Passage To Modernity An Essay In The Hermeneutics Of Nature And Culture:

Passage to Modernity Louis K. Dupré,1993-01-01 Did modernity begin with the Renaissance and end with post modernism Dupre challenges both these assumptions discussing the roots development and impact of modern thought and tracing the principles of modernity to the late 14th century **Ressourcement** Gabriel Flynn,Paul D. Murray,2012 A historical and a theological analysis of the most important movement in twentieth century Roman Catholic theology

Nicholas of Cusa and the Making of the Early Modern World ,2019-01-14 Nicholas of Cusa and Early Modern Reform sheds new light on Cusanus relationship to early modernity by focusing on the reform of church the reform of theology the reform of perspective and the reform of method which together aim to encompass the breadth and depth of Cusanus own reform initiatives In particular in examining the way in which he served as inspiration for a wide and diverse array of reform minded philosophers ecclesiastics theologians and lay scholars in the midst of their struggle for the renewal and restoration of the individual society and the world our volume combines a focus on Cusanus as a paradigmatic thinker with a study of his concrete influence on early modern thought This volume is aimed at scholars working in the field of late medieval and early modern philosophy theology and history of science As the first Anglophone volume to explore the early modern reception of Nicholas of Cusa this work will provide an important complement to a growing number of companions focusing on his life and thought **God and Nature in the Thought of Margaret Cavendish** Brandie R. Siegfried,Lisa T. Sarasohn,2016-04-22

Only recently have scholars begun to note Margaret Cavendish s references to God spirits and the rational soul and little has been published in this regard This volume addresses that scarcity by taking up the theological threads woven into Cavendish s ideas about nature matter magic governance and social relations with special attention given to Cavendish s literary and philosophical works Reflecting the lively state of Cavendish studies *God and Nature in the Thought of Margaret Cavendish* allows for disagreements among the contributing authors whose readings of Cavendish sometimes vary in significant ways and it encourages further exploration of the theological elements evident in her literary and philosophical works Despite the diversity of thought developed here several significant points of convergence establish a foundation for future work on Cavendish s vision of nature philosophy and God The chapters collected here enhance our understanding of the intriguing and sometimes brilliant contributions Cavendish made to debates about God s place in the scientific cosmos *The Doctrine of Creation* Bruce Riley Ashford,Craig G. Bartholomew,2020-11-10 According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today **Modern Religion, Modern Race**

Theodore Vial,2016-06-16 Religion is a racialized category even when race is not explicitly mentioned In *Modern Religion Modern Race* Theodore Vial argues that because the categories of religion and race are rooted in the post Enlightenment

project of reimagining what it means to be human we cannot simply will ourselves to stop using them Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world It has become common to argue that the category religion is not universal or even very old but is a product of Europe's Enlightenment modernization Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe's process of identity construction of itself and of non European others Current debates about race follow an eerily similar trajectory race is not an ancient but a modern construction It is part of the project of colonialism and race discourse forms one of the cornerstones of modern European identity making Why can't we stop using them or re construct them in less toxic ways By examining the theories of Kant Herder and Schleiermacher among others Vial uncovers co constitutive nature of race and religion describes how they became building blocks of the modern world and shows how the two concepts continue to be used today to form identity and to make sense of the world He shows that while we disdain the racist language of some of the founders of religious studies the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies Although it may not be time to abandon the very category of religion with all its attendant baggage *Modern Religion Modern Race* calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race

