Reading Lacan's Écrits: From 'Signification of the Phallus' to 'Metaphor of the Subject' Stijn Vanheule, Derek Hook, Calum Neill, 2018-10-09 The écrit was Jacques Lacan's single most important text a landmark in psychoanalysis which epitomized his aim of returning to Freud via structural linguistics philosophy and literature Reading Lacan's écrits is the first extensive set of commentaries on the complete edition of Lacan's écrits to be published in English An invaluable document in the history of psychoanalysis and one of the most challenging intellectual works of the twentieth century Lacan's écrits still today begs the interpretative engagement of clinicians scholars philosophers and cultural theorists The three volumes of Reading Lacan's écrits offer just this a series of systematic paragraph by paragraph commentaries by some of the world's most renowned Lacanian analysts and scholars on the complete edition of the écrits inclusive of lesser known articles such as Kant with Sade The Youth of Gide Science and Truth Presentation on Transference and Beyond the Reality Principle The originality and importance of Lacan's écrits to psychoanalysis and intellectual history is matched only by the text's notorious inaccessibility

Reading Lacan's critics is an indispensable companion piece and reference text for clinicians and scholars exploring Lacan's magnum opus. Not only does it contextualize, explain, and interrogate Lacan's arguments, it provides multiple interpretative routes through this most labyrinthine of texts. Reading Lacan's critics provides an incisive and accessible companion for psychoanalysts and psychoanalytic psychotherapists in training and in practice, as well as philosophers, cultural theorists, and literary, social science, and humanities researchers who wish to draw upon Lacan's pivotal work.

Reading Seminars I and II Richard Feldstein, Bruce Fink, Maire Jaanus, 1996-02-22. In this collection of essays, Lacan's early work is first discussed systematically by focusing on his two earliest seminars: Freud's Papers on Technique and The Ego in Freud's Theory, and in the Technique of Psychoanalysis. These essays by some of the finest analysts and writers in the Lacanian psychoanalytic world in Paris today carefully lay out the background and development of Lacan's thought. In Part I, Jacques Alain Miller spells out the philosophical and psychiatric origins of Lacan's work in great detail. In Parts II, III, and IV, Colette Soler, Eric Laurent, and others explain in the clearest of fashions the highly influential conceptualization Lacan introduces with the terms symbolic, imaginary, and real. Part V provides the first sustained account in English to date of Lacan's reformulation of psychoanalytic diagnostic categories: neurosis, perversion, psychosis, and their subcategories, their theoretical foundations, and clinical applications. Ample case material is provided here. Parts VI and VII of this collection take us well beyond Seminars I and II, relating Lacan's early work to his later views of the 1960s and 1970s. Slavoj Žižek explores the complex philosophical relations between Hegel and Lacan regarding the subject and the cause. And Lacan's article "On Freud's Trieb and the Psychoanalyst's Desire" that appears here for the first time in English and is brilliantly unpacked by Jacques Alain Miller in his "Commentary on Lacan's Text" takes a giant step forward to 1965, where we see a crucial reversal in Lacan's perspective: desire is suddenly devalued, the defensive, inhibiting nature of desire coming to the fore. What then becomes essential is the drive as an activity related to the lost object that produces *jouissance*.

Reading Freud Jean-Michel Quinodoz, 2013-12-16. Winner of the 2010 Sigourney Award. Reading Freud provides an accessible outline of the whole of Freud's work from *Studies in Hysteria* through to *An Outline of Psychoanalysis*. It succeeds in expressing even the most complex of Freud's theories in clear and simple language whilst avoiding oversimplification. Each chapter concentrates on an individual text and includes valuable background information, relevant biographical and historical details, descriptions of Post-Freudian developments, and a chronology of Freud's concepts. By putting each text into the context of Freud's life and work as a whole, Jean-Michel Quinodoz manages to produce an overview which is chronological, correlative, and interactive. Texts discussed include *The Interpretation of Dreams*, *The Uncanny*, *Civilisation and its Discontents*. The clear presentation, with regular summaries of the ideas raised, encourages the reader to fully engage with the texts presented and gain a thorough understanding of each text in the context of its background and impact on the development of psychoanalysis. Drawing on his extensive experience as a clinician and a teacher of psychoanalysis, Jean-Michel Quinodoz has produced a uniquely comprehensive presentation of
