Reading Like a Writer Francine Prose, 2012-04-01 In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour, and wisdom, Reading Like a Writer will inspire readers to return to literature with a fresh eye and an eager heart to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carr for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading.

Modern Reading Practices and Collaboration Between Schools, Family, and Community Almeida, Ana Patrícia, Esteves, Sandrina, 2022-04-29 Language is one of the greatest predictors of personal, social, academic, and professional success. No one is born a reader; instead, learning to read is a process that requires time, effort, and availability. The only way for reading comprehension to develop is through practice; one learns to read by reading. As such, it is integral to acknowledge the importance of knowing how to read and facilitating this skill in schools and at home. Reading is a cornerstone for learning, and no child will know academic success if their reading ability is compromised. Modern Reading Practices and Collaboration Between Schools, Family, and Community is a premier reference book that consolidates knowledge on reading competence. It presents the processes inherent in the act of reading and the mechanisms underlying the teaching and learning of reading, as well as all recent research in this area. Covering topics such as communication, development, learning, motivation, and transliteracy, this innovative title is an excellent resource for preservice teachers, childhood educators, educators of K-12 and higher education, academic libraries, teacher training, lecturers, faculty, and administration of K-12 and higher education, researchers, and academicians.

Literacy in Teacher Preparation and Practice Patrick M. Jenlink,2022-04-01 Today the meaning of literacy what it means to be literate has shifted dramatically Literacy involves more than a set of conventions to be learned either through print or technological formats Rather literacy enables people to negotiate meaning The past decade has witnessed increased attention on multiple literacies and modalities of learning associated with teacher preparation and practice Research recognizes both the increasing cultural and linguistic diversity in the new globalized society and the new variety of text forms from multiple communicative technologies There is also the need for new skills to operate successfully in the changing literate and increasingly diversified social environment Linguists anthropologists educators and social theorists no longer believe that literacy can be defined as a concrete list of skills that people merely manipulate and use Rather they argue that becoming literate is about what people do with literacy the values people place on various acts and their associated ideologies In other words literacy is more than linguistic it is political and social practice that limits or creates possibilities for who people become as literate beings Such understandings of literacy have informed and continue to inform our work with teachers who take a sociological or critical perspective toward literacy instruction Importantly as research indicates the disciplines pose specialized and unique literacy demands Disciplinary literacy refers to the idea that we should teach the specialized ways of reading understanding and thinking used in each academic discipline such as science mathematics engineering history or literature Each field has its own ways of using text to create and communicate meaning Accordingly as children advance through school literacy instruction should shift from general literacy strategies to the more specific or specialized ones from each discipline Teacher preparation programs emphasizing different disciplinary literacies acknowledge that old approaches to literacy are no longer sufficient

Literacy in Teacher Preparation and Practice: Enabling Individuals to Negotiate Meaning introduces the reader to a collection of thoughtful research based works by authors that represent current thinking about literacy across disciplines and the preparation of teachers to enter classrooms Each chapter focuses on teaching guided by

literacies across disciplines and the preparation of teachers who will enter classrooms to instruct the next generation of students

How to Read Like an Anti-Fascist

Annette Wannamaker, 2025-06-03 On the urgent need to promote critical reading skills amidst rising authoritarianism Children's author Philip Pullman famously said that There are some themes some subjects too large for adult fiction they can only be dealt with adequately in a children's book While the recent rise of fascist ideology in the United States might seem a subject too large and adult to be dealt with in literature for children or teens Annette Wannamaker proposes in *How to Read Like an Anti Fascist* that there are books aimed at future generations which critique and counter fascist propaganda and mythmaking Works of literature can reflect fascist ideology and promote it as well but Wannamaker proposes that some books also offer tools for understanding it Books written for beginners can introduce readers to complex concepts break big ideas into manageable parts and teach readers how to read the world outside of the book Antifascist books are ones that analyze fascistic rhetoric and storytelling educate about America's long history of authoritarianism and highlight various facets of fascism such as scapegoating others and reasserting patriarchal power From *The Emperor's New Clothes* and the tales of Superman to Mildred Taylor's *Roll of Thunder Hear My Cry* the 1619 Project and contemporary works such as *All Boys Aren't Blue* and *Donald Builds the Wall* Wannamaker shows how the ethos of authoritarianism is characterized by a strict hierarchy that places children at its very bottom In doing so she argues convincingly that books written for young people can provide a particular view from the bottom a perspective well suited to interrogating systems of power

In these changing times of global flows of media and technologies and reports of declining reading enjoyment, researchers, policymakers, and educators need to engage anew with essential issues of what counts as reading, what kinds of reading matter, and how to support teen reading engagement in school and out of school settings. Bringing together contributions from well-known and emerging adolescent literacy researchers from different disciplinary perspectives, this edited collection consolidates contemporary research on teens' volitional print and digital reading, whether in school or out of school contexts. The first part of the book offers overviews of what teens are reading, followed by chapters on community support on reading and new ways of researching teen reading. With chapters from North America, Europe, Australia, Asia, and the Middle East, the collection will offer multifaceted and complex insights into what, how, and why teens read in different contexts. Reflection questions at the end of each chapter encourage readers to consider how the research can be applied in their own research, policy, and practice contexts. This book will be of interest to researchers, policymakers, and educators who are invested in supporting adolescent engaged reading with evidence-based policies and strategies.