fragment and finally the culture of modernity After the Death of Nature Kenneth Worthy, Elizabeth Allison, Whitney Bauman, 2018-11-09 Carolyn Merchant's foundational 1980 book *The Death of Nature: Women, Ecology, and the Scientific Revolution* established her as a pioneering researcher of human-nature relations. Her subsequent groundbreaking writing in a dozen books and over one hundred peer-reviewed articles have only fortified her position as one of the most influential scholars of the environment. This book examines and builds upon her decades-long legacy of innovative environmental thought and her critical responses to modern mechanistic and patriarchal conceptions of nature and women, as well as her systematic taxonomies of environmental thought and action. Seventeen scholars and activists assess, praise, criticize, and extend Merchant's work to arrive at a better and more complete understanding of the human place in nature today and the potential for healthier and more just relations with nature and among people in the future. Their contributions offer personal observations of Merchant's influence on the teaching, research, and careers of other environmentalists Concepts of Nature R. J. Snell, Steven F. McGuire, 2016-10-07 If natural-law arguments struggle to gain traction in contemporary moral and political discourse, could it be because we moderns do not share the understanding of nature on which that language was developed? Building on the work of important thinkers of the last half-century, including Leo Strauss, Eric Voegelin, John Finnis, and Bernard Lonergan, the essays in *Concepts of Nature* compare and contrast classical, medieval, and modern conceptions of nature in order to better understand how and why the concept of nature no longer seems to provide a limit or standard for human action. These essays also evaluate whether a rearticulation of pre-modern ideas or perhaps a reconciliation or reconstitution on modern terms is desirable and/or possible. Edited by R. J. Snell and Steven F. McGuire, this book will be of interest to intellectual historians, political theorists, theologians, and philosophers *The Movement of Nihilism* Laurence Paul Hemming, Kostas Amiridis, Bogdan Costea, 2011-03-03 When Nietzsche announced the advent of nihilism in 1887-88, he argued that he was sketching the history of the next two centuries. For some time now, he wrote, our whole European culture has been moving as toward catastrophe, restlessly, violently headlong like a river that wants to reach the end that no longer reflects that it is afraid to reflect. Can we gain a ground for reflection upon our own condition? Can we heed Nietzsche's warning? Can we respond to the challenge? In this book, eleven newly commissioned essays from leading scholars offer an attempt to grasp Nietzsche's prescience through Heidegger's critique of it, attempting to think through the philosophical consequences of the last century in reading the signs of our own condition. The book also provides a fascinating and unique discussion of some of the lesser-known texts of the later Heidegger **Filaments** David Tracy, 2020-04-06 In the second volume of his two-volume collection of essays from the 1980s to 2018, renowned Catholic theologian David Tracy gathers profiles of significant theologians, philosophers, and religious thinkers. These essays, he suggests, can be thought of in terms of Walt Whitman's filaments, which are thrown out from the speaking self to others, ancient, medieval, modern, and contemporary, in order to be caught elsewhere. *Filaments* arranges its subjects in rough chronological order, from choices in ancient theology such as

Augustine through the likes of William of St Thierry in the medieval period and Martin Luther and Michelangelo in the early modern and finally to modern and contemporary thinkers including Bernard Lonergan Paul Tillich Simone Weil Karl Rahner Reinhold Niebuhr and Iris Murdoch Taken together these essays can be understood as a partial initiation into a history of Christian theology defined by Tracy's key virtues of plurality and ambiguity Marked by surprising insights and connections *Filaments* brings the work of one of North America's most important religious thinkers once again to the forefront to be celebrated by longtime and new readers alike

Is Nature Ever Evil? Willem B. Drees, 2003-09-02 Can nature be evil or ugly or wrong Can we apply moral value to nature From a compellingly original premise under the auspices of major thinkers including Mary Midgley Philip Hefner Arnold Benz and Keith Ward *Is Nature Ever Evil* examines the value structure of our cosmos and of the science that seeks to describe it Science says editor Willem B Drees claims to leave moral questions to aesthetic and religious theory But the supposed neutrality of the scientific view masks a host of moral assumptions How does an ethically transparent science arrive at concepts of a hostile universe or a selfish gene How do botanists zoologists cosmologists and geologists respond to the beauty of the universe they study reliant as it is upon catastrophe savagery power and extinction Then there are various ways in which science seeks to alter and improve nature What do prosthetics and gene technology cyborgs and dairy cows say about our appreciation of nature itself Surely science in common with philosophy magic and religion can aid our understanding of evil in nature whether as natural catastrophe disease predatory cruelty or mere cosmic indifference Focusing on the ethical evaluation of nature itself *Is Nature Ever Evil* re-ignites crucial questions of hope responsibility and possibility in nature

