Reading Reflex

Carol A. Kamara

Reading Reflex:

Reading Reflex Carmen McGuinness, Geoffrey McGuinness, 1999-08-19 Describes the reading education system and provides detailed instructions and diagnostic tests for use by parents *Reading Reflex* McGuinness and McGuinness Staff, 1997-12-01 *Reading with Phonics* Florence Barnes, 2007-02-06 Ever since the sight word method replaced phonics as the way to teach children to read and spell there have been arguments sometimes called the reading wars for and against phonics The author remembers far enough back to the days before all this started when teaching letters and sounds went without saying and parents could depend on the school system to teach their children to read Reading difficulties forced theorists to re think their strategies so they came up with a philosophy of reading that children would learn to read on their own because they want to learn to read There would be plenty of books classed as children s literature and teachers would be facilitators In *Reading With Phonics* the author discusses reading methods and arguments for and against phonics She tells about some of the children she has tutored since retiring from teaching An earlier book *Learn To Read From Sounds* with an accompanying cassette tape on which phonetically arranged words are read is also available from Trafford Publishing

Poetics of Reading Inge Crosman Wimmers, 2014-07-14 What happens when we read novels and how do we make sense of them Inge Wimmers explores these questions by developing a flexible poetics of reading that generously opens up the interpretive space between reader and text while drawing on current theories of reading and combining rhetorical pragmatic and phenomenological approaches Poetics here is extended beyond the study of purely textual features to structures of exchange between text and reader In a discussion of four major French novels from the seventeenth century to the present the author not only sets up a broad based poetics but also makes important contributions to contemporary issues in the study of narrative Wimmers introduces the concept of multiple interlocking frames of reference that allows for the integration of diverse critical perspectives Analyzing *La Princesse de Cleves* *Madame Bovary* *A la recherche du temps perdu* and *Projet pour une revolution* a New York she shows how texts provide some frames of reference while others are produced by the reader s disposition and cultural milieu Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Early Reading Instruction Diane McGuinness, 2006-01-20 Early Reading Instruction is a comprehensive analysis of the research evidence from early writing systems to computer models of reading In this book Diane McGuinness provides an innovative solution to the reading war the century old debate over the efficacy of phonics sound based versus whole word meaning based methods She has developed a prototype a set of elements that are critical to the success of a reading method McGuinness shows that all writing systems without exception are based on a sound unit in the language This fact and other findings by paleographers provides a platform for the prototype Other elements of the prototype are based on modern research For example observational studies in the classroom show that time spent on three activities strongly predicts reading success learning phoneme symbol correspondences practice at blending and segmenting phonemes in words and copying writing words phrases and sentences Most so called literacy activities have no effect and some like sight word memorization have a strongly negative effect The National Reading Panel 2000 summarized the research on reading methods after screening out thousands of studies that failed to meet minimum scientific standards In an in depth analysis of this evidence McGuinness shows that the most successful methods children reading a year or more above age norms include all the elements in the prototype Finally she argues because phonics type methods are consistently shown to be superior to whole word methods in studies dating back to the 1960s it makes no sense to continue this line of research The most urgent question for future research is how to get the most effective phonics programs into the classroom
