Reading Into Cultural Studies:

Reading Into Cultural Studies Martin Barker, Anne Beezer, 2003-09-02 *Reading Into Cultural Studies* revisits a selection of key texts central to the formation of cultural studies as a discipline and as a project. These texts address questions of power, ideology and the possibilities and limits of resistance. Each of the eleven essays in the collection renews an early study in one area of cultural investigation, bringing such seminal texts as *Subculture* by Dick Hebdige, *Loving With a Vengeance* by Tania Modleski and *Bond and Beyond* by Tony Bennett back to the centre of attention. However, the essays are not purely celebratory. Each study is critically examined in a number of ways for its research strategy, its implicit theories of power and ideology, for the empirical evidence it draws on and its conceptual framework. Together, the essays provide an introduction to some of the central debates and issues in cultural studies.

Reading Into Cultural Studies, Literary into Cultural Studies Antony Easthope, 2003-09-02 Modern Literary study was founded on an opposition between the canon and its other, popular culture. The theory wars of the 1970s and the 1980s, and in particular the advent of structuralist and post-structuralist theory, transformed this relationship. With the death of literature, the distinction between high and popular culture was no longer tenable, and the field of inquiry shifted from literary into cultural studies. Anthony Easthope argues that this new discipline must find a methodological consensus for its analysis of canonical and popular texts. Through a detailed criticism of competing theories, British cultural studies, New Historicism, cultural materialism, he shows how this new study should and should not be done. Easthope's exploration of the problems, possibilities and politics of this new discipline includes an original reassessment of the question of literary value. By contrasting Conrad's *Heart of Darkness* with Burroughs's *Tarzan of the Apes*, Easthope demonstrates how textuality sustains the opposition between high and popular culture.

Cultural Studies Michael Ryan, 2008-05-19 **CULTURAL STUDIES** This comprehensive anthology brings together classic and contemporary essays in the diverse field of Cultural Studies. This important new anthology provides an overview of the history of the discipline and argues for better placement of Cultural Studies within the academy. Offers a range of important perspectives on key topics including policy, gender, sexuality, ethnicity, identity, visual culture and diaspora. Has an advisory board composed of leading scholars and an internationally renowned general editor. *Cultural Studies: An Anthology* is an indispensable scholarly and pedagogical tool which fills a longstanding gap in the literature of the field. Doing Research in Cultural Studies Paula Saukko, 2003-10-15 This book is a goldmine for students; it is brilliantly conceptualized and brilliantly executed. With this book, cultural studies finally comes of age methodologically. Professor Norman K. Denzin, Institute of Communications Research, University of Illinois.

Cultural Studies outlines the key methodological approaches to the study of lived experience texts and social contexts within the field of cultural studies. It offers a comprehensive discussion of classical methodologies and introduces the reader to more contemporary debates that have argued for new ethnographic poststructuralist and multi-scape research methods. Through a detailed yet concise explanation, the reader is shown how these methodologies work and how their outcomes may be interpreted. Key features of the book include an innovative framework combining different methodologies and approaches, a variety of real-life examples and case studies, a set of practical exercises in each chapter, pedagogical and student-focused throughout. The book has a flowing narrative and student-friendly structure which make it accessible to and popular with students, while the discussion of fresh approaches makes it also of interest to experienced researchers. It contains all the ingredients necessary to help the reader attain a solid grasp of analytical and practical challenges to doing effective research in cultural studies today.

Questions of Method in Cultural Studies Mimi

White, James Schwoch, 2008-04-15. *Question of Method in Cultural Studies* brings together a group of scholars from across the social sciences and humanities to consider one of the most vexing issues confronting the proverbial anti-discipline of cultural studies. Covers such topics as the media, feminism and politics. Identifies what methods have prevailed in the interdisciplinary pursuit of cultural studies. Examines the relationship between cultural studies and traditional disciplines, the politics of knowledge and spatial and temporal models. Probes the possibility of method in explicit terms for scholars and students in media, communications, sociology and allied fields.
