## **Reading The Literature Experience:**

*Plotting the Reading Experience* Paulette M. Rothbauer, Kjell Ivar Skjerdingsstad, Lynne (E.F.) McKechnie, Knut Oterholm, 2016-06-30 This book is about the experience of reading what reading feels like how it makes people feel how people read and under what conditions what drives people to read and conversely what halts the individual in the pursuit of the pleasures of reading The authors consider reading in all of its richness as they explore readers relationships with diverse textual and digital forms This edited volume is divided into three sections Theory Practice and Politics The first provides insights into ways of seeing thinking and conceptualizing the experience of reading The second features a variety of individual and social practices of reading The third explores the political and ethical aspects of the reading experience raising questions about the role that reading plays in democracy and civic participation With contributions from multidisciplinary scholars from around the world this book provides provocative insights into what it means to be a reader reading in and across various social cultural and political contexts Its unifying theme of the reader s experience of reading is put into dialogue with theories practices and politics making this a rewarding read for graduate students faculty researchers and librarians working across a range of academic fields

**A Psychoanalytic Perspective on Reading Literature** Merav Roth, 2019-08-14 What are the unconscious processes involved in reading literature How does literature influence our psychological development and existential challenges A Psychoanalytic Perspective on Reading Literature offers a unique glimpse into the unconscious psychic processes and development involved in reading The author listens to the free associations of various literary characters in numerous scenarios where the characters are themselves reading literature thus revealing the mysterious ways in which reading literature helps us and contributes to our development The book offers an introduction both to classic literature Poe Proust Sartre Sempr n Pessoa Agnon and more and to the major psychoanalytic concepts that can be used in reading it all described and widely explained before being used as tools for interpreting the literary illustrations The book thus offers a rich lexical psychoanalytic source alongside its main aim in analysing the reader s psychological mechanisms and development Psychoanalytic interpretation of those literary readers opens three main avenues to the reader s experience the transference relations toward the literary characters the literary work as means to transcend beyond the reader s self identity and existential boundaries and mobilization of internal dialectic tensions towards new integration and psychic equilibrium An Epilogue concludes by emphasising the transformational power embedded in reading literature The fascinating dialogue between literature and psychoanalysis illuminates hitherto concealed aspects of each discipline and contributes to new insights in both fields A Psychoanalytic Perspective on Reading Literature will be of great interest not only to psychoanalytic psychotherapists and literature scholars but also to a wider readership beyond these areas of study

Literatures of the World and the Future of Comparative Literature ,2023-08-14 The 2019 congress of the International Comparative Literature Association attracted many hundreds of scholars from all around the world to Macau

This volume contains a modest selection of papers to discuss the four hottest fields of the discipline the future of comparison the position of national and diaspora literature in the context of globalization the importance of translation and the concepts of world literature The contributions cover huge geographical and cultural areas but pay special attention to the connections between Western both American and European and Asian especially Indian and East Asian literatures The literatures of the world might be different but they are also connected

**Reading Home Cultures Through Books** Kirsti

Salmi-Niklander, Marija Dalbello, 2022-02-27 This wide ranging comparative and multidisciplinary collection addresses the significance of books in creating the idea of home The chapters present cases that reveal the affective and sensory dimensions of books and reading in the practice of everyday life of individuals in communities and in society The complex relationship of books reading and home is explored through American and European case studies both in bourgeois and middle class homes and in working class and immigrant families and communities with limited possibilities for reading The volume combines the conceptions and representations of domesticity the materiality of reading and library as a place drawing on book history and material culture studies as well as anthropology and sociology of the home

Why Reading Books Still Matters Martha C. Pennington, Robert P. Waxler, 2017-08-29 Bringing together strands of public discourse about valuing personal achievement at the expense of social values and the impacts of global capitalism mass media and digital culture on the lives of children this book challenges the potential of science and business to solve the world's problems without a complementary emphasis on social values The selection of literary works discussed illustrates the power of literature and human arts to instill such values and foster change The book offers a valuable foundation for the field of literacy education by providing knowledge about the importance of language and literature that educators can use in their own teaching and advocacy work

