*Ukraine vs. Darkness* Olexander Scherba, 2021-04-30 This book draws on the author's experience from 26 years of Ukrainian diplomatic service in among others Bonn Berlin Washington and Vienna and his work as a speechwriter to most Ukrainian foreign ministers for the

last two decades Scherba's captivating essays reflect his views of international affairs from a Ukrainian perspective. His deliberations are presented in uncomplicated plain language. The articles assembled here have repeatedly caused discussion in Ukraine and abroad. By his opponents Scherba is often described as being surprisingly undiplomatic and even provocative. For instance his article "Why nationalism can't be the national idea of a European Ukraine" published on a Ukrainian nationalist website stirred considerable controversy in Ukraine. Aside from explaining Kyiv's take on some key issues of international relations these essays provide insights into Ukrainian political thinking since the start of Russia's military aggression in 2014 and into the painful political intramural fights in Ukrainian society ever since.

**Overkill** Eliot Borenstein, 2011-05-02 Perestroika and the end of the Soviet Union transformed every aspect of life in Russia and as hope began to give way to pessimism popular culture came to reflect the anxiety and despair felt by more and more Russians Free from censorship for the first time in Russia's history the popular culture industry publishing film and television began to disseminate works that featured increasingly explicit images and descriptions of sex and violence In Overkill Eliot Borenstein explores this lurid and often disturbing cultural landscape in close imaginative readings of such works as You're Just a Slut My Dear Ty prosto shliukha dorogaia a novel about sexual slavery and illegal organ harvesting the Nympho trilogy of books featuring a Chechen fighting sex addict and the Mad Dog and Antikiller series of books and films recounting respectively the exploits of the

Russian Rambo and an assassin killing in the cause of justice Borenstein argues that the popular cultural products consumed in the post perestroika era were more than just diversions they allowed Russians to indulge their despair over economic woes and everyday threats At the same time they built a notion of nationalism or heroism that could be maintained even under the most miserable of social conditions when consumers felt most powerless For Borenstein the myriad depictions of deviance in pornographic and also detective fiction with their patently excessive and appalling details of social and moral decay represented the popular culture industry's response to the otherwise unimaginable scale of Russia's national collapse The full sense of collapse he writes required a panoptic view that only the media and culture industry were eager to provide amalgamating national collapse into one master narrative that would then be readily available to most individuals as a framework for understanding their own suffering and their own fears

*Illegible* Sergey Gandlevsky, 2019-11-15 Sergey Gandlevsky's 2002 novel *Illegible* has a double time focus centering on the immediate experiences of Lev Krivorotov a twenty year old poet living in Moscow in the 1970s as well as his retrospective meditations thirty years later after most of his hopes have foundered As the story begins Lev is involved in a tortured affair with an older woman and consumed by envy of his more privileged friend and fellow beginner poet Nikita one of the children of high Soviet functionaries who were known as golden youth In both narratives Krivorotov recounts with regret and self castigation the failure of a double infatuation his erotic love for the young student Anya and his artistic love for the poet Viktor Chigrashov When this double infatuation becomes a romantic triangle the consequences are tragic In *Illegible* as in his poems Gandlevsky gives us unparalleled access to the atmosphere of the city of Moscow and the ethos of the late Soviet and post Soviet era while at the same time demonstrating the universality of human emotion
