Eureka Chad Orzel, 2014-12-09 When it comes to science too often people say I just don t have the brains for it and leave it at that Why is science so intimidating and why do people let

themselves feel this way What makes one person a scientist and another disinclined even to learn how to read graphs The idea that scientists are people who wear lab coats and are somehow smarter than the rest of us is a common yet dangerous misconception that puts science on an intimidating pedestal How did science become so divorced from everyday experience In Eureka science popularizer Chad Orzel argues that even the people who are most forthright about hating science are doing science often without even knowing it Orzel shows that science is central to the human experience every human can think like a scientist and regularly does so in the course of everyday activities The common misconception is that science is a body of boring abstract often mathematical facts In truth science is a process Looking at the world Thinking about what makes it work Testing your mental model by comparing it to reality and Telling others about your results all things that people do daily By revealing the connection between the everyday activities that people do solving crossword puzzles playing sports or even watching mystery shows on television and the processes used to make great scientific discoveries Eureka shows that this process is one everybody uses regularly and something that anyone can do

An Anthropology of Puzzles Marcel Danesi, 2020-05-15 An Anthropology of Puzzles argues that the human brain is a puzzling organ which allows humans to literally solve their own problems of existence through puzzle format Noting the presence of puzzles everywhere in everyday life Marcel Danesi looks at puzzles in society since the dawn of history showing how their presence has guided large sections of human history from discoveries in mathematics to disquisitions in philosophy Danesi examines the cognitive processes that are involved in puzzle making and solving and connects them to the actual physical manifestations of classic puzzles Building on a concept of puzzles as based on Jungian archetypes such as the river crossing image the path metaphor and the journey Danesi suggests this could be one way to understand the public fascination with puzzles As well as drawing on underlying mental archetypes the act of solving puzzles also provides an outlet to move beyond biological evolution and Danesi shows that puzzles could be the product of the same basic neural mechanism that produces language and culture Finally Danesi explores how understanding puzzles can be a new way of understanding our human culture

Weird Al Lily E. Hirsch, 2022-04-15 From his love of accordions and Hawaiian print shirts to his popular puns and trademark dance moves Weird Al Yankovic has made a career out of making us laugh Funny music is often dismissed as light and irrelevant but Yankovic's fourteen successful studio albums prove there is more going on than comedic music's reputation suggests In this book for the first time the parodies original compositions and polka medleys of the Weird Al universe finally receive their due

respect Lily Hirsch weaves together original interviews with the prince of parody himself creating a fresh take on comedy and music s complicated romance She reveals that Yankovic s jests have always had a deeper meaning addressing such topics as bullying celebrity and racial and gender stereotypes Weird Al is undeterred by those who say funny music is nothing but a low brow pastime And thank goodness With his good guy grace still intact Yankovic remains unapologetically and unmistakably himself Reveling in the mischief and wisdom of Yankovic s forty year career this book is an Al expense paid tour of a true comedic and musical genius Lewis Carroll's Cats And Rats...
