Sculle, 2006-08-22 Signs orient, inform, persuade and regulate. They help give meaning to our natural and human built environment, to landscape and place. In *Signs in America's Auto Age*, cultural geographer John Jakle and historian Keith Sculle explore the ways in which we take meaning from outdoor signs and assign meaning to our surroundings, the ways we read landscape. With an emphasis on how the use of signs changed as the nation's geography reorganized around the coming of the automobile, Jakle and Sculle consider the vast array of signs that have evolved since the beginning of the twentieth century.

The Culture of Nature Alexander Wilson, 1991 In this celebrated work, Alexander Wilson examines environments built over the past fifty years as humans have continued to discover, exploit, protect, restore, and sometimes re-enchant a natural world in convulsion. Extensively illustrated.

The Language of Landscape Anne Whiston Spirn, 1998-01-01 This eloquent and powerful book combines poetry and pragmatism to teach the language of landscape. Anne Whiston Spirn, author of the award-winning *The Granite Garden: Urban Nature and Human Design*, argues that the language of landscape exists with its own syntax, grammar, and metaphors, and that we imperil ourselves by failing to learn to read and speak this language. To understand the meanings of landscape, our habitat is to see the world differently and to enable ourselves to avoid profound aesthetic and environmental mistakes. Offering examples that range across thousands of years and five continents, Spirn examines urban, rural, and natural landscapes. She discusses the thought of renowned landscape authors Thomas Jefferson, Frank Lloyd Wright, Frederick Law Olmsted, Lawrence Halprin, and of less well-known pioneers including Australian architect Glenn Murcutt and Danish landscape artist C. Th. Sørensen. She discusses instances of great landscape designers using landscape fluently, masterfully, and sometimes cynically. And in a probing analysis of the many meanings of landscape, Spirn shows how one person's ideal landscape may be another's nightmare: how Utopian landscapes can be dark. There is danger when we lose the connection between a place and our understanding of it. Spirn warns, and she calls for change in the way we shape our environment based on the notions of nature as a set of ideas and landscape as the expression of action and ideas in place.

The Oxford Handbook of the Bible in America Paul C. Gutjahr, 2017 Early Americans have long been considered "A People of the Book." Because the nickname was coined primarily to invoke close associations between Americans and the Bible, it is easy to overlook the central fact that it was a book, not a geographic location, a monarch, or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture. Few books can lay claim to such powers of civilization-altering influence. Among those which can are sacred books, and for Americans, principal among such books stands the Bible. This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions. It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power

as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation's politics and foreign policy This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible's role in American cultural formation *Literacy in America* Barbara J. Guzzetti, 2002-12-02 The definitive encyclopedic resource on literacy literacy instruction and literacy assessment in the United States Once upon a time the three Rs sufficed Not any more not for students not for Americans Gone the way of the little red school house is simple reading and writing instruction Surveying an increasingly complex discipline Literacy in America An Encyclopedia offers a comprehensive overview of all the latest trends in literacy education conceptual understanding of texts familiarity with electronic content and the ability to create meaning from visual imagery and media messages Educators and academicians call these skills multiple literacies shorthand for the kind of literacy skills and abilities needed in an age of information overload media hype and Internet connectedness With its 400 A-Z entries researched by experts and written in accessible prose Literacy in America is the only reference tool students teachers and parents will need to understand what it means to be and become literate in 21st century America *Rhetorical Landscapes in America* Gregory Clark, 2004 At the same time a reading of Kenneth Burke and of tourist landscapes in America Gregory Clark explores the rhetorical power connected with American tourism Looking specifically at a time when citizens of the United States first took to rail and then highway to become sightseers in their own country Clark explores how the symbolic experiences have helped residents of a vast and diverse nation adopt a national identity *Picturesque Literature and the Transformation of the American Landscape, 1835-1874* John Evelev, 2021 This work challenges dominant narratives of the concerns of nineteenth century literature to show how supposedly minor works of picturesque helped transform the American landscape and create what we now recognize as the defining spaces of American life **Natura, architettura, diversità. Atti del Convegno** Donatella Mazzoleni, 1998 *Race, Ethnicity, and Place in a Changing America, Third Edition* John W. Frazier, Eugene L. Tettey-Fio, Norah F. Henry, 2017-01-12 This book examines major Hispanic African and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes Through both historical and contemporary case studies the contributors examine how race and ethnicity affect the places we live work and visit illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups While primarily addressed to students and scholars in the fields of racial and ethnic geography these case studies will be accessible to anyone interested in race place connections race ethnicity boundaries the development of racialization and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico Taken together they show how individuals and culture groups through their ideologies

social organization and social institutions reflect both local and regional processes of place making and place remaking that occur within and beyond the continental United States North America Thomas F. McIlwraith, Edward K. Muller, 2001 This classic text retains the superb scholarship of the first edition in a thoroughly revised and accessibly written new edition With both new and updated essays by distinguished American and Canadian authors the book provides a comprehensive historical overview of the formation and growth of North American regions from European exploration and colonization to the second half of the twentieth century Collectively the contributors explore the key themes of acquisition of geographical knowledge cultural transfer and acculturation frontier expansion spatial organization of society resource exploitation regional and national integration and landscape change With six new chapters redrawn maps a new introduction that explores scholarly trends in historical geography since publication of the first edition and a new final chapter guiding students to the basic sources for historical geographic enquiry North America will be an indispensable text in historical geography courses
