Reichel, Ryan Randa, 2018-01-12 This two volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security National security is a key concern for individual nations regions and the global community yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world Whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally the security issues related to preventing and combatting transnational crime remain of top priority concern for many governments *Transnational Crime and Global Security* has been carefully curated to provide students scholars professionals and consultants of criminal justice and security studies with comprehensive information about and in depth analysis of contemporary issues in transnational crime and global security The first volume covers such core topics as cybercrime human trafficking and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime the weaponization of infectious diseases and outlaw motorcycle gangs The second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters using big data to reinforce security and how to focus efforts that encourage security cooperation

The Nexus Between Organized Crime and Terrorism Paoli, Letizia, Fijnaut, Cyrille, Wouters, Jan, 2022-02-18 In the post 9 11 era the nexus between organized crime and terrorism has raised much concern and has been widely discussed in both academic and policy circles but is still largely misunderstood This critical book contributes innovatively to the debate by distinguishing three types of nexus interaction transformation imitation and similarities and identifying the promoting factors of each type *Handbook of Transnational Crime and Justice* Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the *Handbook of Transnational Crime and Justice* Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike *The Politics of Controlling Organized Crime in Greater China* Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central

government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

films and books art theft is a fascinating topic that continues to capture the popular imagination However it is one of many types of art crime that remain under researched and which require much more academic empirical investigation This book examines who is performing managing governing and controlling the securitization and policing of art theft in London Through giving the first map of the policing and securitization of one of the world's largest centres of art it helps our understanding of art security at city national and international levels and offers practical recommendations for those who operate within art security Providing the first clear single account of the London art security terrain this book also advances current knowledge of policing environmental criminology and insurance Moreover it adds to the previous research into the traditionally restricted worlds of private policing public policing and the art world **Globalization's Contradictions**

Clarke, 2015-06-01 This in

depth historical analysis of terrorism investigates the major funding streams of terrorists insurgents guerrillas warlords militias and criminal organizations throughout the world as well as the efforts of the international community to thwart their efforts Terrorist financing is an ongoing game of creating concealing and surreptitiously utilizing funds This intriguing book

considers every facet of guerrilla funding from how activities are financed to what insurgents do with the revenue they generate to the range of countermeasures in place for deterring their moneymaking activities Case studies prompt an analysis of past government responses and inform recommendations for countering irregular warfare worldwide Author Colin P Clarke presents the business side of terrorism taking a look at the cash producing ventures he labels gray activities such as diaspora support charities fraudulent businesses front companies and money laundering as well as dark activities including kidnapping for ransom robbery smuggling trafficking and extortion He considers the transnational efforts to stop terrorist activities from wiretaps and electronic surveillance to financial sanctions and the freezing of funds and accounts and points to the emergence of interagency task forces for detaining and destroying the operations of major criminal organizations across the globe

Corporate Manslaughter and Corporate Homicide Shivam Goel,2015-06-26 A corporation is an artificial legal person existing only in the contemplation of law having perpetual succession and common seal Can a corporation commit crime for its inability to form mens rea If yes then can it be accused of crimes as grave as homicide Even post the Bhopal Gas Tragedy and the Uphaar Cinema Tragedy absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act 2007 UK is no less a pity Absolute liability theory coupled with deep pocket theory though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence This book is an attempt to ponder over issues relating to corporate criminal behaviour in particular corporate homicide and corporate manslaughter

In the Name of Terrorism Carol K. Winkler,2012-02-16 Winner of the 2008 Outstanding Book Award presented by the Political Communication Division of the National Communication Association The topic of terrorism has evolved into an ideological marker of American culture one that has fundamentally altered the relationship between the three branches of government between the government and the people and between America and countries abroad In the Name of Terrorism describes and analyzes the public communication strategies presidents have deployed to discuss terrorism since the end of World War II Drawing upon internal administration documents memoirs and public papers Carol K Winkler uncovers how presidents have capitalized on public perceptions of the terrorist threat misrepresented actual terrorist events and used the term terrorism to influence electoral outcomes both at home and abroad Perhaps more importantly she explains their motivations for doing so and critically discusses the moral and political implications of the present range of narratives used to present terrorism to the public

Of Fears and Foes Jose V. Cipurut,2001-09-30 At the end of the deadliest century known to mankind the world still finds itself mired in bloodshed In addition to formal inter state conflict we see an increase in other forms of organized violence including ethnic warfare terrorism civil conflict and internationally necessitated police actions Cornered by these powerful global forces nation states continue their quest for security Theirs is a search plagued by futility since the very meaning of the word security is being eroded by the pace and tenor of change in an evolving international environment more complex and confusing than ever The explanatory power of traditional notions of international security

which has provided a cornerstone for international relations theory as a whole seems increasingly inadequate in helping to understand the makings of global security A novel approach is needed one that integrates discerning insights from the study of language history geography religion economics and technology with more traditional understandings of the workings of power on an international level and on an intranational scale Of Fears and Foes presents just this kind of innovative thinking by some of the most creative scholars working on these issues today Ciprut invites us to consider a fundamental reassessment of what constitutes security and insecurity in an emerging global environment *Criminal Justice 2000* ,2000
