Competency-Based Teacher Education for English as a Foreign Language Amber Yayin Wang,2021-11-25 Providing a series of chapters written by teacher educators in three continents this edited volume explores the concepts challenges possibilities and implementations of competency based instruction for developing English competencies in English as a foreign language EFL contexts Recent trends in education have emphasized the need to develop competencies that connect learning with real life performances This need has brought about a massive increase in the number of studies and scholarly works devoted to research into competency based education However for teachers and learners of EFL it is challenging to develop competencies for using a language that does not seem to connect with their real life scenarios The chapters apply the concept of competency based instruction in different EFL contexts and are structured around three themes Theory current thoughts on theories of competency based education Research empirical research on competency based teacher education Practice integrating competency based instruction into teacher education This book offers examples of competency based EFL teacher education through both research and practical applications In addition to the innovation in competency approaches the inclusion of language learning in virtual environments offers a valuable resource for scholars educators researchers and all those concerned with current and future education

Leading the Way Mary K. Trigg,2010 *Leading the Way* is a collection of personal essays written by twenty one young hopeful American women who describe their work activism leadership and efforts to change the world It responds to critical portrayals of this generation of twenty somethings as being disengaged and apathetic about politics social problems and civic causes Bringing together graduates of a women s leadership certificate program at Rutgers University s Institute for Women s Leadership these essays provide a contrasting picture to assumptions about the current death of feminism the rise of selfishness and individualism and the disaffected Millennium Generation Reflecting on a critical juncture in their lives the years during college and the beginning of careers or graduate studies the contributors voices demonstrate the ways that diverse young educated women in the United States are embodying and formulating new models of leadership at the same time as they are finding their own professional paths ways of being and places in the world They reflect on controversial

issues such as gay marriage gender racial profiling war immigration poverty urban education and health care reform in a post 9 11 era *Leading the Way* introduces readers to young women who are being prepared and empowered to assume leadership roles with men in all public arenas and to accept equal responsibility for making positive social change in the twenty first century

Falling for Science Sherry Turkle, 2011-09-30 Passion for objects and love for science scientists and students reflect on how objects fired their scientific imaginations This is a book about science technology and love writes Sherry Turkle In it we learn how a love for science can start with a love for an object a microscope a modem a mud pie a pair of dice a fishing rod Objects fire imagination and set young people on a path to a career in science In this collection distinguished scientists engineers and designers as well as twenty five years of MIT students describe how objects encountered in childhood became part of the fabric of their scientific selves In two major essays that frame the collection Turkle tells a story of inspiration and connection through objects that is often neglected in standard science education and in our preoccupation with the virtual The senior scientists essays trace the arc of a life the gears of a toy car introduce the chain of cause and effect to artificial intelligence pioneer Seymour Papert microscopes disclose the mystery of how things work to MIT President and neuroanatomist Susan Hockfield architect Moshe Safdie describes how his boyhood fascination with steps terraces and the wax hexagons of beehives lead him to a life immersed in the complexities of design The student essays tell stories that echo these narratives plastic eggs in an Easter basket reveal the power of centripetal force experiments with baking illuminate the geology of planets LEGO bricks model worlds carefully engineered and colonized All of these voices students and mentors testify to the power of objects to awaken and inform young scientific minds This is a truth that is simple intuitive and easily overlooked

American Book Publishing Record, 1981
