Power Trust And Meaning Essays In Sociological Theory And Analysis:

Power, Trust, and Meaning S. N. Eisenstadt, 1995-06-15 S N Eisenstadt is well known for his wide ranging investigations of modernization social stratification revolution comparative civilization and political development This collection of twelve major theoretical essays spans more than forty years of research to explore systematically the bases of human action and society Framed by a new introduction and an extensive epilogue which are themselves important statements about processes of institutional formations and cultural creativity the essays trace the major developments of contemporary sociological theory and analysis Examining themes of trust and solidarity among immigrants youth groups and generations and in friendships kinships and patron client relationships Eisenstadt explores larger questions of social structure and agency conflict and change and the reconstitution of the social order He looks also at political and religious systems paying particular attention to great historical empires and the major civilizations United by what they reveal about three major dimensions of social life power trust and meaning these essays offer a vision of culture as both a preserving and a transforming aspect of social life thus providing a new perspective on the relations between culture and social structure

Handbook of Sociological Theory Jonathan H. Turner, 2006-05-17 Sociology is experiencing what can only be described as hyperdifferentiation of theories there are now many approaches competing for attention in the intellectual arena From this perspective we should see a weeding out of theories to a small number but this is not likely to occur because each of the many theoretical perspectives has a resource base of adherents As a result theories in sociology do not compete head on with each other as much as they coexist This seminal reference work was brought together with an eye to capturing the diversity of theoretical activity in sociology specifically the forefront of theory Contributors describe what they themselves are doing right now rather than what others have done in the past The goal of this volume is to allow prominent theorists working in a variety of traditions who wouldn't usually come together to review their work The chapters in this volume represent a mix of theoretical orientations and strategies but these theories are diverse and represent the prominent theoretical discussions in sociology today Some areas included are Section I Theoretical Methodologies and Strategies Section II The Cultural Turn in Sociological Theorizing Section III Theorizing Interaction Processes Section IV Theorizing from the Systemic and Macrolevel Section V New Directions in Evolutionary Theorizing Section VI Theorizing on Power Conflict and Change Section VII Theorizing from Assumptions of Rationality This handbook will be of interest to those wanting a broad spectrum and overview of late 20th early 21st century sociological theory

Comparing Modernities Eliezer Ben-Rafael, Yitzhak Sternberg, 2005-06-01 The authors of this volume explore the tensions and dilemmas that impact pluralism and homogeneity in modern societies This is the first work in this field in which the frame of discussion is a comparative civilizational analysis It focuses on issues that are at the heart of the contemporary human experience and culture The contributors to this book renowned scholars from all over the world tackle these issues by referring to different