*The Aesthetic Illusion in Literature and the Arts* Tomáš Koblížek, 2017-09-21 The notion of aesthetic illusion relates to a number of art forms and media Defined as a pleasurable mental state that emerges during the reception of texts and artefacts it amounts to the reader's or viewer's sense of having entered the represented world while at the same time keeping a distance from it Aesthetic Illusion in Literature and the Arts is an in depth study of the main questions surrounding this experience of art as reality Beginning with an introduction providing historical background to modern discussions of illusion it deals with a wide range of theoretical issues The collection explores the nature and function of the aesthetic illusion as well as the role of affect and emotion the implications of aesthetic illusion for the theory of fiction the variable forms of aesthetic illusion and its relationship to other components of aesthetic response Aesthetic Illusion in Literature and the Arts brings together a team of scholars from philosophy literature and art and presents an

interdisciplinary examination of a concept lying at the heart of contemporary aesthetics

**Reading Our Lives** William L. Randall, Elizabeth McKim, 2008-06-03 Against the background of Socrates' insight that the unexamined life is not worth living Reading Our Lives The Poetics of Growing Old investigates the often overlooked inside dimensions of aging Despite popular

portrayals of mid and later life as entailing inevitable decline this book looks at aging as potentially a process of poesis a creative endeavor of fashioning meaning from the ever accumulating texts memories and reflections that constitute our inner worlds At its center is the conviction that although we are constantly reading our lives to some degree anyway doing so in a mindful manner is critical to our development in the second half of life Drawing on research in numerous disciplines affected by the so called narrative turn including cognitive psychology neuroscience and the psychology of aging authors Randall and McKim articulate a vision of aging that promises to accommodate such time honored concepts as wisdom and spirituality one that understands aging as a matter not merely of getting old but of consciously growing old *The Value of Literature* Rafe McGregor,2016-08-22 In *The Value of Literature* Rafe McGregor employs a unique approach the combination of philosophical work on value theory and critical work on the relationship between form and content to present a new argument for and defence of literary humanism He argues that literature has value for art for culture and for humanity in short that it matters Unlike most contemporary defenders of literary value the author s strategy does not involve arguing that literature is good as a means to one of the various ends that matter to human beings It is not that literature necessarily makes us cleverer more sensitive more virtuous more creative or just generally better people Nor is it true that there is a necessary relation between literature and edification clarification cultural critique catharsis or therapy Rather than offer an argument that forges a tenuous link between literature and truth or literature and virtue or literature and the sacred this book analyses the non derivative sui generic value characteristic of literature and demonstrates why that matters as an end in itself **Literature in Language Education** Geoff Hall,2015-07-06 A state of the art critical review of research into literature in language education of interest to teachers of English and modern foreign languages Includes prompts and principles for those who wish to improve their own practice or to engage in projects or research in this area *The Digital Reading Condition* Maria Engberg,Iben Have,Birgitte Stougaard Pedersen,2022-12-30 This volume offers a critical overview of digital reading practices and scholarly efforts to analyze and understand reading in the mediatized landscape Building on research about digital reading born digital literature and digital audiobooks *The Digital Reading Condition* explores reading as part of a broader cultural shift encompassing many forms of media and genres Bringing together research from media and literary studies digital humanities scholarship on reading and learning as well as sensory studies and research on multimodal and multisensory media reception the authors address and challenge print biased conceptions of reading that are still prevalent in research whether the reading medium is print or digital They argue that the act of reading itself is changing and rather than rejecting digital media as unsuitable for sustained or focused reading practices they argue that the complex media landscape challenges us to rethink how to define reading as a mediated practice Presenting a truly interdisciplinary perspective on digital reading practices this volume will appeal to scholars and graduate students in communication media studies new media and technology literature digital humanities literacy studies composition and rhetoric *PISA 2009*

*Assessment Framework Key Competencies in Reading, Mathematics and Science* OECD, 2010-01-19 This book presents the theory behind the development of the 2009 PISA survey

