Mystery Science Theater 3000 Matt Foy,Christopher J. Olson,2024-08-20 A fun and fascinating deep dive for devoted and loyal MST3K fans Library Journal that reveals the impact and creation of the cult hit television series Mystery Science Theater 3000 Few television shows can boast the long term cult popularity and cultural influence of Mystery Science Theater 3000 or MST3K to its legions of devoted fans known collectively as MSTies Created by quirky standup comic Joel Hodgson and producer Jim Mallon Mystery Science Theater 3000 was a low budget and altogether unconventional comedy series about a man trapped in space and forced to watch the worst movies ever made alongside a pair of homemade wisecracking robots named Tom Servo and Crow T Robot In Mystery Science Theater 3000 A Cultural History Matt Foy and Christopher J Olson explore the

vast cultural influence of the cult television series charting how the show's aesthetics style of humor and distribution innovations heralded shifts in popular culture and media production and criticism The show also engaged viewers in the do it yourself media subculture of the 1980s that blurred the lines between media producers and consumers and introduced the art of media riffing into popular culture Beginning with the humble origins of MST3K Foy and Olson dig into everything from the show's journey across networks to the must watch episodes Also discussed are the endeavors of cast members after the show's cancellation including RiffTrax Cinematic Titanic and the Mads Are Back as well as the show's second life through a Kickstarter campaign and a Netflix revival This is an essential guide to all things MST3K for fans both new and old *The Year's Best Science Fiction: Twenty-First Annual Collection* Gardner Dozois, 2007-04-01 The stories in this collection imaginatively take readers far across the universe into the very core of their beings to the realm of the Gods and to the moment just after now Included are the works of masters of the form and the bright new talents of tomorrow This book is a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart **Nebula Awards Showcase 2006** Gardner Dozois, 2009-04-07 Each year the members of the Science Fiction and Fantasy Writers of America bestow the Nebula Awards to authors whose exemplary fiction represents the most thought provoking and entertaining work the genre has to offer Nebula Awards Showcase collects the year's most preeminent science fiction and fantasy in one essential volume This year's winners include Lois McMaster Bujold Eileen Gunn Ellen Klages and Walter Jon Williams as well as Grand Master Anne McCaffrey *The Films of John Carpenter* John Kenneth Muir, 2005-03-16 The films of John Carpenter cover a tremendous range and yet all bear his clear personal stamp From the horrifying Halloween to the touching Starman to the controversial The Thing to the comic Big Trouble in Little China his films reflect a unique approach to filmmaking and singular views of humanity and American culture This analysis of Carpenter's films includes a historical overview of his career and in depth entries on each of his films from 1975's Dark Star to 1998's Vampires Complete cast and production information is provided for each The book also covers those films written and produced by Carpenter such as Halloween II and Black Moon Rising as well as Carpenter's work for television Appendices are included on films Carpenter was offered but turned down the slasher films that followed in the wake of the highly successful Halloween the actors and characters who make repeated appearances in Carpenter's films and ratings for Carpenter's work Notes bibliography and index are included **An Informal History of the Hugos** Jo Walton, 2018-08-07 Engaged passionate and consistently entertaining An Informal History of the Hugos is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com the Locus Award winning What Makes This Book So Great The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been presented since 1953 They are widely considered the most prestigious awards in science fiction Between 2010 and 2013 Jo Walton wrote a series of posts for Tor.com surveying the

Hugo finalists and winners from the award's inception up to the year 2000. Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time. Walton's cheerfully opinionated and vastly well-informed posts provoked valuable conversation among the field's historians. Now these posts, lightly revised, have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton, Gardner Dozois, and David G. Hartwell. A remarkable guided tour through the field, a kind of nonfiction companion to *Among Others*. It's very good. It's great. New York Times bestselling author Cory Doctorow. *Being Boing on What Makes This Book So Great*. **Between Heaven and Texas** Marie Bostwick, 2013-05-01. The New York Times bestselling author of the *Cobbled Court Quilts* series introduces a quirky Texas town and a young woman about to discover her destiny. Welcome to Too Much Texas, where the women are strong-willed and the men are handsome yet shiftless. Ever since Mary Dell Templeton and her twin sister Lydia Dale were children, their Aunt Velvet has warned them away from local boys. But it's well known that the females in Mary Dell's family have two traits in common: superior sewing skills and a fatal weakness for men. While Lydia Dale grows up petite and pretty, Mary Dell just keeps growing. Tall, smart, and sassy, she is determined to one day turn her love of sewing into a business. Meanwhile, she'll settle for raising babies with her new husband Donny. But that dream proves elusive too until finally Mary Dell gets the son she always wanted: a child as different as he is wonderful. And as Mary Dell is forced to reconsider what truly matters in her family and her marriage, she begins to piece together a life that, like the colorful quilts she creates, will prove vibrant, rich, and absolutely unforgettable. Powerful, inspiring, and uplifting. 1. New York Times bestselling author Robyn Carr. **Psience Fiction** Damien Broderick, 2018-05-12. Science fiction has often been considered the literature of futuristic technology, fantastic warfare among the stars, or ruinous apocalypses on Earth. The last century, however, saw through John W. Campbell the introduction of *psience fiction*, which explores such themes of mental powers as telepathy, precognition of the future, teleportation, etc., and symbolic machines that react to such forces. The author surveys this long-ignored literary shift through a series of influential novels and short stories published between the 1930s and the present. This discussion is framed by the sudden surge of interest in parapsychology and its absorption not only into the SF genre but also into the real world through military experiments such as the Star Gate Program. **The Routledge Companion to Cyberpunk Culture** Anna McFarlane, Lars Schmeink, Graham Murphy, 2019-11-28. In this companion, an international range of contributors examine the cultural formation of cyberpunk from micro-level analyses of example texts to macro-level debates of movements, providing readers with snapshots of cyberpunk culture and also cyberpunk as culture. With technology seamlessly integrated into our lives and our selves, and social systems veering towards globalization and corporatization, cyberpunk has become a ubiquitous cultural formation that dominates our twenty-first-century techno-digital landscapes. *The Routledge Companion to Cyberpunk Culture* traces cyberpunk through its historical developments as a literary science-fiction form to its spread into other media such as comics, film, television, and video games. Moreover, seeing