temporal and spatial settings This book is in homage to Shmuel Noah Eisenstadt We honor his ground breaking work in the comparative study of modernities and civilizations Contributors are Jeffrey C Alexander Erik Allardt Sa d Arjomand Johann P Arnason Eliezer Ben Rafael Raymond Boudon Michael Confino Ralf Dahrendorf Gerard Delanty Shmuel N Eisenstadt Han Entzinger Bernhard Giesen Rolland Goetschell Ulf Hannerz Dani le Hervieu L ger J rgen Kocka Donald N Levine Menachem Magidor Alberto Martinelli T K Oommen Shalini Randeria Luis Roniger W G Runciman Dominique Schnapper Hayim Tadmor Stanley J Tambiah Wolfgang Schluchter David Shulman Sammy Smooha Piotr Stzompka Edward A Tiryakan Alain Touraine Zvi Werblowsky and Bj rn Wittrock **Handbook of Contemporary Sociological Theory** Seth Abrutyn,2016-06-22 This Handbook provides the hidden common threads that tie sociological inquiry together and featuring eminent scholars it separates itself from its predecessors in substance and organization Rather than rehashing old debates or longingly gazing at the past this book presents sociologists with new ways of conceptualizing the organization and presentation of sociological theory At the heart of this Handbook s vision is the twin goals of making theory a viable enterprise by reconceptualizing how we teach theory and keeping theory closely tied to its empirical applications Three strategies are offered 1 Elucidating how classic issues like integration or interaction are interrogated today 2 Presenting a coherent vision of the social levels of reality that theorists work on such as communities groups and the self as well as how the coherence of these levels speaks to the macro micro link and 3 Theorizing the social world rather than celebrating theorists or theories that is one can look at how theory is used holistically to understand the constraints the social world places on our lived experience or the dynamics of social change Hence in the second decade of the 21st century it has become clear that sociology is at a crossroads as the number of theorists and amount of theory available is increasingly unmanageable and unknowable by the vast majority of professionals and students As such this Handbook of Contemporary Sociological Theory presents the novice and the expert with the a roadmap for traversing this crossroad and building a more coherent robust and cumulative sociology Social Theory Hans Joas,Wolfgang Knöbl,2009-07-09 Social theory is the theoretical core of the social sciences clearly distinguishable from political theory and cultural analysis This book offers a unique overview of the development of social theory from the end of the Second World War in 1945 to the present day Spanning the literature in English French and German it provides an excellent background to the most important social theorists and theories in contemporary sociological thought with crisp summaries of the main books arguments and controversies It also deals with newly emerging schools from rational choice to symbolic interactionism with new ambitious approaches Habermas Luhmann Giddens Bourdieu structuralism and antistructuralism critical revisions of modernization theory feminism and neopragmatism Written by two of the world s leading sociologists and based on their extensive academic teaching this unrivalled work is ideal both for students in the social sciences and humanities and for anyone interested in contemporary theoretical debates The Axial Age and Its Consequences Robert N. Bellah,Hans Joas,2012-10-31 This book makes the bold claim that intellectual

sophistication was born worldwide during the middle centuries of the first millennium bce From Axial Age thinkers we inherited a sense of the world as a place not just to experience but to investigate envision and alter A variety of utopian visions emerged and led to both reform and repression

Problematics of Sociology Neil J. Smelser, 2023-12-22 These skillfully written essays are based on the Georg Simmel Lectures delivered by Neil J Smelser at Humboldt University in Berlin in the spring of 1995 A distillation of Smelser s reflections after nearly four decades of research teaching and thought in the field of sociology the essays identify as he says in the first chapter some central problematics those generic recurrent never resolved and never completely resolvable issues that shape the work of the sociologist Each chapter considers a different level of sociological analysis micro the person and personal interaction meso groups organizations movements macro societies and global multi societal Within this framework Smelser covers a variety of topics including the place of the rational and the nonrational in social action and in social science theory the changing character of group attachments in post industrial society the eclipse of social class and the decline of the nation state as a focus of solidarity The clarity of Smelser s writing makes this a book that will be welcomed throughout the field of social science as well as by anyone wishing to understand sociology s essential characteristics and problems These skillfully written essays are based on the Georg Simmel Lectures delivered by Neil J Smelser at Humboldt University in Berlin in the spring of 1995 A distillation of Smelser s reflections after nearly four decades of research teaching and thought

Ethnic Politics and Democratic Transition in Rwanda David E. Kiwuka, 2012 This book offers an examination of how a deeply divided post conflict society embarks on democratic transition Using Rwanda as the case study it combines analysis of democratic transition and ethno-political debate asking why deeply divided ethnic societies have a tendency to fail Though marginalised in existing literature on democratic transition this path breaking book shows how ethnicity has a significant impact on the direction and success of democratic process The initial failure of democratic transition in Rwanda shows that the current regime will need to be sensitive to ethnicity ethno-political consciousness and mobility in order to be successful in its second transition attempt Based on key informant interviews participant observation and primary resources this book develops beyond the case study of Rwanda to posit a new framework that integrates variables of unity equality trust and institutional engineering in an integrative model to study and evaluate democratic transition in divided or post conflict society *Ethnic Politics and Democratic Transition in Rwanda* will be of interest to students and scholars of democratization democracy and ethnic politics and conflict