**A Case for Teaching Literature in the Secondary School** Janet Alsup, 2015-04-17 Taking a close look at the forces that affect English education in schools at the ways literature cognitive science the privileging of the STEM disciplines and current educational policies are connected this timely book counters with a strong argument for the importance of continuing to teach literature in middle and secondary classrooms The case is made through critical examination of the ongoing culture wars between the humanities and the sciences recent research in cognitive literary studies demonstrating the power of narrative reading and an analysis of educational trends that have marginalized literature teaching in the U S including standards based and scripted curricula The book is distinctive in presenting both a synthesis of arguments for literary study in the middle and high school and sample lesson plans from practicing teachers exemplifying how literature can positively influence adolescents intellectual emotional and social selves

**Focus on Reading** Walch, Walch Publishing, 2002

**Why Literature?** Cristina Vischer Bruns, 2011-05-05 Cristina Vischer Bruns offers a defense of the value of literature and suggests ways in which the problematic relationship between personal and academic reading may be overcome

Benjamin, Adorno, and the Experience of Literature Corey McCall, Nathan Ross, 2018-06-27 This collection features original essays that examine Walter Benjamin's and Theodor Adorno's essays and correspondence on literature Taken together the essays present the view that these two monumental figures of 20th century philosophy were not simply philosophers who wrote about literature but that they developed their philosophies in and through their encounters with literature Benjamin Adorno and the Experience of Literature is divided into three thematic sections The first section contains essays that directly demonstrate the ways in which literature enriched the thinking of Benjamin and Adorno It explores themes that are recognized to be central to their thinking mimesis the critique of historical progress and the loss and recovery of experience through their readings of literary authors such as Baudelaire Beckett and Proust The second section continues the trajectory of the first by bringing together four essays on Benjamin's and Adorno's reading of Kafka whose work helped them develop a distinctive critique of and response to capitalism The third and final section focuses more intently on the question of what it means to gain authentically critical insight into a literary work The essays examine Benjamin's response to specific figures including Georg Buchner Robert Walser and Julien Green whose work he sees as neglected undigested or misunderstood This book offers a unique examination of two pivotal 20th century philosophers through the lens of their shared experiences with literature It will appeal to a wide range of scholars across philosophy literature and German studies

**Why Reading Literature in School Still Matters** Dennis J. Sumara, 2002-05-01 Why Reading Literature in School Still Matters Imagination Interpretation Insight explains how a reader's involvement with literary texts can create conditions for developing deep insight into human experience and how

teachers can develop these interpretive possibilities in school contexts Developed from the author's many years of research this book offers both a theoretical framework that draws from an interdisciplinary array of sources and many compelling and insightful examples of literary engagement of child adolescent and adult readers as well as practical advice for teachers and other readers about how to create interesting and expansive sites for interpretation that are personally rewarding and productive Why Reading Literature in School Still Matters Imagination Interpretation Insight provides an overview of theories of human learning that influence beliefs about language culture and identity shows how these theories of learning influence beliefs about and practices of reading and interpretation introduces new ways to conceptualize reading that emphasize the relationship between individual and collective identities and language literacy practices explains why access to information does not guarantee that understanding and or insight will occur by emphasizing the importance of re reading and close reading this text shows that development of deep insight depends on interpretation skills that must be taught and presents a reconceptualized view of reading pedagogy This is an essential text for education courses at both the undergraduate and graduate levels and a must read for teachers and for anyone interested in more deeply understanding how literary works of art can create conditions for learning about oneself one's situation and one's possibilities

**The Work of World Literature** Francesco Giusti, Benjamin Lewis Robinson, 2021-04-27 The contentious discourse around world literature tends to stress the world in the phrase This volume in contrast asks what it means to approach world literature by inflecting the question of the literary Debates for against and around world literature have brought renewed attention to the worldly aspects of the literary enterprise Literature is studied with regard to its sociopolitical and cultural references contexts and conditions of production circulation distribution and translation But what becomes of the literary when one speaks of world literature Responding to Derek Attridge's theory of how literature works the contributions in this volume explore in diverse ways and with attention to a variety of literary practices what it might mean to speak of the work of world literature The volume shows how attention to literariness complicates the ethical and political conundrums at the centre of debates about world literature
