Handbook of Behavior Modification with the Mentally Retarded Johnny L. Matson, 2013-11-22 The development of
behavior modification principles and procedures and the ensuing research have had a dramatic impact on services for
mentally retarded persons This book is the second edition of a volume that is designed to update readers on some of these
many developments Although many of the chapter titles and authors from the first edition remain unchanged we have added
additional chapters to reflect new areas of research The book is thus a critical review of this literature and as such provides
essential and important notions about what we know and what can be done to expand our current knowledge The authors of
the chapters are all recognized experts who have been active in publishing in the research areas they critique As a result
they have a good understanding of what are the major issues in the field And because they are also active in service provision
to persons with identified handicaps their material will be especially useful to practitioners and it is hoped to those
professionals who are working in the field in establishing data based treatments One important change in the field has
concerned the terminology used to We are aware that persons with mental retardation describe handicapped persons are no
longer referred to as the mentally retarded and although no disrespect is intended for the sake of continuity the original title
has been retained on the advice of the publisher **Reading Mastery IV** Siegfried Engelmann, Susan Hanner, 1983

Research on Educational Innovations Arthur K. Ellis, 2014-01-09 The fourth edition of this highly praised book includes
coverage of evidence based education and No Child Left Behind Like the previous editions it offers authoritative and
balanced overviews to help you make distinctions between innovative programs backed up by sound research support and
faddish ideas which lack a research base Report of the National Reading Panel : Teaching Children to Read : an