Deciphering Southern Thailand's Violence Sascha Helbardt, 2016-04-29 Scholars have given questions about the perpetrators of nameless violence in Southern Thailand little consideration leaving the motives that drive Barisan Revolusi Nasional BRN heavily cloaked in secrecy and speculation This book offers a rare glimpse behind the veil that shrouds BRN Coordinate Using exclusive access to and detailed interviews with BRN Coordinate members this book analyses the communicative dimension of the insurgency It depicts the hidden channels and organized violence that drive the regions

enduring rebellion as well as BRN's dichotomous existence between silence and communication

Religious Literacy, Law and History Alberto Melloni, Francesca Cadeddu, 2018-12-07 The book profiles some of the macro and micro factors that have impact on European religious literacy. It seeks to understand religious illiteracy and its effects on the social and political milieu through the framing of the historical institutional religious social juridical and educational conditions within which it arises. Divided into four parts: in the first one, 'One literacy more literacies', the book defines the basic concepts underpinning the question of religious illiteracy in Europe. Part II, 'Understanding illiteracies', debating disciplines highlights the theological, philosophical, historical and political roots of the phenomenon, looking at the main nodes that are both the reasons religious illiteracy is widespread and the starting points for literacy strategies. Part III, 'Building literacy', shaping alphabets examines the mix of knowledge and competences acquired about religion and from religion at school as well as through the media with a critical perspective on what could be done both in the schools and for the improvement of journalists' religious literacy. Part IV, 'Views and experiences', presents the reader with the opportunity to learn from three different case studies: religious literacy in the media, religious illiteracy and European Islam, and a Jewish approach to religious literacy. Building on existing literature, the volume takes a scientific approach which is enriched by interdisciplinary and transnational perspectives and deep entrenchment in historical methodology.

Reflections on Multiple Modernities Dominic Sachsenmaier, Jens Riedel, Shmuel N. Eisenstadt, 2002-10-01 This volume explores a rapidly emerging paradigm in the social sciences which assumes culturally specific forms of modernity. Modernization is thus no longer equated with homogenization. Leading scholars from history, sociology, area studies and economics discuss the concept's implications. The first part covers a range of theoretical questions arising from the new approach. Issues such as the common features of all modernities and their interrelation with regional particularities, the reasons for antinomies of modernity and the preconditions for a peaceful coexistence of cultures are raised. The second and third parts deal with Europe and China as two specific encounters with modernity, the tensions between universalism and cultural identities both in past and present. The fourth part analyzes how Multiple Modernities translates into formal and informal institutions of diverse capitalisms. Authors include well-known specialists: Mark Juergensmeyer, Hartmut Kaelble, Bruce Mazlish and Frederic Wakeman.

Breaking Boundaries Agnes Horvath, Bjørn Thomassen, Harald Wydra, 2015-05-01 Liminality has the potential to be a leading paradigm for understanding transformation in a globalizing world. As a fundamental human experience, liminality transmits cultural practices, codes, rituals and meanings in situations that fall between defined structures and have uncertain outcomes. Based on case studies of some of the most important crises in history, society and politics, this volume explores the methodological range and applicability of the concept to a variety of concrete social and political problems.

Identity, Culture and Globalization Yitzhak Sternberg, 2021-10-01 This book is about contemporary sociological analysis: its discussions, contradictions and controversies. Authors from various backgrounds discuss developments on all continents. The 34

contributions are centered on six themes The first is multiple modernities showing us that there is no single road to the modernization of societies The second theme is globalization with new concepts like spatialization world languages and new social movements In part three multiculturalism and diaspora movements are viewed as the pivotal factors for change in many societies The fourth theme is the decline of the accountability of the state concentrating on the shortcomings of traditional states and the emergence of new resources In part five the concept of postmodernity is discussed from the angles of identity social reality detachment and legacy Finally the sixth part Toward a New Agenda looks into the future and lets sociology or rather social knowledge play a major part in today s society This volume is a rich collection of practical examples and solid arguments by some of the best sociologists in the world Also available in paperback ISBN 9789004128736

