of Australia* helped us to know who we are. Yet attacks on Clark stretch back fifty years, and Peter Ryan accused him recently of writing gooey subjective pap, much of it false. These essays offer detailed scholarly analysis of the *History*, its style and structure, its dominant themes, its treatment of women and Aborigines, its sense of place, its reliability. They examine Clark's place among Australian historians, artists, and writers; his public role as the best guru in the business; his teaching methods; his philosophy of life and his thinking on national identity. How should we judge Manning Clark's contribution? What is his place in Australian history? This book seeks to inform opinion and to steady the debate. Its contributors include historians, political scientists, literary critics, classicists, men and women, young and old friends, and
