Overture To Social Anthropology:

An Overture to Social Anthropology Robert Francis Murphy, 1979 *Cultural and Social Anthropology* Robert Francis Murphy, 1989 Core text for introductory cultural social anthropology Discusses major theories of human behavior as well as topical issues *The Rebirth of Anthropological Theory* Stanley R. Barrett, 1992-12-15 Innovative and often controversial Barrett's study ranges over the entire scope of anthropological theory It provides a fresh interpretation of the history of theory and mounts an alternative perspective built around dialectics that is eminently suitable to post colonial anthropology He argues that anthropological theory has failed to be cumulative It has been characterized by oscillation and repetition theoretical orientations have appeared and disappeared only to be discovered once again Addressing numerous conceptual contradictions which have never been resolved he introduces novel concepts such as salvage theory and backward theory and argues that in many respects anthropological theory resembles the structuralists interpretation of myth Social life he asserts is inherently contradictory although concealed by numerous mechanisms most of which reinforce the status quo Attacking the illusion of simplicity which has dominated positivistic approaches and the out dated identification of anthropology with non Western primitive and tribal societies Barrett contends that power and privilege everywhere should be the basic concerns of anthropological inquiry **The Black Spiritual Movement** Hans A. Baer, 2001 Spiritual churches in the United States represent one of several religious movements that African Americans have adopted in their efforts to cope with mainstream society In this groundbreaking work first published in 1984 Hans A Baer explores the richness and creativity of Black Spiritualism setting forth an illuminating ethnography of the movement that corrects numerous stereotypes of African American religion Baer shows that the Spiritual churches blend diverse elements borrowing aspects of African American Protestantism American Spiritualism Roman Catholicism Voodoo and black ethno medicine occasionally even including aspects of Islam Judaism New Thought and Ethiopianism He describes not only the history structure ideology and practices of the churches but also the process of syncretism within them and their role within the African American community In addition Baer examines how the Spiritual movement juxtaposes elements of protest and accommodation to racism and class stratification in U S society This second edition includes a new preface and a new epilogue in which Baer discusses his methodology in researching the Black Spiritual Movement describes his meetings with pastors and congregation members and summarizes his most recent research in the field **Debunking the Myths of Colonization** Samar Attar, 2010-04-13 This book examines the paradoxical nature of colonialism and its horrific impact on the psyche of the colonized It probes Frantz Fanon's theories concerning the relationship between colonizers and the colonized It attempts to apply these theories to modern Arabic literature **The Dawn of Belief** D. Bruce Dickson, 1992-07 Hunter gatherers of the Upper Paleolithic period of the late Pleistocene epoch in western Europe left a legacy of cave paintings and material remains that have long fascinated modern man This book draws on theories derived from cultural anthropology and cognitive

archaeology to propose a reconstruction of the religious life of those people based on the patterning and provenience of their artifacts Based on the premises that all members of Homo sapiens sapiens share basically similar psychological processes and capabilities and that human culture is patterned the author uses ethnographic analogy inference from material patterns and formal analysis to find in prehistoric imagery clues to the cosmology that lay behind them The resulting book is an intriguing speculation on the nature of paleolithic religion offering scholars a valuable synthesis of anthropological archaeological and sociological research and general readers an accessible account of how our forebears may have regarded the unknown A well written and intellectually rigorous introduction If you are curious about prehistory you will enjoy it Wilson Library Bulletin Most interesting to those scholars interested in seeking materialist foundations or ecological explanations for religious practices American Antiquity A well written and concise account of what has recently been achieved by the investigations of spiritual life of the Earth s most ancient human communities Archiv Orientalni Czechoslovakia *Body Silent* Robert F Murphy,2001-06-05 Robert Murphy was a professor of anthropology at Columbia before he developed a spinal tumour that progressed into quadriplegia Here he explores society s fears myths and misunderstanding about disability and the effect they have on the disabled person s identity and social standing African American Religious Studies Gayraud S. Cultural Differences and Economic Globalization Roger White, 2015-10-23 Economic globalization is the process of increased integration among nations characterized and fostered by three elements of international trade goods and services international capital flows and international migration In recent decades international economic integration has increased both in depth more pronounced bilateral connections and in breadth connections have become more commonplace thus the global economy has become increasingly integrated Societies receive tremendous net benefits from economic globalization however accessing these benefits may be limited by cross societal cultural differences This book examines cultural differences as a potential impediment to economic integration Relying on rigorous statistical and econometric techniques the analyses indicate that higher transaction costs due to greater cultural distance inhibit both the volume of trade flows and the successful completion of trade deals Cultural distance appears to reduce foreign direct investment as well as divert investment to less culturally distant destinations This book finds a negative relationship between migration flows and cultural distance It considers the common criticism that repeated and intensified integration diminishes cultural differences resulting in cultural homogeneity This book offers the first comprehensive examination of the relationships between cross societal