Creative Social Research Ananta Kumar Giri,2004-01-01 Calling for a reconceptualization and transformation of contemporary research methods in the social sciences Giri Madras Institute of Development Studies collects work by international scholars from a variety of disciplines and geographies to establish the ways in which contemporary global developments and the traditions of non Western societies **Critical Citizens** Pippa Norris,1999 Critical Citizens is a study on attitudes towards nation governance political institutions and political leadership The contributors argue that the crisis in global democracy has been greatly exaggerated in recent years Torah Centers and Rabbinic Activity in Palestine, 70-400 CE Ben Tsiyon Rozenfeld,2010 This book contains pioneering research on aspects of society culture and geography of rabbinic Torah centers in Palestine 70 400 CE It surveys the history of the centers in their geographic and social context in chronological order **A Sociology: The Dynamics of Collectivities** Kris Merschrod,2008 A Sociology is a combination of sociological theory and examples of its application to social development and change projects from around the world based on the author s experiences over the last thirty years The theory of social structure is based on four dimensions and corresponding theorems on the dynamics between those dimensions The four dimensions are intuitively grasped Division of Labor Solidarity Pluralism and Linkage and can be applied to all levels of collectivities from groups to organizations to communities states regions countries and sectors of societies The book is written for the medium to advanced theory course and for development practitioners with a few years experience *The Dialogical Turn* Charles Camic,Hans Joas,2003-12-09 The discipline of sociology was born and has been recurrently reconstituted in response to the fragmentation of ideas about the social world For two centuries sociologists have sought refuge in synthesis programs designed to integrate multiple perspectives within a unifying framework Yet even as this cause has inspired many of the discipline s major thinkers past and present its objective has proven elusive leaving nearly as many syntheses as synthesizers This volume considers an alternative response that has recently developed within sociology to the crisis of intellectual fragmentation the dialogical turn Rather than decry the multiplicity of social theories research methods and results this response welcomes a plurality of orientations and approaches as the essential basis for establishing and maintaining productive dialogue Examining this

exciting development The Dialogical Turn builds on the ideas of Donald N Levine whose extensive writings on the forms and functions of intellectual dialogue provide the point of departure for twelve original essays Written by an internationally renowned group of scholars these innovative chapters explore the dialogical possibilities for sociology both constructively and critically The contributors assess the role of sociology in the conversation across contemporary academic disciplines exploring the fundamental structural and conceptual reconstructions now taking place in sociology and neighboring fields

War, Violence and Social Justice Masoud Kamali,2016-03-09 This book analyses the role of war and violence in both its physical and symbolic forms for social work in a time of neoliberal globalisation from a social justice perspective It argues that the consequences of wars in both their old and new forms and the exercise of symbolic violence for the practices of social work at national and global levels have been ignored This work explores the relationship between recent neoliberal and global transformations and their consequences for intensifying new wars and conflicts in non Western countries on the one hand and the increasing symbolic violence against marginalised people with immigrant and non Western background in many Western countries on the other The analytical approach of the book based on the theories of multiple modernities and symbolic violence is unique since no other work has applied such theoretical perspectives for analysing inequalities in relation to the condition of lives of non Western people living in Western and non Western countries This is a necessary contribution for social work education and research since the discipline needs new theoretical perspectives to be able to meet the new challenges raised by recent global transformations and neoliberal globalisation

Ghost Brothers Rony Blum,2005-05-12 Devastating losses caused by diseases such as smallpox led to an epidemic of bereavement among the Natives This loss resonated with the French who had dealt with smaller epidemics in France and were also mourning their absent communities through a nostalgia for home Blum traces how ghosts provided transgenerational and transcultural links that guided understanding rather than encouraging violence Ghost Brothers insightfully examines the process of this colonial interdependent alliance between Native and European worlds
