Reappraisals in Canadian History, Pre-confederation Carl Murray Wallace, 1993 **Foundations**, 2004 **Changing Women, Changing History** Diana Lynn Pedersen, 1996 *Changing Women Changing History* is a bibliographic guide to the scholarship both English and French on Canadian's women's history Organized under broad subject headings and accompanied by author and subject indices it is accessible and comprehensive **Canada** James M. Roth, 2024-09-18 The history of Canada can seem like a subject as large and expansive as the country itself and for those of us who haven't attended a history class in a while it may just feel too big to tackle Academic histories full of footnotes and jargon aren't for everyone but everyone deserves to know the history of the country they call home Direct but never dry historian James M

Roth starts at the country's geographical beginnings at the end of the last Ice Age and weaves Canada's tale from there. From contrasting early New World civilization against established Old World tradition contextualizing Indigenous history within the rest of Canadian history explaining today's complex relationships between English and French Canadians with a play by play analysis of events giving meaning to countless social and political movements by looking at the bigger picture and covering everything else in between in commuter length chapters *Canada The First 20 000 Years* is a history book for the everyday Canadian. *Encyclopedia of the Atlantic World, 1400-1900* David Head, 2017-11-16 A first of its kind reference resource traces the interactions among four Atlantic facing continents Europe Africa and the Americas including the Caribbean between 1400 and 1900. Until recently the age of exploration and empire building was researched and taught within imperial and national boundaries. The histories of Europe Africa North America and South America were told largely as independent stories with the development of individual places within each continent further separated from each other. The indigenous populations of places colonized by Europeans fit into the history even more uneasily often mentioned only in passing. *Encyclopedia of the Atlantic World 1400 1900* synthesizes a generation of historical scholarship on the events on four continents providing readers an invaluable introduction to the major people places events movements objects concepts and commodities of the Atlantic world as it developed during a key period in history when the world first started to shrink. The entries discuss specific topics with an eye toward showing how individual items people and events were connected to the larger Atlantic world. This accessibly written reference book brings together topics usually treated separately and discretely alleviating the need for extra legwork when researching and it draws from the latest research to make a vast body of scholarship about seemingly far flung places available to readers new to the field. *Taking Medicine* Kristin Burnett, 2011-07-01 Hunters medicine men and missionaries continue to dominate images and narratives of the West even though historians have recognized women's role as colonizer and colonized since the 1980s. Kristin Burnett helps to correct this imbalance by presenting colonial medicine as a gendered phenomenon. Although the imperial eye focused on medicine men Aboriginal women in the Treaty 7 region served as healers and caregivers to their own people and to settler society until the advent of settler run hospitals and nursing stations. By revealing Aboriginal and settler women's contributions to health care *Taking Medicine* challenges traditional understandings of colonial medicine in the contact zone. *Toleration and State Institutions* Karen Stanbridge, 2003-01-01 *Toleration and State Institutions* explores the rise of more charitable British policy toward Catholics in Ireland and in Quebec beginning in the latter half of the eighteenth century. Karen Stanbridge carefully demonstrates that Catholic relief arose more gradually and encountered less opposition than is generally maintained. This work sheds new light on the official treatment and mistreatment of minorities at home during the height of British expansion abroad offering a fascinating example of the divisions and rapprochements that characterize the relationship between state and society. *The Identities of Marie Rose Delorme Smith* Doris Jeanne MacKinnon, 2012 This book relates the history and
