The Reading Team Lesley Mandel Morrow, Barbara J. Walker, 1997 Activities and resources for volunteers in the America Reads program The Reading Tutor's Handbook Jeanne Shay Schumm, Gerald E. Schumm, 1999 Strategies for reading tutors choosing a program partnering with teachers meeting student s needs evaluate tutoring experience improve the sessions Resources in Education , 2001 **So that Every Child Can Read--** Jana Potter, Judy Blankenship, Laura Carlsmith, 1999 **Hanging Out** Ruth Garner, 2002-03-30 There is an unsettledness now in after school childcare The stay at home mom years are largely over Will children even very young children stay home alone or hang out with peers risking loneliness or engaging in problem behavior Will some new form of supervised care emerge The authors in this collection have spent time in community after school programs and have learned what happens there The authors suggest that after school programs can be an important part of a system of childcare as long as we can find ways to build programs for small and scattered populations as well as for densely packed ones and as long as the money to fund programs can be found The money is important Many of the programs discussed in this book are specifically targeted to children from families with low incomes These are the families least likely to be able to pay for care A reader leaves this book with both anxiety and hope about the future of childcare in the United States Reading Helpers , 1999 **Diagnostic Teaching of Reading** Barbara J. Walker, 2000 This book provides a tool for teachers to understand various instructional frameworks underlying diagnostic teaching techniques Adds a chapter Selecting Instructional Materials Le tutorat : une solution pour les élèves à risque ? Alain Baudrit, 2010-01-29 Est ce qu'une population scolaire spécifique comme les élèves à risque est l'origine de changements dans les pratiques tutorales organisées à l'école Telle est la question principale posée en introduction de cet ouvrage Pour essayer d'y répondre des études ou recherches principalement anglo saxonnes sont examinées dans les domaines de la lecture et des mathématiques au cours des enseignements élémentaire et secondaire Les interventions de différents types de tuteurs sont elles aussi analysées Il peut s'agir de professionnels de l'éducation de paraprofessionnels d'adultes volontaires ou encore d'anciens élèves ou de collègues D'une discipline à l'autre des différences sont constatées en termes d'impact sur les apprentissages des élèves à risque Mais des points communs existent aussi notamment au niveau de l'effet tuteur et d'une trilogie supervision formation coordination peu vécue lorsque il est question d'organiser du tutorat avec des élèves ordinaires Une nouvelle donne semble donc se profiler en matière de méthodes tutorales Elle pourrait d'ailleurs revivifier des pratiques plus anciennes qu'il s'agit évidemment d'adapter au monde actuel de l'éducation Des perspectives même d'intéresser les enseignants d'aujourd'hui ou futurs tuteurs qui vivent au quotidien auprès de publics scolaires dont la relation à l'institution scolaire peut être plus ou moins problématique Handbook of Reading Disability Research Anne McGill-Franzen, Richard Allington, 2010-09-17 Bringing together a wide range of research on reading disabilities this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective Emphasizing that learning to read proficiently is a long

term developmental process involving many interventions of various kinds all keyed to individual developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers
