Language Et Ses Contexts Pierre-Alexis Mével, Helen Tattam, 2010 Inspired by a postgraduate French studies conference University of Nottingham 10 September 2008 this volume explores linguistic form and content in relation to a variety of contexts considering language alongside music images theatre human experience of the world and another language Each essay asks what it is to understand language in a given context and how in spite of divergent expressive possibilities a linguistic situation interacts with other contexts renegotiating boundaries and redefining understanding The book lies at the intersection of linguistics and hermeneutics seeking to contextualise philosophical and linguistic discussions of communication across a range of media and to illustrate their intimate relations despite differing strategies or emphases Puisant son inspiration dans un colloque de French studies pour doctorants Université de Nottingham 10 septembre 2008 cet ouvrage étudie forme et contenu linguistiques en relation avec différents contextes considérant le langage conjointement avec la musique les images le théâtre l'expérience du monde et un autre langage Chaque chapitre dissèque la

compréhension du langage dans un contexte donné et se demande comment en dépit de possibilités expressives divergentes une situation linguistique interagit avec d'autres contextes redessinant leurs frontières et redéfinissant la compréhension. Ce livre situe l'intersection entre la linguistique et l'herméneutique a pour but de contextualiser les discussions philosophiques et linguistiques sur la communication dans une gamme de médias et de montrer leur relation intime malgré des stratégies ou intentions différentes.

L'épuisement du biographique? Vincent Broqua, Guillaume Marche, 2010-10-12 Pourquoi penser le biographique ? N'est-il pas puisé ? Le siècle passé semble l'avoir vidé de son contenu et de sa substance et l'aurait entraîné à un affaiblissement presque complet dans le domaine des sciences sociales comme dans celui de la critique littéraire. L'enjeu de cet ouvrage est d'affirmer que le biographique déborde la biographie et de considérer le biographique comme une condition du retour de la biographie au moyen de son dépasement. Cet ouvrage rassemble des travaux abordant

Postcolonialisme & autobiographie, 2023-11-20 Les deux volumes de Postcolonialisme Autobiographie sont consacrés à l'affinité qui unit la littérature postcoloniale et le genre de l'autobiographie. Les contributions de spécialistes originaires d'Afrique du Nord, d'Europe et des États-Unis se concentrent sur deux régions dans lesquelles l'interrelation entre le postcolonialisme et l'autobiographie est particulièrement marquante et fertile : le Maghreb et les Caraïbes anglophones et francophones. L'héritage fond colonial stimule les auteurs et les amène à élaborer un programme d'émancipation en vue de constituer un sujet d'colonisé grâce à la critique autobiographique. Tandis que le volume anglais traite des problèmes du genre autobiographique dans les Caraïbes anglophones, le volume français analyse les écrits autobiographiques du Maghreb, en particulier ceux d'Assia Djebar et d'Albert Memmi, et ceux des Antilles francophones, surtout l'œuvre de Daniel Maximin. Des critiques comme Mireille Calle Gruber, Françoise Lionnet, Mireille Rosello, Ronnie Scharfman et d'autres révèlent les multiples couches des différentes cultures africaines et indiennes sur lesquelles les pouvoirs coloniaux européens et américains sont venus se greffer. Nomadisme, exil et hybridité définissent l'existence des créolisés et des critiques. Les textes d'auteurs indits permettent de se faire une idée de la grande variété et de la grande richesse de la critique autobiographique postcoloniale.

Elie Wiesel and the Art of Storytelling Rosemary Horowitz, 2014-11-01 Elie Wiesel is a master storyteller with the ability to use storytelling as a form of activism. From his landmark memoir *Night* to his novels and numerous retellings of Hasidic legends, Wiesel's literature emphasizes storytelling and he frequently refers to himself as a storyteller rather than an author or historian. In this work, essays examine Wiesel's roots in Jewish storytelling traditions, influences from religious folk and secular sources, education, Yiddish background, Holocaust experience, and writing style. Emphasized throughout is Wiesel's use of multiple sources in an effort to reach diverse audiences.
