Reading Thai Murals:

Reading Thai Murals David K. Wyatt, 2004 Buddhist temple murals have been a vital form of religious expression in Thailand for centuries In this lively slim volume historian David Wyatt takes a peek behind the scenes to investigate the wider meanings hidden within the beautiful elaborately painted images that adorn Thai temples Wyatt shows how a sensitive reading of these texts from the past can reveal fascinating new insights into the psyche and history of Thai communities David K Wyatt is one of the foremost historians of Thailand He was John Stambaugh Professor of History at Cornell University before he recently retired *The Lovelorn Ghost and the Magical Monk* Justin Thomas McDaniel, 2013-12-01 Focusing on representations of a famous ghost and monk from the late eighteenth century to today Justin Thomas McDaniel builds a case for interpreting modern Thai Buddhist practice through the movements of these transformative figures He follows embodiments of the ghost and monk in a variety of genres and media including biography drama ritual art liturgy film television and the Internet Sourcing nuns monks laypeople and royalty McDaniel shows how relations with these figures have been instrumental in crafting histories and modernities particularly local conceptions of being Buddhist and the formation and transmission of such identities across different venues and technologies Creolization and Diaspora in the Portuguese Indies Stefan Halikowski Smith, 2011-09-23 This book examines the sizeable Portuguese community in Ayutthaya the chief river state in Siam during a period in which Portuguese power in the region declined The analysis turns on the creolization and diaspora that affected this community as well as problems with international trade the Christian conversion process and European rivalries Theravāda Buddhist Encounters with Modernity Juliane Schober, Steven Collins, 2017-09-14 Although recent scholarship has shown that the term Therav da in the familiar modern sense is a nineteenth and twentieth century construct it is now used to refer to the more than 150 million people around the world who practice that form of Buddhism Buddhist practices such as meditation amulets and merit making rituals have always been inseparable from the social formations that give rise to them their authorizing discourses and the hegemonic relations they create This book is composed of chapters written by established scholars in Buddhist studies who represent diverse disciplinary approaches from art history religious studies history and ethnography It explores the historical forces both external to and within the tradition of Therav da Buddhism and discusses how modern forms of Buddhist practice have emerged in South and Southeast Asia in case studies from Nepal to Sri Lanka Burma Cambodia and Southwest China Specific studies contextualize general trends and draw on practices institutions and communities that have been identified with this civilizational tradition throughout its extensive history and across a highly diverse cultural geography This book foreground diverse responses among Therav dins to the encroaching challenges of modern life ways communications and political organizations and will be of interest to scholars of Asian Religion Buddhism and South and Southeast Asian Studies **The Flaming Womb** Barbara Watson Andaya, 2006-07-31 The Princess of the Flaming Womb the Javanese legend that introduces this pioneering study symbolizes

the many ambiguities attached to femaleness in Southeast Asian societies Yet despite these ambiguities the relatively egalitarian nature of male female relations in Southeast Asia is central to arguments claiming a coherent identity for the region This challenging work by senior scholar Barbara Watson Andaya considers such contradictions while offering a thought provoking view of Southeast Asian history that focuses on women s roles and perceptions Andaya explores the broad themes of the early modern era 1500 1800 the introduction of new religions major economic shifts changing patterns of state control the impact of elite lifestyles and behaviors drawing on an extraordinary range of sources and citing numerous examples from Thai Vietnamese Burmese Philippine and Malay societies In the process she provides a timely and innovative model for putting women back into world history Andaya approaches the problematic issue of Southeast Asia by considering ways in which topography helped describe a geo cultural zone and contributed to regional distinctiveness in gender construction She examines the degree to which world religions have been instrumental in re constructing conceptions of gender an issue especially pertinent to Southeast Asian societies because of the leading role so often played by women in indigenous ritual She also considers the effects of the expansion of long distance trade the incorporation of the region into a global trading network the beginnings of cash cropping and wage labor and the increase in slavery on the position of women

Erudite nuanced and accessible *The Flaming Womb* makes a major contribution to a Southeast Asia history that is both regional and global in content and perspective

Thailand Maurizio Peleggi, 2007-05-30 Tourist brochures and travel guides depict Thailand as an exotic country with a rich cultural heritage strong religious traditions and a popular monarchy Historians also contribute to Thailand's international allure with chronicles of its unique historical and cultural continuity in comparison to the other southeast Asian countries whose histories are stained by colonialism and nationalist struggles for independence Thailand challenges these stereotypes with a reinterpretation as well as an introduction to the emergence of Thailand as a nation state The book argues that the development of Thai nationhood was a long term process shaped by interactions with the outside world its pursuit of civilization and more recently globalization Maurizio Peleggi's original account investigates among other issues the evolution of the geographical and linguistic landscapes changes in class and gender relations the role of institutions and ideologies modern cultural expressions social memory and the conception of the Thai national self as contrasted against the racial and cultural Others of Burmese Chinese and Westerners Thailand is a concise and compelling introduction to the complexities that lie behind Thailand's exotic facade
