*Educating Nurses for Leadership* Harriet R. Feldman, PhD, RN, FAAN, 2005-04-18 Winner of an AJN Book of the Year Award Nurses are presented with the challenge of leading a variety of groups in our healthcare environment ranging from patients and families to communities and organizations While there appears to be little time for leadership development leadership skills are in great demand This first book of its kind fills the leadership development void not perviously addressed in nursing education

The Nursing Shortage Harriet R. Feldman, PhD, RN, FAAN, 2003-08-12 This book presents an overview of innovative initiatives to combat the nursing shortage that are being pioneered in a number of states schools of nursing and health care institutions Among the strategies described are preceptor and mentoring arrangements scholarship work payback agreements private and public funding initiatives to support the education of future nurses and service education partnership models An international perspective is added by a chapter on initiatives in a hospital in Iceland

**Comfort Theory and Practice** Katharine Kolcaba, 2002-12-30 I am most excited and impressed with the scope and focus of this work As I began to read it I had trouble putting it down It is highly readable engaging all inclusive and most informative Jean Watson RN PhD HNC FAAN I am honored and delighted to recommend this text for all nurses who cared for and care about patients from the Foreword by May Wykle RN PhD FAAN This book places comfort at the forefront of nursing care by presenting a carefully researched theory of comfort that nurses can use as a framework for practice Engagingly written the book combines a first person account of the development of the theory with supporting research and practical information for its application Kolcaba analyzes the concept of comfort describes its physical psychospiritual environmental and sociocultural components evaluates its meaning in the many different contexts in which health care occurs and describes how it can be measured The appendix includes comfort care questionnaires that can be used with patients in many settings and a comfort scale that can be used with patients for a quick assessment of comfort Clinicians researchers educators and students will find this holistic approach helpful in setting priorities and parameters for patient care

*The Future of Nursing* Institute of Medicine, Committee on the Robert Wood Johnson Foundation Initiative on the Future of Nursing, at the Institute of Medicine, 2011-03-08 The Future of Nursing explores how nurses roles responsibilities and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America s increasingly complex health system At more than 3 million in number nurses make up the single largest segment of the health care work force They also spend the greatest amount of time in delivering patient care as a profession Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care

professionals in improving the quality and safety of care as envisioned in the Affordable Care Act ACA enacted this year Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States To ensure its members are well prepared the profession should institute residency training for nurses increase the percentage of nurses who attain a bachelor s degree to 80 percent by 2020 and double the number who pursue doctorates Furthermore regulatory and institutional obstacles including limits on nurses scope of practice should be removed so that the health system can reap the full benefit of nurses training skills and knowledge in patient care In this book the Institute of Medicine makes recommendations for an action oriented blueprint for the future of nursing **Strategies for Nursing**