Liturgy and Secularism Joris Geldhof, 2018-09-25 Can Christian worship engage our secular culture Should it While engaging thinkers in philosophy history religious anthropology and liturgical theology liturgical theologian Joris Geldhof argues that such engagement is necessary that our liturgy and faith should embrace our modern culture He shows that liturgy itself is an immensely resourceful reality that appeals to any human being regardless of sociocultural and intellectual circumstances If properly understood the liturgy can provide a powerful dynamic that helps people overcome any binary including the unfortunate one between the left and right within the Catholic Church

Rationalization in Religions Yohanan Friedmann, Christoph Marksches, 2018-12-17 Current tendencies in religious studies and theology show a growing interest for the interchange between religions and the cultures of rationalization surrounding them The studies published in this volume based on the international conferences of both the Berlin Brandenburgische Akademie der Wissenschaften and the Israel Academy of Sciences and Humanities aim to contribute to this field of interest by dealing with concepts and influences of rationalization in Judaism Christianity Islam and religion in general In addition to taking a closer look at the immediate links in the history of tradition between those rationalizing movements and evolutions in religion emphasis is put on intellectual historical convergences Therefore the articles are led by central comparative questions such as what factors foster hinder rationalization where are criteria for rationalization drawn

from in which institutions is rationalization taking place who propagates supports and utilizes rationalization Christianity and Constitutionalism Nicholas Aroney, Ian Leigh, 2022 The first volume of its kind Christianity and Constitutionalism explores the contribution of Christianity to constitutional law and constitutionalism as viewed from the perspectives of history law and theology The authors examine a wide range of key figures including Augustine Thomas Aquinas Moses Martin Luther and Roger Williams offering innovative and thoughtful analyses of the relationship between religious thought and constitutional law Part I features contributions from historians and is focused on the historical influence of Christianity on constitutionalism recounting how the relationship between the Christian faith and fundamental ideas about law justice and government has evolved from era to era Part II offers the analyses of constitutional lawyers focusing on the normative implications of Christianity for particular themes or topics in constitutional law The chapters in this section orbit around several central doctrines and principles of this field including sovereignty the rule of law democracy the separation of powers human rights conscience and federalism evaluating them from a range of Christian perspectives Part III rounds out the study with theologians focused on particular Christian doctrines exploring their constructive and sometimes critical implications for constitutionalism As a whole Christianity and Constitutionalism breaks new ground by offering wide ranging interdisciplinary contributions to the study of the relationship between the Christian religion and constitutional law

Reading the Bible Theologically Darren Sarisky, 2019-01-17 Theological interpretation of the Bible is one of the most significant debates within theology today Yet what exactly is theological reading Darren Sarisky proposes that it requires identification of the reader via a theological anthropology an understanding of the text as a collection of signs and reading the text with a view toward engaging with what it says of transcendence Accounts of theological reading do not often give explicit focus to the place of the reader but this work seeks to redress this neglect Sarisky examines Augustine's approach to the Bible and how his theological insights into the reader and the text generate an aim for interpretation which is fulfilled by fitting reading strategies He also engages with Spinoza showing that theological exegesis contrasts not with approaches that take history seriously but with naturalistic approaches to reading **Owen Barfield** Michael V. Di Fuccia, 2016-10-27 In this book Michael Di Fuccia examines the theological import of Owen Barfield's poetic philosophy He argues that philosophies of immanence fail to account for creativity as is evident in the false shuttling between modernity's active construal and postmodernity's passive construal of subjectivity In both extremes subjectivity actually dissolves divesting one of any creative integrity Di Fuccia shows how in Barfield's scheme the creative subject appears instead to inhabit a middle or medial realm which upholds one's creative integrity It is in this way that Barfield's poetic philosophy gestures toward a theological vision of *poiesis* proper wherein creativity is envisaged as neither purely passive nor purely active but middle Creativity thus is not immanent but mediated a participation in being's primordial *poiesis*