cyberpunk as a general cultural practice the Companion provides insights into photography music fashion and activism Cyberpunk as the chapters presented here argue is integrated with other critical theoretical tenets of our times such as posthumanism the Anthropocene animality and empire And lastly cyberpunk is a vehicle that lends itself to the rise of new futurisms occupying a variety of positions in our regionally diverse reality and thus linking as much as differentiating our perspectives on a globalized technoscientific world With original entries that engage cyberpunk s diverse angles and its proliferation in our life worlds this critical reference will be of significant interest to humanities students and scholars of media cultural studies literature and beyond

How to Live Forever Stephen R L Clark, 2008-01-28 Immortality is a subject which has long been explored and imagined by science fiction writers In his intriguing new study Stephen R L Clark argues that the genre of science fiction writing allows investigation of philosophical questions about immortality without the constraints of academic philosophy He reveals how fantasy accounts of issues such as resurrection disembodied survival reincarnation and devices or drugs for preserving life can be used as an important resource for philosophical inquiry and examines how a society of immortals might function through a reading of the vampire myth *How to Live Forever* is a compelling study which introduces students and professional philosophers to the possibilities of using science fiction in their work It includes extensive suggestions for further reading both fictional and philosophical and examines the work of such major science fiction authors as Arthur C Clarke Frank Herbert Larry Niven William Gibson and Colin Wilson

Visions of Wonder David G. Hartwell, Milton T. Wolf, 1996-10-15 At last here is a definitive classroom reading anthology of modern science fiction endorsed by the Science Fiction Research Association The book includes SF in all its modern diversity from Golden Age writers to latter day titans and current popular writers

The History of the Science-fiction Magazine Michael Ashley, 2000 This third volume in Mike Ashley s four volume study of the science fiction magazines focuses on the turbulent years of the 1970s when the United States emerged from the Vietnam War into an economic crisis It saw the end of the Apollo moon programme and the start of the ecology movement This proved to be one of the most complicated periods for the science fiction magazines Not only were they struggling to survive within the economic climate they also had to cope with the death of the father of modern science fiction John W Campbell Jr while facing new and potentially threatening opposition The market for science fiction diversified as never before with the growth in new anthologies the emergence of semi professional magazines the explosion of science fiction in college the start of role playing gaming magazines underground and adult comics and with the success of Star Wars media magazines This volume explores how the traditional science fiction magazines coped with this from the death of Campbell to the start of the major popular science magazine *Omni* and the first dreams of the Internet

The Worst We Can Find Dale Sherman, 2023-06-15 Had you tuned in to the small television station KTMA on Thanksgiving Day 1988 you would have been one of the few witnesses to pop culture history being made On that day viewers in and around St Paul Minnesota were treated to a genuine oddity in which a man and his robots trapped within

a defiantly DIY sci fi set cracked jokes while watching a terrible movie It was a cockeyed twist on the local TV programs of the past in which a host would introduce old cheaply licensed films And though its origins may have been inauspicious Mystery Science Theater 3000 captured the spirit of what had been a beloved pastime for generations of wags wiseacres and smartalecks and would soon go on to inspire countless more The Worst We Can Find is a comprehensive history of and guide to MST3K and its various offshoots including Rifftrax Cinematic Titanic and The Mads Are Back whose lean crew of writers performers and puppeteers have now been making fun of movies for over thirty years It investigates how riffing of films evolved recounts the history of these programs and considers how a practice guaranteed to annoy real life fellow moviegoers grew into such a beloved long lasting franchise As author Dale Sherman explains creative heckling has been around forever but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting winning the devotion of countless fans and aspiring riffers
