Eye hEar The Visual in Music Simon Shaw-Miller, 2017-07-05 Eye hEar The Visual in Music employs the concept of the visual in proximate relation to music producing a tension is it not the case that there is a gulf between painting and music between the visible and the audible One is full of colour and light yet silent one is invisible and marvellously noisy Such a belief this book argues betrays an ideological constraint on music desiccating it to sound and art to vision The starting point of this study is more hybrid and hydrating that music is never employed without numerous and complex intersections with the visual By involving the concept of synaesthesia the book evokes music s multi sensory nature stops it from sounding alone and offers music as a subject for art historians Music bleeds into art and visuality in its graphic depiction in notation in the theatre of performance its sights and sites This book looks at music in its absolute guise as a model for art at notation and the conductor as the silent visual fulcra around which music circulates at the music and image of Erik Satie at the concert hall as white cube at the symphonic film 2001 A Space Odyssey and at the liminality of John Cage and Andy Warhol

analytical methods are mostly inadequate Delius's musical style has also defied one of the most essential critical tools of his musical epoch: that of national identity His style bears no relation either to the Victorian or Edwardian aesthetic of British music spearheaded by Parry, Stanford and Elgar before the First World War nor to the more overtly nationalist folk song orientated pastoralism of post-war Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888-1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg, Sinding, Florent Schmitt, Wagner, Strauss and Debussy r Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his

own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy r Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy r Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy
