Readings For Social Work Practice Vol II:

Perspectives on Social Group Work Practice Albert S. Alissi, 2008-06-30 Not simply another how to book this provocative collection of readings does not advance a single viewpoint or approach to group work. Instead the 25 selections present the full spectrum of classic and current perspectives providing student and practitioner alike with a sound basis for evaluating contemporary practice and for formulating a personal approach to social group work. The historical and conceptual roots of modern social group work methods are examined in Part I Conceptual Foundations which contains some of the classic statements in the field. Part II Current Perspectives explores the most widely influential contemporary models of group work: social goals perspectives, remedial perspectives and mediative perspectives. The two part section that concludes the volume focuses on applications: group work is first discussed in relation to family and community casework and administration, then self help groups and other techniques used in the fields of medicine, counseling and psychology are surveyed in light of their implications for social workers. To encourage the reader's active participation in the development of an individual philosophy and approach to social group work, Dr. Alissi concludes each chapter with probing study questions. These open ended questions stimulate comparisons among the methods presented and urge the reader to relate new ideas to his or her own experience in the field. Introductions to each part and chapter also stress comparative aspects. An annotated list of articles and books on the subject of each chapter allows the reader to explore it in greater depth. A stimulating and systematic exposure to the most important ideas in social group work today. Perspectives on Social Group Work Practice expands the repertoire of working concepts vital to contemporary practice.

Social work in the 21st century (Prof.) Mogomme A. Masoga, Allucia L. Shokane, Annaline Keet, Varoshini Nadesan, 2024-12-30 This scholarly book Social work in the 21st century: Scholarship and praxis reimagined towards vulnerability is the third volume in the Knowledge Pathing Multi Inter and Trans Disciplining in Social Sciences book series. Chapters were invited from contributing authors who are involved in social work practice and education and who are dealing with the issues of poverty, inequality and vulnerability in these fields. The focus of the book emanates from the main conference theme and sub themes of the ASASWEI Association of South African Social Work Education Institutions conference held in 2021. The theme of the conference: Pandemics, poverty, inequality and disability. Social work in the 21st century provided an opportunity for deep deliberation, knowledge exchange and skills development on how vulnerable communities already on the economic margins of society due to poverty and inequality are further marginalised during significant societal disruptions such as the coronavirus 2019 COVID 19 pandemic. It is these deliberations which culminated in this book. Drawing on the papers presented, the chapters promote knowledge and skills around vulnerabilities in our social context and how the social work profession is challenged to interrogate its role in addressing the persistent challenges of poverty and inequality that keep people on the peripheries of human development. The target audience for this book is primarily academics engaged in the field of social work and related fields.
