Guillermo, 2011-12-16 Asia is one of the most rapidly developing regions in the world and knowledge of the individual countries is crucial for our understanding of the area The Republic of the Philippines composed of a chain of islands in Southeast Asia became a Spanish colony during the 16th century and was then ceded to the United States following the Spanish American War After independence in the 20th century the Filipino people suffered under the 20 year rule of the dictator Ferdinand Marcos which ended as a result of a people power movement in 1986 Since then the history of the Philippines has been marked by several more political coups but a growing economy and democratic elections are increasing stability in the country Artemio R Guillermo covers more than four centuries of Filipino history in this newly expanded and updated third edition of the Historical Dictionary of the Philippines which contains more than four hundred entries on important persons places events and institutions An updated introduction with a detailed chronology precedes the dictionary and lays out the current situation in the region while a comprehensive bibliography at the end of the dictionary leads the reader to additional sources This book is an excellent access point for students researchers and anyone wanting to know more about the Philippines An Introduction to Philippine History José S. Arcilla, 1984 White Love and Other Events in Filipino History Vicente L. Rafael, 2014-06-18 In this wide ranging cultural and political history of Filipinos and the Philippines Vicente L Rafael examines the period from the onset of U S colonialism in 1898 to the emergence of a Filipino diaspora in the 1990s Self consciously adopting the essay form as a method with which to disrupt epic conceptions of Filipino history Rafael treats in a

condensed and concise manner clusters of historical detail and reflections that do not easily fit into a larger whole *White Love and Other Events in Filipino History* is thus a view of nationalism as an unstable production as Rafael reveals how under what circumstances and with what effects the concept of the nation has been produced and deployed in the Philippines With a focus on the contradictions and ironies that suffuse Filipino history Rafael delineates the multiple ways that colonialism has both inhabited and enabled the nationalist discourse of the present His topics range from the colonial census of 1903 1905 in which a racialized imperial order imposed by the United States came into contact with an emergent revolutionary nationalism to the pleasures and anxieties of nationalist identification as evinced in the rise of the Marcos regime Other essays examine aspects of colonial domesticity through the writings of white women during the first decade of U S rule the uses of photography in ethnology war and portraiture the circulation of rumor during the Japanese occupation of Manila the reproduction of a hierarchy of languages in popular culture and the spectral presence of diasporic Filipino communities within the nation state A critique of both U S imperialism and Filipino nationalism *White Love and Other Events in Filipino History* creates a sense of epistemological vertigo in the face of former attempts to comprehend and master Filipino identity This volume should become a valuable work for those interested in Southeast Asian studies Asian American studies postcolonial studies and cultural studies

A History of the Philippines Samuel K. Tan, 2008 Briefly describes the human history and culture of the Philippines focusing on three Filipino cultural communities the Moros the Indios and the Infiles and examining how these groups reflect the country's history and development

A History of the Philippines Renato Constantino, Letizia R. Constantino, 1975 Unlike other conventional histories the unifying thread of *A History of the Philippines* is the struggle of the peoples themselves against various forms of oppression from Spanish conquest and colonization to U S imperialism Constantino provides a penetrating analysis of the productive relations and class structure in the Philippines and how these have shaped and been shaped by the role of the Filipino people in the making of their own history Additionally he challenges the dominant views of Spanish and U S historians by exposing the myths and prejudices propagated in their work and in doing so makes a major breakthrough toward intellectual decolonization This book is an indispensable key to the history of conquest and resistance in the Philippine