cultural differences and economic globalization It will be of great interest to scholars and students who study globalization international economics and cultural studies First Nations? Second Thoughts Tom Flanagan,2019-10-17 Over the last thirty years Canadian policy on aboriginal issues has come to be dominated by an ideology that sees aboriginal peoples as nations entitled to specific rights Indians and Inuit now enjoy legal privileges that include the inherent right to self government collective property rights immunity from taxation hunting and fishing rights without legal limits and free housing education and medical care Underpinning these privileges is what Tom Flanagan describes as aboriginal orthodoxy the belief that prior residence in North America is an entitlement to special treatment Flanagan shows that this orthodoxy enriches a small elite of activists politicians administrators and well connected entrepreneurs while bringing further misery to the very people it is supposed to help Controversial and thought provoking *First Nations Second Thoughts* dissects the prevailing ideology that determines public policy towards Canada's aboriginal peoples Flanagan analyzes the developments of the last ten years showing how a conflict of visions has led to a stalemate in aboriginal policy making He concludes that aboriginal success will be achieved not as the result of public policy changes in government but through the actions of the people themselves **Edhina Ekogidho - Names as Links** Minna Saarelma-Maunumaa,2003-10-17 What are the most popular names of the Ambo people in Namibia Why do so many Ambos have Finnish first names What do the African names of these people mean Why is the namesake so important in Ambo culture How did the long independence struggle affect personal naming and what are the latest name giving trends in Namibia This study analyses the changes in the personal naming system of the Ambo people in Namibia over the last 120 years starting from the year 1883 when the first Ambos received biblical and European names at baptism The central factors in this process were the German and South African colonisation and European missionary work on the one hand and the rise of African nationalism on the other hand Eventually this clash between African and European naming practices led to a new and dynamic naming system which includes elements of both African and European origin WE THE PEOPLE, SERVANTS OF DECEPTION Christopher M. Dawson,2012-05-14 Using the principles and tools of sociology presented in his university course Chris Dawson challenges the reader to reconsider the social reality of our society This book exposes inconsistencies and deceptions in the conventional portrayal of America's experiment in democracy His provocative social commentary explores the role of our military the culture of fear strategies in the war on terror the excesses of corporate power and our misconceptions about crime He speaks of social inequality social and racial group divisions and offers unconventional views about education medicine universal healthcare and the origins of religion The doubts he raises will merit your serious reflection *Ethnography and Law* Eve Darian-Smith,2017-11-30 Ethnographies of law are historically associated with anthropology and the study of far away places and people In contrast this volume underscores the importance of ethnographic research in analyzing law in all societies particularly complex developed nations By exploring recent ethnographic research by socio legal scholars across a range of disciplines the volume

highlights how an ethnographic approach helps in appreciating the realities of legal pluralism the subtle contradictions in any legal system and how legal meaning is constantly reproduced on the ground through the cultural frames and practices of peoples everyday lives
